HARRISBURG.

Monday Afternoon, March 4. 1861.

EMPTY. -The Lock up was tenantless last night, the mild weather doubtless inducing the "vags" to "rough" it in the open air.

FAST DRIVING.—Two cases of fast driving in the city in violation of the ordinances, will be heard before the Mayor this evening.

WILD DUCKS.—The Susquehanna for the last few days has been teeming with wild ducks to the great delight of our sportsmen who "bag" a number of them daily.

THE CITY SURVEY COMMISSIONERS have nearly completed their labors, and we understand a plot of the city will be submitted to the Court for approval some time this week.

NEW LOCOMOTIVE .- A splendid new locomotive came over the Reading Railroad yesterday, destined for the Comberland Valley Railroad. It is named "Col. Gher," after a prominent citizen of Chambersburg.

THE SHOPS of the Pennsylvania Railroad company at Parksburg are about to be closed, and their contents removed to the new shops of the company in this city. We understand that a large number of the workmen contemplate removing here with their families this Spring.

STRAILING TURKIES.—A dilapidated looking negro, who rejoiceth in the cognomen of "Yankee Notions," was arrested this morning by officer Fleck charged with stealing turkles from a farmer named Miller, residing near this city. Yankee was deposited in the Walnut street institution to answer the charge.

A MISTAKE, -We osberve that a number of our exchanges are under the impression that against him. I know this to be a fact, and I the bill for the suppression of fortune telling (which includes a penalty for practising spiritual rapping) has become a law. This is a mistake. The bill has only passed the House of Representatives, and has not yet been acted eron. The great difficulty which embarrassed upon by the Senate.

How to ADVANCE.—The advance of the world depends upon the use of small balances of advantage over disadvantage, for there is compensation everywhere and in everything. No one discovery resuscitates the world-certainly no physical one. Each new good thought or word, or deed, brings its shadow with it, and as we have just said, it is upon the small balances of gain that we get on at all; how important then it is to make your purchase of dry goods at Union & Bowman's, south east corner of Front and Market streets where the assortment is large and at the lowest cash prices. 2+

GOOD FOR THE SONS OF MALTA. - The Sons of Malta, in New Orleans, have given evidence, that although they may like the treason that their section profits by, they despise the traitor. Witness the following communication which has been received by Minne ha-ha Lodge, of Philadelphia:

FROM THE FEDERAL CAPITAL

[Correspondence of the Telegraph.].

Washington, March 2, 1861. There is an understanding to-day that the cabinet has been finally fixed upon by Mr. Lincoln. He will hear no further conversation on that subject, and has peremptorily refused to listen to any suggestions in regard to any of fair of the Good Will Fire Company, are re- his other appointments until after the inauguquested to meet at the store of Mr. William ration. This resolution gives Mr. Lincoln time vigorate him for the burdens and excitement which will attend his position after Monday next. The cabinet will be composed of the following gentlemen:

Secretary of State-William H. Seward, N.Y. Treasury—Solomon Chase, O. War—Simon Cameron, Pa. Navy—Montgomery Blair, Md. "Interior—Caleb Smith, Indiana. Post Master General—Gideon J. Wells, Conn.

Attorney General—Edward Bates, Mo.

The great contest was for the Treasury De partment, and had it not been for the courtesy of General Cameron in complying with the urgent request of Mr. Lincoln, much embarrassment might have arisen from the struggle for this position. It was a well known fact that the President elect had tendered the Treasury Department to Gen. Cameron, who had the tender under consideration, and the struggle tender under consideration, and the struggle which grew out of this circumstance on the part of those who opposed Gen. Cameron rather strengthened Mr. Lincoln's predeliction for than against him. I know this to be a fact, and I also know that Mr. Lincoln scorned to give credence to any of the silly slanders which were put in circulation in this city for the purpose of damaging the character of Gen. Cameron. The great difficulty which embarrassed Mr. Lincoln for a few days, was the position which Mr. Chase, of Ohio, has always assumed and maintained towards him. For many years the most cordial intimacy has existstrange that Mr. Lincoln became embarrassed by the contest for the Tressury, from which he name and claim of Gen: Cameron, At the urgent

