The Three New Territories.

The bill organizing the new Territories, having been signed by the President, inthe United States to seven, including the previously existing ones of Washington, Nebraska, Utah and New Mexico. We subjoin a description of the new Territo-

Colorado includes parts of Kansas, Nebraska and Eastern Utah. Its boundaries run as follows:—Beginning at a point where the 102d degree of west longitude from Greenwich crosses the 87th parallel of north latitude, thence north along said 102d narallel to where it innorth along said 102d parallel to where it innorth along said 1020 parametre to where It In-tersects the 41st degree of north latitude, thence wast along said line to the 109th degree of west longitude, thence south along said line to the 37th degree of north latitude, thence east along the 37th degree of north latitude, to the place of beginning. The Territory contains about 100,000 square miles, and at this time a population of some 25,000 persons. The Rocky Mountains divide the Territory into two parts, westward flowing from them a large number of rivers, tributary to the Colorado, and eastward others, equally numerous and large, tributary to the Arkansas and South Fork Platte rivers It includes the famous mining region, Pike's Peak, rich in gold and other metals, cut off by deserts from the more fertile Western States, destined to be the home of advancing civilization, and to give up its treasures to the summons of enlightened toil.

NEVADA is taken from Western Utah and California. Its boundaries are as follows :- Beginning at the intersection of the 42d degree of north latitude with the 37th degree of longitude west from Washington; thence running south, on the line of the 116th degree west longitude, until it intersects the northern boundary of the Territory of New Mexico; thence due west to the dividing ridge dividing the waters of Carson Valley from those that flow into the Pacific; thence on this dividing ridge northwardly to the 41st degree of north latitude; thence due north to the southern boundary line of the State of Oregon; thence due east to the place of beginning. That portion of the Territory within the present limits of the State of Cali-fornia is not to be included within Nevada until the State of California shall assent to the same by an act irrevocable without the consent of the United States. The Territory includes the lovely Carson Valley, the memory of whose beauty lingers with the traveler in his journev through arid plains and over ragged mountains, and whose wondrous fertility, even under the rudest cultivation, shows what may be expected there when intelligent industry has free course. Great mineral wealth, especially of silver, in which it is richer than any other part of the world, and unlimited capacity for the raising of agricultural products, will combine at an early day to transform this region into a rich and populous State.

DACOTAH lies between lat. 42 deg. 30. min.

and 49 min. north, and long. 90 deg. 30 min. and 103 deg. west. It is bounded on the north by British America, east by the States of Minnesota and Iowa, south and west by Nebraska. Its length from north to south is 450 miles, its average breadth is about 200 miles, and it has an area of 70,000 square miles. It was formerly, a part of the Territory of Minnesota, but was detached when that became a State. The Indians belonging to the Yankton, Sissiton and Sioux tribes are numerous, and live chiefly by the chase. The Territory includes open the chase, high-rolling prairies, a great number of lakes and ponds, and very numerous valuable rivers. The climate of the south is mild; that of the north severe, though less so than might be expected from its high latitude. The land is well timbered and the valleys are highly productive. Coal abounds in some parts and other minerals add wealth to the region. The game is plentitful, and of great

soon as the Southern peop convinced from experience that a Republican Administration can do them no more barm than Democratic Administrations have done-that their slave property is just as secure under Lincoln as under Polk-that their local laws will not be altered-that their trade in negroes and cotton, rice and sugar, will not be interrapted—that, in short, all their rights will be not merely respected but vindicated and enforced-they will see that they have been imposed upon by political demagogues and scared by empty fears, and will rid themselves of the traitorous schemers who have hurried them into secession and rebellion, in violation of all their own legal and constitutional forms, intended to guard against just such heedless changes.

A NEW BROOM. -- Some admirers of President Lincoln have sent him from Cincinnati a new broom, wherewith to sweep clean the corrupt departments. It is highly ornamented and of mammoth size, the straw being fully a yard in length, the same width at the end and about eight inches thick. The handle is about four inches in diameter, and is em- the Southern Confederacy, have the peobellished with the inscription, "Presented ple, under the right secured to them by to Hon. On each end of ceedings of the revolutionists. In that the handle is painted the stars and stripes view the new government of Jeff. Davis of the Union.

TOWNSHIP ELECTIONS .- We hope our Friday next. Inspectors, Judges, Asses sors, &c., are to be chosen, and it behooves our friends in each district to put forward their best men for these positions and elect them too. Small as these offices may appear, it must be borne in mind that the incumbents are required to perform imcreases the number of the Territories of portant functions. They constitute our Election Boards, and persons occupying positions of that kind should be of such a character as to command the confidence of all parties. We have no doubt that the result throughout the county will be favorable to the Republicans.

