I beg leave to call the attention of the citizens of the United States to the above Wines and Liquous, imported by Udolpho Wolfe, of New York, whose name is familiar in every part of this country for the purity of his celebrated Schindan Schanfrs. Mr. Wolfe, in his letter to me, speaking of the purity of his Wines and Liquous, says: "If will stake my reputation as a man, my standing as a merchant of thirty years' residence in the City of New York, that all the Brandy and Wines which I bottle are pure as imported, and of the best quality, and can be relied upon by every purchaser." Every bottle has the propristor's name on the wax, and a fac simile of his signature on the cartificate. The public are respectfully invited to call and examine for themselves.—

ENGROUS BUSINESS FOR ONE NEW YORK MERCHANT.—

We are happy to inform our fellow citizens inta there is one place in our city where the physician, apothecary, and country merchant, can go and purchase pure Wines and Liquors, as pure as imported, and of the best quality; We do not intend to give an elaborate description of this increhant's extensive business, although it will well repay any stranger or citizen to visit Udolpho Wolfe's grand Lountry merchant, can go and purchase pure Wines and Liquors, where the physician, apothecary, and country merchant, can go and purchase pure Wines and Liquors of Madeira, Sherry and Port Wine, Scotch and Irish Whisky, Jamaica and St. Croix Rum, some very old and equal to any in this country. He also had three large cellars, filed with Brandy, Wine, &c., in casks, under Custom House key, ready for bottling. Mr. Wolfe's sales of Schnapps last year amounted to one hundred and eighty thousand dozen, and we hope in less than two years he may be equally successful with h

shelves, and replace it with Wolfe's pure Wines and Laquors.
We understand Mr. Wolfe, for the accommodation of small designs in the country, puts up assorted cases of Wines and Liquors. Such a man, and such a merchant, should be sustained against his tens of thousands of opponents in the United States, who sell nothing but imits tions, ruinous alike to health and human happiness.

PROF. WOOD'S HAIR RESTORATIVE.

OTHERS SAY OF IT. A Distinguished St. Louis Physician Writes

A Distinguished St. Louis Physician Writes

Sr. Lous, July 10, 1860.

O. J. WOOD, Esq.: Dear Sir:—"liew me the pleasure and satisfaction to transmit to you the beneficial effects of your Hair Restorative, after a trial of five years I commenced using your Restorative in January, 1855, since which tima! I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its turning, and in three weeks time there was not a gray hair to be noticed, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times per month. My hair has ever c ntinued healthy, soft and glossy, and my stalp perfectly free from dandruff. I do not imagine the is its above mentioned will be of any particular advantage to you, or even faster your vanity at this late day, as I nm well aware they are all knewn already and even more wonderful ones throughout the Union. I have occupied my time in traveling the greater pirt of the time the past three years, and have taken pride and pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people that have pronounced it a humbug; saying they have used it and without effect. In every instance, however, it proved, by probing the maiter, that they had not used your article at all, but had used some new article said to be as gool as yours, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently some of those charitans have not brains enough to write an advertisement, as I notice they have copied yours word for word in severali nstances, merely inserting some other name in place of yours.

I have, within the past five years, seen and talked with more than two thousa

WARM SPRINUS, Perry Co., Pa., June 7, 1850.

Prof. WOOD, Dear Sir:—I was induced more than year ago to try your valuable Hair Restorative for the purpose of cleansing my head of dandruff. I had suffered with it upon my head for years, and had never been able to get anything to do me any good in removing it, although I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Gress & Kunkle's drug store, and bought a bottle, and now am prepared to recommend it to universal use, for it has completely removedal dandruff from my head, and an application once in two weeks keeps it free from any itching or other unpleasantness.—I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used twe bottles of the flestorative, no one has any knowledge of it, as I allow a few gray-hairs to remain in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, although I do not like to expose myself, I consider it in youty to do, so. You can use this or any part of it is any shape you think proper, if it is worth any thing to you.

NICHTLY DISSIPATION.

Persons who from dissipating too much over night, and

Wood's Hair Restorative has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper puffs. In our vicinity it has been extensively used, and we believe in every sase with every desired result, and received the universal endorsement of all who have tried it. We therefore recommend it as one of those few nostrums which accomplishes all it professes, and all the baid and gray could desire.—Columbia Spy.

Prof. Wood's Hair Restorative.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutanose ruptions, and prevents the hair falling off. We have seen many authentic testimonials in proof of these assertions some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried this Restorative. Boston Citve Branch.

Wood's HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums, but we take great pleasure in racommending Professor Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snow in summer.—Baltimore Patriot.

Wood's Hair Restorative.—Unlike most specifics, this is proved, by unimperchable evidence, to possess great efficacy as a restorer of the hair to pristine vigor. Where the head had become almost hald because of sickness, the use of thick specific has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicates dandruff and other impurities, which operate so injuriously to the hair. It also has curative properties of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of his remedy, and its effects can only be beneficial, as the compound if it does not cause a mrnifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—Botton Transcript, April 22, 1859.

A Genuine Boon,—In our capacity as conductor of a public journal, we are called upon to advertise the curealls of the day, each of which claims to be unadulterated in its composition and infallible in its curative effects, with what justice we leave our readers to determine. In one instance, however—Prof. Wood's Hair Restorative—we are so well assured of the notable qualities of the article, that we give it our indorsement as all that its in ventor and vender claim it to be. Its effect upon a failing head of hair is universally known to be magical. Like lime or guano on exhausted land, it brings its crop wherever applied. Our own thatch is fortunately very heatty, but we advise our friends with sparsely-growing hair to try the Restorative.—Columbia Spy.
