Fault.-We are informed, by persons who profess to know, that the peaches in this vicinity are uninjured, and that the fruit generally is in such a condition at this time as to warrant abundant crops.

THE DIOTIONARIES.—The Massachusetts Legislature has just rejected, by a large majority, a proposition to put a copy of Worcester's Dictionary in each of the public schools in the State. In the home of the two dictionaries, WEBSTER seems to be the favorite, as well as elsewhere. A like effort for Worcester has also failed in Maine.

afternoon was occasioned by the burning of himself on the miseries of house cleaning—an a foul chimney in a small frame house on the operation incident to this peculiar season of the corner of Second and North streets. The alarm | year :- "If there ever was an institution dewas general, bringing out all the fire machines vised for readering a man miserably unhappy, and a large crowd of people. Fortunately no it is what our wives, and mothers, and sisters, damage was done, and the services of the and "hired help," facetiously term "house "boys" were not required.

friends of the venerable Senator from the Cenmaterially improved since that time, and hopes | all with whom she comes in contact." are now entertained of his recovery

A Good Resolution .- The following resolution was adopted by a unanimous vote of the young men attending one of the public schools of a western city. Its adoption in Harrisburg would certainly do no harm :

Resolved, That profane and vulgar language is a disgrace to any one who uses it; that the boy who practices it has a poor chance of becoming a man in a manly sense, and that the young gentleman who is guilty of using it, is not worthy the name of man in a manly sense.

Before the Maxor.—This morning a young man was before the Mayor charged with drunkenness and disorderly conduct in the engine in violation of this law. If its violation is perhouse of the company to which he belongs. sisted in, the parties will be returned to the The defendant agreed to pay the costs, when the complainant withdrew the charge. A female, who occupied the night in the lock-up, was also arraigned for being drunk and disorderly. She paid the fine imposed and was

THE MISSING FOUND.—Several months since Thomas Ilgenfritz, of York, absconded from home. Nothing was heard of his whereabouts until a few evenings ago, when two men discovered a dead body in the Codorus creek, near York. The corpse was in nearly an erect position, the legs having been inserted and held stationary in the mud at the bottom of the stream, while the head was barely covered with water. On rescuing the body from its watery grave the Coroner summoned a jury who rendered a verdict in keeping with the circumstances of the death. A son of Mr. Ilgenfritz testified that the corpse was his father; and although the features were distorted, other persons perceived marks of recognition.

TELEGRAPH will remember that in August last, one Charles Williams was arrested for the robbery of Mrs. Brepizer's store in this city. The Goods stolen, amounting in value to four or five ciation with officers much his juniors in years hundred dollars, were found in the house of Mrs. Catherine Welty, with whom Williams boarded. This circumstance, in connection with others, which left no doubt of the complicity of Mrs. Welty in the robbery, led to her arrest and conviction at the same term, and she was sentenced to two years imprisonment. On Thursday Governor Curtin pardoned the woman, and she is again at liberty. Who made application for the pardon, and what influences were prought to bear upon the Governor to induce the exercise of his power in this matter. we do not know. The woman was fairly tried, justly convicted, and unless satisfactory reasons can be given for her pardon, the action of the Governor will be generally censured in for the ensuing year are as follows:—Harristhis community.

Woman's Rights .- The complaint that women are not sufficiently recognized in legislation-that their identity is almost ignoredcannot hold good in reference to the new patent law. Among other new features is the one of recognizing "design patents," which has reference to any new form, picture, painting, pattern, cut, ornament or design. The ingenuity the last two years, goes to Smyrna, Delaware, and skill exhibited in dress patterns, baby clothes, caps, under clothing, crotchet work. needle work, &c., may now be turned to pecuniary account. It will no longer be "lend me a dress pattern," but "sell me your patent pattern for a silk dress." Instead of working for starvation wages, young women may now sell the operation of their brains. We shall be called on to announce that a patent has been granted to Miss Floss, for an infant's abdomina I band which will not wrinkle and work up un, der the arms. Or that Miss Clip has applied for a patent method to cut a dress from the folder I material, at one traverse of the scissors. The wo'nderful females who do the marvellous designs in the frivolous magazines, would soon accumulate fortunes. And when once the success of female invention becomes certain, every thinking brain among the tender sex would be at work. The terms are so moderate that but little difficulty would be experienced by those in moderate circumstances. The charges are for a patent of three years \$10; of seven years \$15; of twenty years \$20. There is no reason why women should not enter the list of inventors as well as men. Indeed we know of two or three in Harrisburg whose ingenuity is enjoyed by the opposite sex, and it needs but a few to initiate the example for others to follow. tion gives general satisfaction.

DIVISION OF THE STATE.—A number of citzens of Lawrence county have petitioned the Legislature in favor of a division of the State the Alleghenies to be the dividing line.

THE DEATH OF ME. HOFFMAN.—A few days tral Railroad, opposite the Liverpool station. had several holes knocked in it, as if done by ing to sit lightly upon him. a sharp instrument. The team, which the deceased had been driving, and which belongs to Sheriff Martin, of Millersburg, arrived there safely, without the driver. > A WORD OF CAUTION .- From what we incidentally learn, many of the property holders of this city seem to practically ignore the forty-third section of the revised penal code, which reads as follows:

"If any person shall keep and maintain a common bawdy house, or place for the practice of fornication, or shall, knowingly, let or demise a house, or part thereof, to be so kept, he or she shall be guilty of misdemeanor, and on conviction, be sentenced to pay a fine not exceeding one thousand dollars, and to undergo an imprisonment not exceeding two years."

We understand that Mayor Kepner has directed the Chief of Police to give notice to own ers of property rented, or proposed to be rented Court of Quarter Sessions, in which case there will be no escape from the penalties. CAPT. HAMBRIGHT DECLINES.—We recently announced the appointment of Capt. Henry A. Hambright, of Lancaster city, as second Lieut. of the Sixth Regiment of Infantry, U. S. A. Gen. Home Humon.—Our town is not so dull, or our community so inert, as superficial observers might think; and we have scintilations of wit and sarcasm which banish the blues. For instance, we heard a young man playfully tantalizing a staid citizen, the other day, when the latter closed the controversy by observing to him, ''you have a head, so has a tenpenny nail." Decidedly a hard hit!

EVERGREENS-WHEN TO PLANT.-Evergreen can be safely transplanted during any of the Spring months. They are as certain to live as an apple tree if planted properly. The reason why so many die is, that the roots are allowed to become dry before being planted. But if the roots are allowed tion of the Heart, Hysterics and Whites, hese Pills wil to get dry, you need not plant them expecting

An April Snow Storm .- The month of April opened with a terrific snow storm, to the great annoyance and inconvenience of people who were obliged to change local habitations. It commenced snowing early this morning, and at the present writing (two o'clock) the white flakes are still falling fast and thick. As April "came in like a lion," it is to be hoped, according to the old proverb, that it will "go out like a lamb." Great climate this!

Wood's HAIR RESTORATIVE.—Among all preparations for the hair that have been introduced as infallible, none has ever given the satisfaction or gained the popularity that Prof. Wood's Hair Restorative enow has. His Restorative has passed the ordeal of innumerable fashionable toilets, and the ladies, wherever they have tested it, pronounce it a peerless article. They find, where the hair is thinned, that it creates a fresh growth—that it fully restores the vegetative power of the roots on the denuded places, and causes the fibres to shoot forth anew—that it dissolves and removes dandruff, prevents grayness, restores the hair to its original color when grayness has actually supervened, gives a rich lustre, imparts the softness and lexibility of silk to the hair, and kreps it always lurriant, healthy and in full vigor.—"N.
