HARRIBBURG

### Saturday Afternoon, April 6 1861.

A WORD OF CAUTION .- There is danger in visiting gardens and groves just now, for the buds are bursting and the leaves shooting.

BRANCH RAILROAD .-- The people of Jersey Shore are making arrangements to build a railroad from that town to the track of the Philadephia and Erie road, a distance of two miles. A sensible movement.

APPOINTMENT.-Mr. C A. Bound, of Milton, brother of the Senator from that district, has been appointed to a clerkship in the War Department at Washington, under General Cameron. He is said to be a worthy gentleman, and competent for the post assigned him.

STORE BURNEL. - The store of Mr. Thomas Fairman, at Middletown, just below the rail road, was burned on Thursday night. The goods in the building were all more or less damaged. We have been unable to ascertain the loss of Mr. Fairman, but understand that he was insured for \$3,000 in the Lycomiug Mutual Insurance company.

FIGHT IN MARKET .-- This morning a fight occurred between two countrymen, the origin of discharged. which we did not learn. One of them received a severe wound on the face, and the other had his eyes shrouded in mourning. The affair caused considerable excitement, attracted a larga crowd of spectators, and culminated in a prosecution for assault and battery.

THE WESTERN PENNSYLVANIA RAILROAD. - The Board of Directors of the Western Pennsylvamia Railroad held a meeting in Altoons, on last Tuesday, when steps were taken to have the whole line examined, and put under contract. not a member of the board who did not desire to have the road constructed immediately.

M. Rousseau, a Belgian chemist, has invented an apparatus by which an ordinary cook can make enough sugar to last a family a week, out of materials which may be bought in any market.—Exchange Paper.

It is to be hoped that this apparatus will not be brought to this country. Some cooks make -so much sugar new out of families, that nothing short of locks and keys enable them to route for Fort Hamilton, New York. They keep any sweetening in the house.

A CURIOUS ITEM .- In the list of Contingent Expenses of the Treasury Department at for a fight." From present indications at Washington, for the last year, the following entry occurs :

"Varnishing Mr. Buchanan.....\$3 50."

The Tribune, of course, has its fun out of the sin. ular item, and draws a picture of the "Old Functionary" coming in for his "coat," which, it takes for granted, was laid on "thick" by the Secretary.

DEATH OF AN AGED CITIZEN OF DAUPHIN COUNTY. -The funeral of Mrs. Budy took place yesterday, from the residence of her son, Mr. Frederick Rudy, and was attended by a large concourse of relatives and acquaintances. Mrs. Rudy was one of the oldest inhabitants of Links county, having entered upon her eighty-third year a few days before her death, and was highly respected by all who were well acquainted with her. She was a very exemplary woman in all the various relations of life, and for many years a consistent and faithful member of the Lutheran church, with which she had connected herself in early youth. Her last illness was lingering and painful, but she bore it with much patience and resignation, cheered and encouraged with the blessed hope of a glorious immortality.

THE EXODUS FROM PARKESBURG .-- A West Chester paper in noticing the departure from Parks burg of almost forty families, the heads of which had been employed in the railroad shops :at that place; says the largest number came to Harrisburg, a few went to Philadelphia, and some to other points along the line. The cars on the first morning train westward received at Parkesburg a crowd of all ages and both sexes among them many girls who had arrived to the stature and dignity of "young ladies." As the cars bore them away they formed a group and struck up "Dixle's Land," which they sang in The passengers were at breakfast at the time, fine style. Parkesburg must be lonely after losing so many merry and good-looking girls. and will not be benefitted by the exodus of so m. any substantial mechanics and their families. while Harrisburg will be largely benefitted by their locating among us.

AN IT EN FOR PARENTS.—The truthfulness of the subjoined suggestions will be endorsed by the experience of quite too many. We fear they contain much food for thought, and may be read with profit by every parent:

It is somewhere related that a poor soldier, having had his skull fractured, was told by the doctor that his brains were visible. "Do write and tell father of it, for he always said I had no brains," he replied. How many fathers and mothers tell their children this, and how often does such a remark contribute not a little to prevent any development of the brain? A grown-up person tells a child he is brainless, foolish, or a blockhead, or that he is deficient in some mental or moral faculty, and in nine cases out of tea, the statement is believed, or if not fully believed, the the thought that it may be partially so, acts like an incubus to repress the confidence and energies of that child. Let any person look back to childhood's days, and he can doubtless recall many words and averaging which averted such a discouraging and the can doubtless recall many words and averaging which averted such a discouraging and the can be confidence and energies of that child. often does such a remark contribute not a litexpressions which exerted such a discouraging or encouraging influence over him, as to tell upon his whole future course of life. We know an ambitious boy, who, at the age of ten years, had become so depressed with fault-finding and the course of the course of the course of printers in their ranks, three of whom are from the course of t reproof, unmingled with encouraging words, that, at an early age, he longed for death to take him out of the world, in which he conceived he had no ability to rise. But while all thus appeared so dark around him, and he had so often been told of his faults and deficiencies, that he seemed to himself the dullest and worst of boys, and while none of his good qualities or capabilities had been mentioned, and he believed he had none, a single word of praise and appreciation, carelessly dropped in his hearing, changed his whole course of thought. We have often heard him say, "that word saved him." be misled by the *ignus fatuus* misnamed "South-the moment he thought he could do well, he ern chivalry," which is at this time playing resolved that he would—and he has done well. Parents, these are important considerations.