Wigfall collapsed. time past, and are yet, busily engaged at the Watervlief arsenal, as we learn from the Troy Times, making gun carriages, preparing caps, cartridges, &c. Thousands of tons of war material have been sent off from that station to Fort Pickens, Jefferson, Tortugas, and other fortifications. Shell, canister and grape shot are being sent off to a fabulous extent, and heavy gun carriages to mount the forts have also been quite plentifully sent away. The southern forts have never to day. A recess will be taken before the end of the week, and it is now daily expected that Mr. Cobb, the President of the Congress, now in a fair way of receiving a supply of now in a fair way of receiving a supply of now in a fair way of receiving a supply of ammunition sufficient to exterminate the country in the section to which the finacountry in the section to the section t terial is sent.

In 1837 Unionists consider its arguments as unanswerable. There is but little doubt that the border he came to this country with his parents, State Conference plan will be adopted, but it is who settled in Cincinnati. He subsequently published a paper at the county seat, Pittsville, called the Pike County Advertiser, from which he was called to a position in the State Treasurer's office, where he took an active part in ferreting out Governor Matteson's delinquencies.

BRIGHAM YOUNG is strongly in favor of secession from this "accursed Union," and with regard to coercion holds the same opinion as the defeated Democrats of Virginia. In a recent letter to a friend he thus expresses himself:

"My people have already experienced the workings of that infernal principle, and this Government has undoubtedly learned how impossible it is for them to coerce or enslave a

On the 4th of January the National Fast was observed; the 4th of February the Peace Convention met for the first time; the 4th of March "Old Abe" was inaugurated; and some people expect that under his Administration the 4th of July may see the thirty-four stars of the Union revolving harmoniously around one common the popularity that Prof. Wood's Hair Restorative has used that Prof. Wood's Hair Restorative and the popularity that Prof. Wood's Hair Restorative and the popularity that Prof. Wood's Hair Restorative has used the ordeal of innumers. ANNOYING TO OFFICE-SEEKERS. -Republican friends will not forget the President Lincoln has a very aggravating Township elections which take place on way of dealing with the office-seekers by whom he is daily beset. He refuses to grant any private interviews, but insists upon receiving all verbal communications in the presence of third parties. By this means he undoubtedly escapes much pertinacious annoyance.

BRECKINRIDGE'S SUPPORTERS.—At a large dinner party given in Washington the other evening, Wigfall essayed to make a speech, and alluded to Mr. Breckinridge's defeat for President in a rather unparliamentary manner. His only excuse was his condition, and Mr. Breckinridge wittily replied that his defeat was BY THE THOUSAND TONS.—One hun- no special wonder when he came to look

HARRISHEG, PR., Barch 22, 1860.

Messrs. G. & U. Merriam—Genilemen:—Accept of my thanks for the beautiful copy of "Web.ter"s Unabridged Quarto Dictionary," received from you through Mr. Hickok, our Superintendent of Common Schools.

Could any commendation of mine add to the testimony in its favor aircady received from so many eminent scholars, whose pursuies give weight to their judgment in matters of this kind, it would be readily given. In my estimation the work is indeed invaluable. It has conferred a larting honor on our country—on its distinguished author—and its enterprising publishers.

With great respect, I am your ob't serv't,

Messrs. G. & C. Merriain—Gentlemen:—I have the honor to acknowledge the receipt from you, through the Hon. H. O. Hickok, Superintendent of Common Schools in this Commonwealth, of a copy of the Pictorial Edition of Webster's Unabridged Dictionary. For this highly esteemed favor I thank you.

This Edition of Webster's Dictionary is of unsurpassed excellence, and deserves the patronage of every friend of American literature. It should be in every library and school throughout out land. The improvements in this upon the former edition, add greatly to its value, and place it fart among the Dictionaries of the English lan guage. The noble efforts of the publishers to give to the world such a work, deserve, and should receive, every possible commendation and encouragement.

These additions form a decided unprovement of this standlard work. The Pictorial Hustrations (over 1,500)

These additions form a decided improvement of this statifiard work. The Prictorial Illustrations (over 1,500 in number and occupying 82 pages,) are beautifully executed, and illustrate those words which most require representation to the eye. They are chiefly arranged in classes or groups—as the terms of Architecture, Botany, Heraldry, &c.; and these little accurate pictures will be invaluable to the teacher, as models from which he may draw add, enlarge on the blackboard. The table of fyrningyms, ever 60 pages and 2,000 words,) may be made of great use, both to teacher, and pupil in composition—The list of how words added to the Dictionary in this appendix (80 pages and 9,000 words), keeps it up with the present date, by incorporating at those words which have fatterly some into the language, either from foreign tongues or the advancement of science, art, and social life amongst ourselves.

have latterly come and tongues or the advancement of science, art, and social life amongst ourselves.

The table giving the Promunciation of the Names of Bistinguished Persons, and the other additions enumerated in the title, are also what they purport to be, and will be found of great utility and interest. Each is conveniently placed in the work, methodically arranged in the 'f's and casy of access. They do not mar the original plan—an objection to the very many new edition—but bring it fully up to the vants of the day, and the present state of the language.
