PROF. WOOD'S

WARM SPRINGS, Perry Co., Pa., June 7, 1850.

Frof. WOOD, Dear Sir.—I was induced more than year ago to try your valuable Hair Restorative for the purpose of cleansing my head of dandruff. I had suffered with it upon my head for years, and had never been able to get anything to do me any good in removing it, all though I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Gross & Kunkle's drug store, and bought a bottle, and now am prepared to recommend it to universal use, for it has completely removedul dandruff from my head, and an application once in two weeks, keeps it free from any itching or other unpleasantiess.—I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain in order to have, my appearance comport with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, although I do not like to expose myself, I consider it my duty to do so. You can use this or any part of it is any shape you think proper, if it is, worth any thing to you.

From the strong that the strong to the strong to the strong to my hart of it is any shape you think proper, if it is, worth any thing to you.

H. H. ETTER.

BLOOMINGTON, Ind., July 30, 1859.
5 DRAR Six: I here send you a statement that I think you are entitled to the benefit of. I am a resident of Blosmington, and have been here for over thirty years. I am now over fifty years of age. For about twenty years past my hair has been turning considerably gray, and was almost entirely white and very stiff and unpliant. I had seen a number of certificates of the very wonderful effect of your Hair Restorative but supposed there was more fiction than truth in them: but entertaining a strong desire to have my hair, if possible, restored. to its original color and fineness, as it was in my younger days a beautiful black. I concluded I would make the experiment commencing in a small way. I purchased one of your small bottles, at one dollar, and commenced using, following directions as nearly as I could. I seen discovered the dandruff removed, and my hair, that was falling off in large quantities, was considerably tightened, and a radical change taking place in the color. I have centinued to use it, till I have used three of your small bottles and just begun on the fourth. I have now as pretty a head of dark brown, or light black hiar as any man, or as I had in my youthful days, when a boy in the hills of Western Virginia. My head is entirely clear of dandruff, and the hair ceased entirely falling off and is as soft and fine, and feels a oily, as though it was just from the hands of a French champooner. Many of my acquaintances frequently say to me "Butler, where did you get that line wig?" I tell them it was the effect of your Restorative. It is almost impossible to convince them that.it is the original hair of the same old gray head.

Yours, truly.

of the same on b... Yours, truly, FREDERICK T. BUTLER,

Wood's HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be on hanced by newspaper puffs. In our vicinity it has been extensively used, and we believe in every case with every desired result, and received the universal endorsement of all who have tried it. We therefore recommend it as one of those few nostrums which accomplishes all it professes, and all the bald and gray could desire.—Columbia Spy.

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair failing off. We have seen many authentic testimonials in proot of these assertions some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried this Restorative. Boston Other Branch.

Wood's HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in hine cases out of ten they are quack nostrums, but we take great pleasure in racommending Professor Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Finley Johnson, Eq., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snow in summer.—Baltimore Patriot.

Woon's Hair Restorative.—Unlike most specifics, this is proved, by unimposchable evidence, to possess great efficacy as a restorer of the hair to pristine vigor. Where the head had become almost baid because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicates dandruli and other impurities, which operate so injuriously to the hair. It also has curative properties of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of his remedy, and its effects can only be beneficial, as the compound if it does not cause a mrnifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—Botton Transcript, April 22, 1859.

GRANVILLE STOKES would impress on the minds of the patrons of his establishment, that the cost of the gift is deducted from, and nor added to the price of the article sold. His immensely increasing sales enabling him to act thus liberally, and at the same time to realize a remunerative profit.

NOTICE TO CONSUMERS OF COAL.

ALL HAIR DYES ARANDONED.—Word's Great Article has Taken the Field.—Professor Wood stands on an eminence no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is sudden but world-wide, and thousands who have worn wigs or been bald for years are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry, the chemistry of human life, and the laws which apply to the functions of the system. Prof. Wood studied out the human hair, its character, its properties and diseases, and how to restore the decaying vitality to that ornament; he saw, as in his own case, that gray hair is unnatural unless the age of the individual has reached four score, and he believed that the hair could be naturally revitalized. He tried his own case—almost bald and quite gray, at the age of thirty seven—he restored his own hair in color, strength and luxuriance, and the article he did it with he gave to the world.
