## PROF. WOOD'S HAIR RESTORATIVE

SEE WHAT OTHERS SAY OF IT,

A Distinguithed St. Louis Physician Writes A Distinguished St. Louis Physician Writes
Sr. Louis, July 10, 1860.

O. J. WOOD, Esq.: Dear Sir: — Allew me the pleasure
and satisfaction to transmit to you the beneficial effects
of your Hair Restorative, after a trial of five years. Commenced using your Restorative in January, 1885,
since which time I have not been without a bottle on
hand. When I commenced the use, my hair was quite
thin, and at least one-third gray. A few applications
stopped its turning, and in three weeks time there was
not a gray hair to be noticed, neither has there been up
to this time.

WARM SPRINGS, Perry Co., Pa., June 7, 1850.

Prof. WOOD, Dear Sir:—I was induced more than year ago to try your valuable Hair Restorative for the purpose of cleansing my head of daudruff. I had suffered with it upon my head for years, and had never been able to get anything to do me any good in removing it, al though I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Groes & Kunkle's drug store, and bought a bottle, and now am prepared to recommend it to universal use, for it has completely removedall dandruff from my head, and an application once in two weeks keeps it free from any itshing or other unpleasantness.—I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain in order to have my appearance comport with my age. My head is now of lees trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, although I do not like to expose mysolf, I consider it my duty to do so. Vou can use this or any part of it is any shape you think proper, if it is worth any thing to you.

Respectively.

BLOOMINGTON, Ind., July 30, 1859.

BRAR SIR: I here send you a statement that I think
you are entitled to the benefit of. I am a resident of
Blosmington, and have been here for ever thirty years. you are entitled to the benefit of. I am a resident of Blosmington, and have been here for over thirty years. I am now over fifty years of age. For about twenty years past my hair has been turning considerably gray, and was almost entirely white and very suif and unpliant. I had seen a number of certificates of the very wonderful effect of your Hair Restorative but supposed there was more fiction than truth in them: but entertaining a strong desire to have my hair, if possible, restored to its original color and fineness, as it was in my younger days a beautiful black, I concluded I would make the experiment commencing in a small way. I purchased one of your small bottles, at one dollar, and commenced using, following directions as nearly as I could. I soon discovered the dandruff removed, and my hair, that was falling off in large quantities, was considerably tightened, and a radical change taking place in the color. I have continued to use it, till I have used three of your small bottles and just begun on the fourth. I have now as pretty a head of dark brown, or light black hair as any man, or as I had in my youthful days, when a boy in the hills of Western Virginia. My head is entirely clear of dandruff, and the hair ceased entirely falling off and is as soft and fine, and feels as oily, as though it was just from the hands of a French champooner. Many of my acquaintances frequently say to me "Butler, where did you get that fine wig?" I tell them it was the effect of your kestorative. It is almost impossible to convince them that it is the original hair of the same old gray head.

Yours, truly,

FREDERICK T. BUTLER,

Bloomington, Monroe Co., Ind.

Wood's HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be en hanced by newspaper puffs. wood's HAB KESTORATY.—We are not in the habit of pulling every new discovery, for in nine cases out of ten they are quack nostrums, but we take great pleasure in racommending Professor Wood's article to all whose hat is falling off or turning gray. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snew in summer.—Baltimore Patriot.

Wood's Hair Remorative.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to pristine vigor. Where the head had become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicates dandruff and other impurities, which operate so injuriously to the hair. It also has curative properties of another description. In many cases pimples and other disfigurements of the skin disappear wherever its used. There is no hazard attaching to the trial of his remedy, and its effects can only be beneficial, as the compound if it does not cause a mrnifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—Botton Transcript, April 22, 1859.

A GRNUNE BOON.—In our capacity as conductor of a public journal, we are called upon to advertise the curealls of the day, each of which claims to be unadulterated in its composition and infallible in its curative effects, with what justice we leave our readers to determine. In one instance, however—Prof. Wood's Hair Restorative —we are so well assured of the notable qualities of the article, that we give it our indorsement as all that its inventor and vender claim it to be. Its effect upon a failing head of hair is universally known to be magical. Like lime or guano on exhausted land, it brings its crop wherever applied. Our own thatch is fortunately very healthy, but we advise our friends with sparsely-growing hair to try the Restorative.—Columbia Spy.

All Har Dyes Aramdoned.—Word's Great Article has Taken the Field.—Professor Wood stands on an emine noe no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is sudden but world-wide, and thousands who have worn wigs or been bald for years are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry, the chemistry of human life, and the laws which apply to the sunctions of the system. Prof. Wood studied out the human hair, its character, its properties and diseases, and how to restore the decaying vitality to that ornament; he saw, as in his ewn case, that gray hair is unnatural unless the age of the individual has reached four score, and he believed that the hair could be naturally revitalized. He tried his own case—almost bald and quite gray, at the age of thirty-seven—he restored his own hair in color, strength and luxuriance, and the article he did it with he gave to the world. DR. JOHNSTON.

Dr. Johnson member of the Royal College of Surgeome, London, graduate from one of the meet emittent Congress of the United States, and the greatest part of whose has been spent in the Hospitals of London, Paris, Phinadelphia and claewhere, has effected some of the meet tootshing cures that were ever known. Many troublet with ringing in the ears and head when askeep, great her yousness, being alarmed at studden sounds, bashfulness with frequent blushing, attended sometimes with derangement of mind were cured immediately.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who having injured themselves by private and improper indulgencies, that serve and solitary habit which ruins both body and mind, unfitting them for either businessor society.

These are some of the and and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight Loss of Muscular Power, Papitation of the Beart, Dypepsia, Nervous Irritability, Derangement of the lygistre Functions, General Doblity, Symptoms of Communition, &c.

MENTALLY.

MENTALLY.

MENTALLY, the fearful effects on the mind are much to be dreaded:—Loss of Memory, Confusion of Ideas, be pression of Spirits, Evil Forebodings, Aversion to some ty, Self-distrust, Love of Solitude, Timidity, &c., are some of the evil effects.

Thousands of persons of all ages, can now judge what is the cause of their decline in health, losing their vigor, becoming weak, pale, nervous and emaciated, have a singular appearance about the eyes, cough, and symp ms of consumption.

should apply immediately.

What a pity that a young man, the hopes of his country, the darling of his parents, should be statemed from
all prospects and enjoyments of life by the consequences
of deviating from the path of nature, and insulging in a
certain secret habit. Such persons must, before contemplating