solicitation of the President elect, and after A had made a personal appeal Gen. Cameron withdrew his name, and then was induced to secent the War Department. This acceptance was insisted on by Mr. Lincoln, who frankly declared that he would not consider his administration a permanent success without the support and counsel of Gen. Cameron. The fact. too. that the success of the Tariff during the late session of Congress, fixes the policy of Mr. Lincoln's administration, makes it a matter of little difference who is in the Treasury Department. Without the present Tariff, Gen. Cameron would scarcely have been willing to give up his claims. With our revenue laws fairly adjusted he can grant to the administration of Mr. Lincoln with the fullest confidence that the great industrial interests of the country are entrenched behind that just pro-

Hon, Edgar Cowan, Senator elect from Pennsylvania has been in the city for several days and to day was on the floor of the House, receiving the congratulations and compliments of his Republican friends. He has created a very favorable impression on all with whom he sational powers. His debut in the Senate is anticipated as a success, while his more intimate and personal friends predict for him a highly useful and brilliant career, Mr. Cowan is certainly a man of rare attainments and powerful intellect. His knowledge is all. of a practical and scientific order, while his tastes run in channels of real use and benificence. After a few month's acquaintance with the business of legislation, and a more extensive intercourse with public men, than Mr. Cowan has had the opportunity of enjoying while in the practice of his profession, he will prove

A Distinguished St. Louis Physician Writes

A Distingulahed St. Louis Physician Writes

St. Louis July 10, 1860.

O. J. WOOD, Esq.: Dear Sir :— Allew me the pleasure and satisfaction to transmit to you the beneficial effects of your Hair Restorative, after a trial of five vears a commenced using your Restorative in January, 1855, sincewhich tims. I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its turning, and in three weeks time there was not a gray hair to be noticed, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times per month. My hair has ever c ntinued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the fasts above mentioned will be of any particular advantage to you, or even faiter your vanity at this late day, as I am well aware they are all known already and even more wonderful ones throughout-the Union. I have occupied my time in travelling the greater part of the time in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people that have pronounced it a humbug; anying they have used it and without effect. In every instance, however, it proves, by probing the maiter, that they had not used your article at all, but had used some new article said to be as good as yours, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently some of those charitans have not brains enough to write an advertisement, as I notice they have copied yours word for word in several instances, merely inserting some other name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect

WARM SPEIRMS, Perry Co., Pa., June 7, 1850.

Prof. WOOD, Dear Sir.—I was induced more than year ago to try your valuable Hair Restorative for the purpose of cleansing my head of dandruff. I had suffered with it upon my head for years, and had never been able to get anything to do me any good in removing it, al though I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Gross & Kunkle's drug store, and bought a bottle, and now am prepared to recommend it to universal use, for it has completely removedall dandruff from my head, and an application once in two weeks keeps it free from any itching or other unpleasantness.—I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 60 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, although I do not like to expose myself, I consider in your, &c., Yours, &c., Yours, &c., H. H. RITER.

Wood's Hair RESTORATIVE.—We are not in the habit of WCCD'S HAIR KERGRATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of tea they are quack nostrums, but we take great pleasure in racommending Professor Wccd's article to all whose hair is falling off or turning gray. Our well known contributor, Finley Johnson, Eq., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snow in summer.—Baltimore Patriot.

Wood's Hare Regroative.—Unlike most specifics, this is proved, by unimpochable evidence, to possess great efficacy as a restorer of the hair to pristine vigor. Where the head had become almost baid because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually evidence and advict and other impurities, which operate so injuriously to the hair. It also has curative properties of another description. In many cases pimples and other disfigurements of the skin disappear when ever it is used. A GENUINE BOON,—In our capacity as centuator of a public journal, we are called upon to advertise the curalis of the day, each of which claims to be unadditerated in its composition and intallible in its composition. But into the instance however—Prof. Wood's Hair Restorative—we are so well assured of the notable qualities of the article, that we give it our indorsement as all that its in ventor and vender claim it to be. Its effect upon a failing head of hair is universally known to be migical. Like lime or guano on exhausted land, it brings its crup wherever applied. Our own thatch is fortunately very healthy, but we advise our friends with sparsely growing hair to try the Restorative—Columbia Spy.
