Miscellaneons.

CONCENTRATED LEAVEN,

FOR MAKING

Bread, Tea-Cakes, all kinds of Pastry, &c.

MANUFACTURED BY EDW. CHAMBERLIN & CO.,

Proprietors of Shawmut Chemical Works. No. 33 INDIA STREET, Boston

NONCENTRATED LEAVEN is the re-ONCENTRATED LEAVEN 18 the 16-outs are proposed in the highest state of purity, and com-pounded with a view to produce bread of a far better quality, and in much less time, than by any other pro-cess: and by the manufacturers submit it, with entire, condidence, to the judgment of discriminating house-keepers, bakers, &c.

Breat of all kinds made by using Concentrated Leaven s lighter, more digestible and nuitritions; has an agroea, lee, natural tasle; is less liable to sour; will retain its noisture longer than by any other process, and the phote preparation for the oven need not exceed ten

ninutes.

It is valuable because it is not perishable, and may be rendered available in places and at times when yeast is not within reach, as at sea. In all climates and under all circumstances, it may be adopted, thus obvicting all difficulty of procuring yeast or other ferme t, which is frequently of an inferior quality, rei dering the bread more or less nuwholasms.

frequently of an inferior quality, rel dering the bread more or loss unwholosome.

It is also valuable as regards economy, as it has been ascertained that a saving is effected in the flour of not less than 16 percent. In the common process much of the saccharins of the flour is lost by being converted into carboule acid gas, or spirit, and the waste is incurred solely for the purpose of generating gas to raise the dough. By using Concentrated Leaven this waste is avoided, and the gas obtained in a manner equally efficacious. Fermentation, as has been stated, destroys a part of the flour or meal, end, in consequence, a barrel of flour weighing 196 bs., which, by the common method, ordinarily makes about 250 bs of bread, gives by this process 290 bs, thus effecting the very important saving of 16 per cent. in the quantity of flour. By conformity to the directions on each package, any person capable of ordinary attention may conduct the process, and the result will invariably be highly satisfactory.

CERTIFICATE FROM DR. HAYES,

CERTIFICATE FROM DR. HAYES,
Assayer to the State of Massachusetts.

"I have analysed the Concentrated Leaven, manufactured by Messrs. Edw Chamberlin & Co., with reference to its purity and efficiency of action in producing the effect of yeast in distending dough, and thereby rendering in the making bread. This article is skillfully comfounded, from perfectly pure material. It raises the jough without consuming the augar or any other principle in the flour, perfectly; and the same weight of flour will produce more sweet, palatable bread than can be obtained through yeast; while for cakes and pastry it is navaluable, as it saves all risk, and much time of the pastry cook.

Invaluable, as it saves all lost, and most depending once.

"The experiments made by me confirm the statements made by the manufacturers, and proves this compound worthy of public approval and extended uso.

"Respectfully,"

"A. HAYES, M. D., State Assayer,

"10 Boylston street, Boston, Soptember 25, 1880."

DIRECTIONS.

BREAKRAST AND TEA ROLLS.—Two or three teaspoonsful of Leaven. (according to the quality of the flour; become through a sieve; rub in a piece of butter half the size of an egg, and make the paste with cold milk or water, (milk is preferable.) barely stiff enough to pormit rolling out. Much kneading should be avoided. Cut into desired form, and place immediately in a hot oven and bake quickly.

Brokweent Cares.—Flour and milk sufficient to make one quart of batter; add one egg, then three teaspoons of of Leaven; beat to a froth, and cook quick. Durries.—Sift together one quar to flour and two tea spoons ful of Leaven; rub in a piece of butter half as large as an egg; mix with cold milk or water, and boil tex minutes.

minutes.

CHAMER STREET CARE.—Sift together two large cups
of flour and two teaspooneful of Leaven; put in haif a sup
of butter and a cup and a half of sugar; mix with tee
milk or water to a stiff batter, add sploeto suit the oupsta

about hair an nour.

R. NEWELL,
Gallery of Art,
724 Arch Street, Philadelphia.

(COMMENDATIONS: From Hon. Lewis D. Campbell, M. C., Ohio. My family and friends all concur in the opinion that the (Newell) Picture is mere life-like than anything they ever saw. My likeness has been repeatedly taken by different Artists in various ways, but I have never yet had one which presents so true to nature, all the features and expressions of countenance as this.

From Hon. E. Joy Morris, late Minister to Italy. The exquisite finish, beauty and softness of your por-traits, conjoined with their durability of color and faith-fulness as likenesses, cannot fail to command them to the attention and patronage of all who appreciate true

From Col. James Page.

Having occasion for a portrait, I procured one from Mr. Robert Newell, of the city of Philadelphia, a miniature in Oil Colors, under the new process discovered by him, and take great pleasure in expressing the axisis action given me, not only by the accuracy of the likene ss, but its artistic finish in all respects, and recommend him to the patronage of those disposed to encourage the beautiful art. jan2-1yw
