HARRISBURG

Tuesday Afternoon, March 26 1861.

WANTED AT THIS OFFICE an active and intelligent boy, who can read manuscript readily were sent to the county reformatory instituand accurately, and will make himself gene rally useful.

THE FUNERAL OF MR. WAUGH, whose death we announced yesterday, will take place on Thursday afternoon at two o'clock.

PRESIDENTIAL ENTERTAINMENT, --- The expense of entertaining Mr. Lincoln at Trenton amount ed to \$2,000. Surely our Harrisburg charges were cheap in comparison.

MAIL AGENT .-- Mr. Cyrus Rutherford, of this county, has been appointed a mail agent between this city and Philadelphia. He is a reliable and competent man, and a good Republican. His appointment will give general sat isfaction.

ANOTHER SENATOR PROMOTED .- We have rumors to the effect that Mr. Benson, Senator from the Eleventh District, has been appointed Paymaster in the United States army. He is a worthy and deserving man and we hope the rumor may prove true

MR. ARMSTRONG'S LECTURE.-The lecture on "Egypt," to be delivered by Wm. H. Armthis evening, will be free for all who choose to took place before the Mayor, and Keenan enattend. This lecture has been delivered in tered bail for his appearance at the April term. various towns in the Northern section of the State, and is spoken of in terms of the highest commendation of the press. Mr. Armstroug having traveled extensively in the old world, is thoroughly conversent with his subject, and will treat it in such a way as to please and instruct his hearers. As no charge is made for admission, we hope the eloquent lecturer will be honored with a large and appreciative au dience.

One of the party exhibiting a mulish disposition, the Mayor took charge of and conveyed him to the lock-up. Every evening grops of corner loungers, white and colored, may be seen in various prominent localities; and Mayor Kepner is entitled to the thanks of all good citizens for his efforts to abate the intolerable nuisance.-It is to be regretted that he is without a corps of efficient officers, under his immediate supervision and control. A law should be passed giving him the appointment of at least six city policemen, and we trust this will be done before the session closes.

THE HEBREW FARSOVER .- According to an ancient custom of the Israelites, established by the command of Moses, the Hebrews began their Passover on Sunday evening. This is the biginning of the feasts and fasts, which will continue at intervals for several weeks. Among the ancient Israelites-and it is pretty generally observed by those of the present day-the use of unleavened bread only is allowed. In the earlier days of the religion it was the custom for the priest to kill an unblemished lamb and sprinkle the lintels and the door posts with its blood, for the history of the Bible teaches that at a certain time the destroying angel passed and slew the first born of each house where of the most solemn of the fasts, and several ays of the season will be observed by a cessa-

THE CITY HOSPITAL contained eight lodgers ast night, most of them arrested for drunkenness and disorderly conduct. This morning two or three paid their fines, and the balance tion for thirty days.

SMALL POX IN THE POOR HOUSE .- The Poor House physician, Dr. Mish, informs us that the small pox prevailed to some extent in that institution several weeks ago, but that no cases have occurred recently. The house is now entirely free from the disease.

CHANGE OF LOCATION .--- We invite attention to

Brass Foundry to South street, opposite the Bethel. This is one of the best establishments of the kind in the city, and we take pleasure as difficult to tell who is master-John who site in commending it to the patronage of all who on the box of the coach, or yourself sitting inwant work done in Mr. Farkhill's line of busi- side. ness. SHOOTING AFFAIR.-- A man named Frederick Keenen, residing at Union Deposit in this county, was arrested yesterday charged with having shot Henry Blouck. It appears that Keenen was recklessly handling a loaded gun, and although warned that the weapon contained a full charge, he fired into a crowd of boys, wounding Blouck so severely that he was constrong, Esq., in the House of Representatives, fined to his room for some weeks. A hearing

> SINGULAR CASE .--- A sudden death, under singular circumstances, took place in the neighboring town of Hanover on Saturday last. A man named Jeremiah Sherman had been afflicted for some days with a carbuncle or other inflammatory tumor of the same nature on his chin, and applied som precipitate. On the eve

A ROUGH CUSTOMER.—A countryman named Francis Frick came to the city yesterday. indulged freely in cheap whiskey, and 'splurged'' extensively. He had in his possession a two barreled pistol, which he handled in a very reckless manner, and officer Garman. fearing that the fellow would do serious injury to somebody, took him in custody and conveyed him to the lock-up. When introduced to the Mayor this morning he exhibited a very contrite spirit, attributed his misconduct to the tanglefoot he had imbibed, and promised to conduct himself with more propriety in his tribution of forty elegant gifts among the audi future visits to the city. He paid his fine and was discharged.