LUTHERAN SYNOD.—The General Synod of the Evangelical Lutheran Church in the United day, the sixth of May next.

THE CARLISLE PRESBYTERY, with which the Old School Presbytery church of this city is connected, will meet here next Tuesday, and continue in session several days.

A STATED MEETING of the Friendship Fire Company will be held on Monday evening at the usual hour. Members are requested to be punctual in their attendance.

BENEFIT ENTERTAINMENT.—The members of Rev. Charles W. Gardner's church will give an entertainment in the Masonic Hall, Tanner's Avenue. on Monday evening next, for the benefit of Miss Victoria Price. An admission fee of twenty-five cents will be charged.

MAPLE SUGAR.—This delicious article has made its appearance in our market, and sells readily for a shilling per pound. This sugar is brought by raftmen from the upper Susquehanna region, where it has been manufactured in large quantities the present season.

SELLING TAINTED MEAT. -This morning a country butcher named Kline, from the vicinity of Union Deposit, was before the Mayor, charged by Calvin Umberger with selling tainted pudding meat in market. The Mayor fined Kline two dollars and costs, which he paid and was

REV. FRANKLIN MOORE, the new pastor of the Locust street Methodist Church, was formerly located at Johnstown. The Tribune of that place, in noticing his appointment to Harrisburg, gives him a highly complimentary notice, and says that he has many warm friends and admirers in that locality. Mr. Moore will delphia. Col. Knipe rendered his country good preach his introductory sermon here to-morrow morning.

BUTTER THIFF.—This morning a countryman had occasion to leave his market stall for two The utmost harmony prevailed, and there was or three minutes, and in the meantime some thieving rascal, who was on the look-out for a "snap," relieved our rural friend of a basket containing nine roles of fresh butter. The thief is welcome to the butter, but will confer a favor upon his victim by sending the basket and cloths to the Harrisburg bridge.

> United States Troops.-A company of United States troops arrived here yesterday, and passed over the Lebanon Valrey Railroad, en are a fine-looking body of men, and appeared to be in good health and fine spirits. One of them said in reply to a remark, "we are spiling cloths, cassimeres, vestings, &c., just opened Washington they will not "spile" much longer 60, Market street. Those who want fashionfor want of active service.

KNOWLEDGE OF GEOGRAPHY is useful to everybody. By not being posted up in geography, a Philadelphia thief lately started westward to find Canada. The result is that he was pursued, brought back, and is now in Moyamensing. Had he been posted in geography, he would now have been beyond the line, exulting in freedom and defiance. As it is, he spends his time in regretting the days of his boyhood, when he cheated the schoolmaster by "playing

SATURDAY EVENING .-

How sweet the evening shadows fall, Advancing from the West, ends the weary week of toil, And comes the day of rest !

Bright o'er ta earth the star of eve Bright o'er to anny sheds, Her radiant b calmly weave And myriad sisters Their lights around our beads.

Rest, man, from labor ! rest in m sin ! The holy hours with God begin-Yield thee to sweet repose.

Bright o'er the earth the morning ray Its sacred light will cast;
Fair emblems of the glorious day.
That evermore shall last.

LCOMOTIVE EXPLOSION.—A few days ago a lecomotive exploded at Alliance, killing a man named John Mell. It appears [the engine was uncoupled at Alliance, where a fresh one was to be obtained, [and while in charge of Mell. stationary engineer, who was taking it into the round house, it blew up with a terrific crash. leaping ten feet into the air and burying itself five feet in the ground. Mr. M. was blown about sixty feet into the air, alighting on nearly the same spot from which he was driven .and it was providential that the explosion did not take place a few minutes sooner, as had it occurred while the engine was standing at the platform, the loss of life must have been fearful. The engine was lately overhauled, and as there were three guages of water and but eighty pounds of steam on at the time, the cause of the explosion must ever remain a mystery.

FIGHTING PRINTERS.—The knights of the "stick and rule" are sometimes reckoned among the class of non-combatants. Yet we have ever found them warlike, and when the tocsin sounded that opened the ball with Mexico, there was no class more fully or more ably represented. Down South they are keeping up the old prestige, as the following article from the Vicksburg Citizen of a late date indicates :-

was well represented by members of the "art or preservative." The entire complement of the "Azoo Democrat was in the ranks—editor, foreman and devil. The fighting propensity of printers was well appreciated in this company, as it was mainly officered by the typos. The editor is the captain, the foreman is a lieutenant, the devil is the drummer, while the colored roller boy officiates in the capacity of fifer. The Sharpshooters who are expected to leave here shortly, also have a large number of printers in their ranks, three of whom are from the toy be the treat, having several printers in their ranks. There are also several of them found in the Artillery company of this place.

