I beg lave to call the attention of the citizens of the United States to the above Wines and Louose, imported by Udolpho Wolfe, of New York, whose name is familiar in every part of this country for the purity of his celebrated Schemar Schanzers. Mr. Wolfe, in his letter to me, speaking, of the purity of his Wines and Luguoss, says: "I will stake my reputation as a man, my standing as a merchant of thirty years' residence in the City of New York, that all the Branny and Wines which I bottle are pure as imported, and of the best quality, and can be relied upon by every purchaser." Every bottle has the proprietor's name on the wax, and a fac simile of his signature on the certificate. Wo are happy to inform our fellow citizens that there is one place in our city where the physician, apothecary, and country merchant, can go and purchase pure Wines and Liquors, as pure as imported, and of the best quality. We do not intend to give an elaborate description of this merchant's extensive business, although it will well repay any stranger or citizen to visit Udolpho Wolfe's extensive Warehouse, Nos. 18. 10 and 22 Beaver street, and Nos. 17, 19 and 21, Marketfield street. His stock of Schnapps on hand ready for shipment could not have been less than thirty thousand cases; the Brandy, some ten thousand cases of Madelra, Sherry and Port Wine, Scotch and Irish Whisky, Jamaica and St. Croix Rum, some very old and equal to any in this country. He also had three large cellure, filed with Brandy, Wine, &c., in casks, under Custom Housand dozen, and we hope in less than two years he ma

We understand Mr. Wolfe, for the accommodation of small dealers in the country, puts up assorted cases of Wines and Liquors. A Distinguished St. Louis Physician Writes ST. Louis Friyalcian Writes

St. Louis, July 10, 1860.

O. J. WOOD, Esq.: Dear Sir: —1 llew me, the pleasure and satisfaction to transmit to you the beneficial effects of your Hair Restorative, after a trial of five years. I commenced using your Restorative in January, 1856, since which time I have not been without a bottle of hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A low applications stopped its turning, and in three weeks time there we not a gray hair to be noticed, neither has there been up to this time.

thin, and at least one-third gray. A low approximate stopped list turning, and in three weeks time there was not a gray half to be noticed, notither has there been up to this time.

After my half was completely restored, I continued its use by applying two or three times per mooth. My half has ever a minuted healthy, soft and glossy, and my salp perfectly free from dandruff. I do not inagine the area as above mentioned will be of any particular advantage of the state o

WARM SPRINGS, PETTY CO., Pa., June 7, 1850.

Prof. WOOD, Dear Sir:—I was induced more than year ago to try your valuable Hair Restorative for th purpose of cleansing my head of dandruff. I had suffered with it upon my head for years; and had never been able to got anything to do me any good in removing it, although I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Gross & Kunkle's drug store, and bought a bottle, and now am prepared to recommend it to universal use, for it has completely removedall dandruff from my head, and an application once in two weeks keeps it free from any itshing or other unpleasantness.—I must also state that my hair had become unite white in places, and, by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain in "order to have my appearance comport with my ago. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I Gongider your preparation of great value, and, although I do not like to expose myself, I consider it my duty to do so. You can use this or any part of it is any shape you think proper, if it is worth any thing to you.

HARING Yours, &c., H. H. ETTER.

Woon's HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper pulls. In our vicinity it has been extensively used, and we believe in every sase with every desired result, and received the universal endorsement of all who have tried it. We therefore recommend it as one of those few nostrums which accomplishes all it professes, and all the bald and gray could desire.—Columbia Spu.

Prov. Wood's Hark Restorative.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair falling off. We have seen many authentic testimonials in proof of these assertions some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried this Restorative. Boston Citet Branca.

Wood's HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums, but we take great pleasure in racommending Professor Wood's article to all whose hair is failing off or turning gray. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snow in summer.—Baltimore Patriot.

Woon's HAB RESPONATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess greateflicacy as a restorer of the hair to pristine vigor. When the head had become almost bald, because of sickness, the head had become almost bald, because of slokness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicates dandruit and other impurities, which operate so injuriously to the hair. It also has curative properties of another description. In many cases pingles and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of his remedy, and its effects can only be beneficial, as the compound if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—Boton Transcript, April 22, 1859.

In inaugurating this new system of doing business, GRANVILLE STOKES would impress on the minds of the patrons of his establishment, that the cost of the girl is deducted from, and nor added to the price of the article sold. All Hair Drys Abandoxed.—Word's Great Article has Taken the Field.—Professor Wood stands on an ominence no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is sudden but tworldwide, and thousands who have worn wigs to release the form ball for years are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry, the chemistry of human life, and the laws which apply to the functions of the system. Prof. Wood studied out the human hair, its character, its properties and diseases, and how to restore the decaying vitality to that ornament; he saw, as in his ewn case, that gray hair is unnatural unless the age of the individual has reached four score, and he believed that the hair could be naturally revitalized. He tried his own case—almost bald and quite gray, at the age of the world. Get WOOD'S HAIR BESTORA-TIVE, and take nothing else.—New York Day Book.

requisites to promote countries happiness. Indeed
without these, the journey through life becomes a very
pilgrimage; the prospect howrly darkens to the view; the
mind becomes shadowed with despair, and filled with the
melancholy reflection that the happiness of another becomes blighted with our own