INFORMATION FOR THE LADIES .--- It may be interesting to our lady readers to learn that the style of bonnets for the coming season contemplates nothing smaller than those worn in the past season. The new Paris shape is very distingue, but it will disappoint some of the ladies who are trying to introduce the flat Marie Stuart fronts. The new style is worn very high, close to the lower part of the face, and slopes very much from the tip to the crown. Ruches will be worn still, but not generally. The hair will be worn in curls and in braids in the bonnets, as was the fashion before ruches came in the custom was not observed. This will be one vogue. They will, however, still be worn in some of the most stylish bonnets. The trim- amounting in the aggregate to seventy dollars, mings for the bonnets will be simple-lace and and about thirty dollars worth of valuable

CHEAP JEWELRY .--- HOW IT IS MADE .--- Within a few months there has sprung up through out the country numerous institutions known from their flaming advertisements as "dollar stores." Here the most remarkable bargains can be had. Whole sets of jewelry, formerly sold for a small fortune, can be secured for the insignificant sum of one dollar. Does your wife want a set of ear-rings-one dollar will get them. Is she teazing you for a new brooch - the price is only one dollar. She wants a gold locket in which to preserve your daguerrectype-'fis only one dollar. Your sweetheart must have a ring and bracelets-they can be procured for one dollar. 'Tis wonderful what a change has taken place in prices This is the age of gold. Everything you touch turns into gold as it did to Tantalus of old. It

is very difficult to tell which is servant on the street-Bridget or your wife-for Bridget wears the card of Mr. Parkhill, in another column, just as showy a necklace, just as shining ear announcing the removal of his Plumbing and rings, just as beautiful rings, and, with the exception of her plebian gait and freckled face, is just as handsome a woman. Then it is quite mense chain and fob. He wears three magnicent rings on his fingers, and when not in charge of the horses, John swings a goldheaded cane. Surely John puts on as many airs as his master, and dresses as well—how can a stranger tell the difference between John and his master? What has wrought this great change in the way of ornament? Has money become more plentiful, or gold cheaper? We will give the solution as furnished by the Scientific American. There is a new metallic alloy extensively used in this country as a substitute for gold. It is nothing more than simple brass, yet in appearance and specific gravity it is like gold. It is a French discovery, and is called, by the French, gold oriede. It is manufactured to a large extent in Waterbury, Conn. It bears a ve y close resemblance to gold in color, density and fineness of grain, so close that it deceives every one but practical dealers and experts. ning of Saturday he retired, complaining of The fineness of the grain in this alloy gives to the pain, but nothing more. Between nine and those objects of art composed of it a delicacy ten o'clock, however, he became alarmingly and a purity of detail that cannot be obtained ARREST BY THE MAYOR.-Last evening Mayor ill, and continued to grow worse until about from bronze. The alloy is essentially ductile and mallable, and can be cast, rolled, drawn stamped, chased, beaten into a powder or leaves, or treated in any other way the artist may desire. The discovery of this new alloy is really wonderful, and its use will have a tendency to place within the reach of all the An immense number and amount of articles are manufactured out of this alloy and sold. TO MARRIED LADIES it is peculiarly suited. It will in a short time, bring on the monthly period with regularity. Rach bottle price for Dallarity. useful, ornamental and higher products of art. South and West, and none but excellent judges can tell it from gold. THE PAN-TEC NA-THEC-A attracted another

large crowd of people last night, and the disence, at the close of the exhibition, caused a great sensation. Mr. Wentz has been very liberally patronized by our citizens, and he has manifested his appreciation of it by a generous free will offering of beautiful gifts in return, in addition to giving a full equivalent for the money received in the way of unrivalled panoramic views. Mr. Wentz says he "makes it pay," and we presume this to be the case, judging from the immense crowds that throng the hall every night. Among the articles to be distributed this evening are a splendid gold clasp family Bible, an elegant silver cake bas. ket, a splendid hunting case silver watch, a silver goblet, a heavy gold bracelet, various articles of jewelry for ladies and gentlemen, oooks-in all forty different gifts.
