PROF. WOOD'S HAIR RESTORATIVE

OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writer O. J. WOOD, Esq.: Dear Sir.:—Allew me. the pleasure and satisfaction to transmit to you the beneficial effects of your Hair Restorative, after a trial of , five vears. I commenced using your Restorative in January, 1855, since which tima I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its turning, and in three weeks time there was not a gray hair to be noticed, neither has there been up to this time.

stopped its turning, and in three weeks time there was not a gray hair to be noticed, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times per month. My hair has ever o nituued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the fasts above mentioned will be of any particular advantage to you, or even fatter your vanity at this late day, as I am well aware they are all known already and even more wonderful ones throughout the Union. I have occupied my time in traveling the greater p.rt of the time the past three years, and have taken pride and pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people that have pronounced it a humbur; saying they have used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article said to be as goo! as yours, and selling at about half the price. I have noticed two or three articles my-self advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently some of those charitans have not brains enough to write an advertisement, as I notice they have copied yours word for word in severall instances, merely inserting some other name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness gray hair, scald head, dandruff, and every disease the scalp and head are subject to.

WARM SPRINGS, Perry Co., Pa., June 7, 1850.

Prof. WOOD, Dear Sir:—I was: induced more than year ago to try your valuable Hair Restorative for the purpose of cleansing my head of dandruff. I had suffered with it upon my head for years, and had never been able to get anything to do me any good in removing it, all though I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Gross & Kunkle's drug store, and bought a bottle, and now am prepared to recommend it to universal use, for it has completely removedall dandruff from my head, and an application once in two weeks keeps it free from any itshing or other unpleasantness.—I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, acc., than at any time since I have been a child. I consider your preparation of great value, and, aithough I do not like to expose myself, I consider it my duty to do so. You can use this or any part of it is any shape you think proper, if it is worth any thing to you.

BLOOMINGTON, Ind., July 30, 1859.

DRAR Sir.: I here send you a statement that I think you are entitled to the benefit of. I am a resident of Blosmington, and have been here for over thirty years, I am now over fifty years of age. For about twenty years past my hair has been turning considerably gray, and was almost entirely white and very stiff and unpliant. I had seen a number of certificates of the very wonderful effect of your Hair Restorative but supposed there was more a fotion than truth in them; but enteriaining a strong desire to have my hair, if possible, restored to its original color and fineness, as it was in my younger days; a beautiful black, I concluded I would make the experiment commencing in a small way. I purchased one-of your small bottles, at one dollar, and commenced using, following directions as nearly as is fould. I seen discovered the dandruff removed, and my hair, that was falling off in large quantities, was considerably tightened, and a radical change taking place in the color. I have continued to use it, till I have used three of your small bottles and just begun on the fourth. I have now as pretty a head of dark brown, or light black hair as any man, or as I had in my youthful days, when a boy in the bills of Western Virgina. My head is entirely clear of dandruff, and the hair ceased entirely falling off and is as soft and fine, and feels as olly, as though it was just from the hands of a French champooner. Many of my acquaintances frequently say to me "Butler, where did you getthat fine wig?" I tell them it was the effect of your Restorative. It is almost impossible to convince them that it is the original hair of the same old gray head.

Yours, truly.

FREDERICK T. BUTLER, Bloomington, Monroe Co., Ind.

is falling off or turning gray. Our well known contribu-tor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snow in summer.—Baltimore Patriot.

Wood's Hair Regrogative.—Unlike most specifics, this is proved, by unimperchable evidence, to be uses great efficacy as a restorer of the hair to pristine vigor. Where the head had become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually evidences of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of his remedy, and its effects can only be beneficial, as the compound; it does not cause in mriftest improvement, is incapable of doing harm's fits component elements are perfectly innocuous.—Rotton Transcript. April 22, 1859.

A GREUNE BOOK.—In our capacity as conductor of a public journal, we are called upon to advertise the ourgals of the day, each of which claims to be unadulterated in its composition and infallible in its cirative effects, with what justice we leave our readers to determine. In one instance, however.—Prof. Wood's Hair Restorative —we are so well assured of the notable qualities of the article, that we give it our indorsement as all that its inventor and wender claim it to be. Its effect thou a failing head of hair is universally known to be inagical.—Like lime or guano on exhausted land, it brings its crop wherever applied.—Our own thatch is fortunately very healthy, but we advise our friends with sparsely growing hair to try the Restorative.—Columbia Spy.

All Hair Dres Anamonrap. Word's Great Article has Tuten the Field.—Professor Wood stands on an emine neo no chemist, whose stantish has been turned to inventing a hair tonic, has ever before reached. His fame is sudden but world wide, and thousands who have worn wigs or been bald for years are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry, the chemistry of human life, and the laws which apply to the functions of the system. Prof. Wood studied out the human hair, its character, its properties and diseases, and how to resistore the decaying vitality to that ornament; he saw, as in his ewn case, that gray hair is unnatural unless the age of the individual has reached four score, and he believed that the hair dould be naturally revitalized. He tried his own case—almost hald and quite gray, at the age of thirty seven—he, restored his own hair in color, strength and incuriance, and the article ha did it with the gave to the world. instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegets ble compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Pricesor, Boet have Its reputation at home produced its introduction here, the demand commencing with those of the Fatherland scattered over the face of this mighty country, many of whom brought with them and handed down the tradition of its raise. It is now offered to the American public, knowing that its truly conductful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have neen impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling, and quickening every nerve, raising up the drooping spirit, and, in fact, infinsing new health and vigor in the system.

NOTICE—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited. It will: prove a grateful aromatic cordial, possessed of of singular remedial properties.

MARRIAGE.

DR. JOHNSTON.

Dr. Johnson member of the Royal College of Surgeons, London, graduate from one of the mest emissed Colleges of the United States, and the greatest part of whose life has been spent in the Hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most acceptability curses that were ever known. Many troubled with ringing in the cars and head when asleep, great nervousness, being alarmed at sudden sounds, bashulness, with frequent blushing, attended sometimes with derangement of mind were cured immediately,

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who having injured themselves by private and improper indugencies, that secret and solitary habit which ruins both body and mind, unfitting them for either business or society.

These are some of the sad and melancholy effects produced by early habits of youth, vis: Weakness of the Back and Imbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Earphation of the Heart, Dyspepsis, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.

MENTALLY.

MENTALLY,

MENTALLY, the fearful effects on the mind are much to
be dreaded:—Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-distrust, Love of Solitude, Timidity, &c., are some
of the vil effects.

Thousands, of persons of all ages, can now, indge what
is the cause of their decline in health, losing their vigor,
becoming weak, pale, nervous and conscisted, have a
singular appearance about the eyes, cough, and sympms of consumption.

dulyed in when alone—a habit frequently learned from
evil companions, or at school, the effects of which are
sightly felt, even when asleep, add if not cured, renders
marriage impossible, and destroys both mind and body,
should apply immediately.

What a pity that a young man, the hopes of his country, the darling of his parents, should be snatched from
all prospects and enjoyments of life by the consequences
of deviating from the path of nature, and indulging in a
certain secret habit. Such persons must, before contemplating

DISEASES OF IMPRUDENCE—When the integrided and imprudent votary of pleasure finds his has limbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, affecting the head, throat, mass, sin, sec, progressing on with frightful rapidity, ill death puts a period to his dreadful sufferings by sending him to that bourne from whence so traveler returns." It is a melancholy fact that thousands fall victims to this terrible disease, owing to the unskilfulness of ignorant pretenders, who, by the use of that deadly gotson, mercury, ruin the constitution and make the residue of life miserable.
