O. J. WOOD, Eng.: Dear Sir -- thou and had not to be seen as statement to you the beneficial dicess of your Hair Restorative, after a trial of five years. I commenced using your Estorative in January, 1855, since which time I have not been without a buttle on hand. When I commenced the use, my hair was quite thin, and at least one-third in the second than t

WARM SPEINUS, Perry Co., Pa., June 7, 1860.

Prof. WOOD, Dear Sir:—I was induced more than year ago to, try your valuable Hair Restorative for the purpose of cleansing my head of dandruff. I had suffered with it upon my head for years, and had never been able to get anything to do me any good in removing it, all though I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Gross & Kunkle's drug, store, and bought a bottle, and now am prepared to recommend it to universal use, for it has completely removedall dandruff from my head, and an application once in two weeks keeps it free from any itching or other unpleasantness.—I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used twe bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, although I do not like to expose myself, I consider it my duty to do so. You can use this or any part of it in any shape you think proper, if it is worth any thing to you.

BLOOMINGTON, Ind., July 30, 1869.

1 DRAR SIR: I here send you a statement that I think you are entitled to the benefit of. I am a resident of Blosmington, and have been here for over thirty years, I am now over fifty years of age. For about twenty years past my hair has been turning considerably gray, and was almost entirely white and very stiff and unpliant. I had seen a number of certificates of the very wonderful effect of your Hair Restorative but supposed there was more fiction than truth in them: but entertaining a strong desire to have my hair, if possible, restored to its original color and fineness, as it was in my younger days a beautiful black, I concluded I would make the experiment commencing in a small way. FREDERICK T. BUTLER, Bloomington, Monroe Co., Ind.

Wood's HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper puffs. In our vicinity it has been extensively used, and we believe in every case with every desired result, and received the universal endorsement of all who have tried it. We therefore recommend it as one of those few mostrums which accomplishes all it professes, and all the baid and gray could desire.—Columbia Spy.

PROF. Woon's HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutanous eruptions, and prevents the bair falling off. We have seen many authentic testimonials in proof of these assertions some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried this Restorative, Boston Olive Branch.

Wood's HAIR RESTORATIVE,-We are not in the habit of wood's Halk Restorative.—We are not in the habit of pulling every new discovery, for in nine cases out of ten they are quack nostrums, but we take great pleasure in racommending Professor Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Finley Johnson, Equ., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snew in summer.—Baltimore Patriot.

Wood's HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpe chable evidence, to possess great efficacy as a vestorer of the hair to prisitine vigor. Where has head had become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicates dandruif and other impurities, which operate so injuriously to the hair. It also has curative properties of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of his remedy, and its effects can only be beneficial, as the compound if it does not cause a mrnifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—Boston Transcript, April 22, 1869.

A GENUINE BOON.—In our capacity as conductor of a public journal, we are called upon to advertise the ourealls of the day, each of which claims to be unadulterated in its composition and infallible in its curative effects, with what justice we leave our readers to determine. In one instance, however—Prof. Wood's Hair Restorative—we are so well assured of the notable qualities of the article, that we give it our indorsement as all that its in ventor and vender claim it to be. Its effect upon a failing head of hair is universally known to be magical. Like lime or guano on exhausted land, it brings its crop wherever applied. Our own thatch is fortunately very healthy, but we advise our friends with sparsely-growing hair to try the Restorative.—Columbia Spy.

ALL HAIR DYES ABANDONED.—Word's Great Article has Taken the Field.—Professor Wood stands on an eminence no chemist, whose were before reached. His fame is sudden but world wide, asid thousands who have worn wige or been hald for years are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry, the chemistry of human life, and the laws which apply to the functions of the system. Prof. Wood studied out the human hair, its character, its properties and diseases, and how to restore the decaying vitality to that ornament; he saw, as in his ewn case, largery hair sumnatural unless the age of the individual has reached four score, and he believed that the hair could be naturally revitalized. He tried his own case—almost hald and quite gray, at the age of thirty-seven—he restored his own hair in color, strength and huxuriance, and the article has a factor of the decaying vitality to that ornament; he saw, as in his ewn case, that gray hair is unnatural unless the age of the individual has reached four score, and he believed that the hair could be naturally revitalized.