We believe it was a printer who captured the Artillery company of this place.

We believe it was a printer who captured are ready to take a hand at whatever is going on; but it is a matter of regret they should be misled by the ignus fatuus misnamed "Sonther on the will be misled by the ignus fatuus misnamed "Sonther on the will be misled by the ignus fatuus misnamed "Sonther on the will be misled by the ignus fatuus misnamed "Sonther on the will be misled by the ignus fatuus misnamed "Sonther on the will be misled by the ignus fatuus misnamed "Sonther on the will be misled by the ignus fatuus misnamed "Sonther on the will be misled by the ignus fatuus misnamed "Sonther on the will be misled by the ignus fatuus misnamed "Sonther on the will be misled by the ignus fatuus misnamed "Sonther on the will be misled by the ignus fatuus misnamed "Sonther on the will be misled by the ignus fatuus misnamed "Sonther on the will be misled by the ignus fatuus misnamed "Sonther on the will be misled by the ignus fatuus misnamed "Sonther on the will be misled by the ignus fatuus misnamed "Sonther on the will be misled by the ignus fatuus misnamed "Sonther on the will be misled by the ignus fatuus misnamed "Sonther on the will be misled by the ignus fatuus misnamed "Sonther on the will be misled by the ignus fatuus misnamed "Sonther on the will be misle

TREE PLANTING .- The Superintendent of the Capitol grounds was busily engaged to-day in States will assemble in Lancaster city on Thurs- planting additional trees and shrubbery. We notice that many of our citizens are also adding to the beauty and value of their property by planting ornamental and fruit trees

> Signor Blitz Coming.—This unrivalled ma gician and ventriloquist will give two or three exhibitions here next week, for the benefit of the State Capital Band. The Signor is a universal favorite in this city, and never fails to attract full houses. The object of the Band is to raise money to liquidate the balance of debt will be required.

> GOVORDUME due on their new and beautiful equipments, and to procure additional instruments, music, etc. Our citizens, therefore, will have an opportunity of passing an evening pleasantly in the Signor's famous "Temple of Magic." and at the same time contribute to the support of a musical association which is a credit to the city.

PROSPECT OF FRUIT.-There is some discus sion among fruit-growers, and others, as to whether the fruit, such as peaches, cherries, &c., has been injured by the frost. Our view of the question is this: there is yet no fruit to be injured.. In a fruit bud there is a rudiment of a fruit, but this rudiment is just as hardy, while it is merely a rudiment, as that of a leaf. It is only when the blossom opens, and the pollen is shed upon the germ, that the fruit, properly so called, comes into life. In the first stage of life and growth most fruits are very tender : but prior to this stage the bud is hardy. A frost severe enough to kill a fruit bud will kill a leaf bud and the twig to which it is attached.

ROUTE AGENTS .- It affords us pleasure to announce the appointment of Col. Joseph F. Knipe, of this city, as mail route agent on the Pennsylvania Railroad between here and Philaservice as a member of the old Cameron Guard during the war with Mexico, has always been a consistent and active worker in the ranks of the anti-Democratic party, and richly deserved political reward. He is peculiarly fitted for the position to which he has been appointed, and his selection will be universally approved in this community. We learn that George M'Clure of Middletown, and Wm. Burnside of Bellefonte, have been appointed to similar positions on the Northern Central road.

LEE'S UMBRELLA STORE has been removed to the building in market street, adjoining Dr. Seiler's office. His stock of Umbrellas, Parasols, Sun Shades, Walking Canes, &c., cannot be surpassed anywhere.

NEW AND BEAUTIFUL—The spring styles of by Mr. William Templin, merchant tailor, No. able and neat-fitting suits of clothes should give him a call.

MR. GEORGE R. PARKER still continues taking those beautiful Ambrotypes for 25 cents and upwards, in Kelker's Building, Southeast corner of Market Square.

Wood's HAIR RESTORATIVE.—Among all preparations for the hair that have been introduced as infallible, none has ever given the satisfaction or gained the popularity that Prof. Wood's Hair Restorative new has. His Restorative has passed the ordeal of innumer, able fashionable teilets, and the ladies, wherever they have tested it, pronounce it a peerless article. They find, where the hair is thinned, that it creates a fresh growth—that it in lly restores the vegetative power of the roots on the denuded places, and causes the fibres to shoot forth anew—that it dissolves and removes dandruff, prevents grayness, restores the hair to its original color when grayness has actually supervened, gives a rick lustre, imparts the softness and fexibility of silk to the hair, and keeps it always luxriant, healthy and in full vigor.—"N.
