Sr. Louis, July 10, 1860. Sr. Louis, July 10, 1860. O. J. WOOD, Esq.: Dear Sir. — Hew me the pleasure and satisfaction to transmit to you the beneficial effects of your Hair Restorative, after a trial of five vears I commenced using your Restorative in January, 1855, since which time J. have not been, without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its turning, and in three weaks time there was not a gray hair to be noticed, neither has there been up to this time.

stopped us turning, and in three weeks time there was not a gray hair to be noliced, neither has there been up to this time. After my hair was completely restered, I continued its use by applying two or three times per month. My hair has ever o ninued healthy, soft and glossy, and my s alp perfectly free from dandruff. I do not imagine the is sta above mentioned will be of any particular advan-tige to yon, or even fatter your vanity at this late day, as I am well aware they are all known already and even r ore wonderful ones throughout the Union. I have oc-cupied my time in traveling the greater p.rt of the time the past three years, and have taken pride and pleasure in recommending your Restor salve, and exhibiting, its effects in my own case. In several instances I have met with people that have pronounced it a humbug; enying they have used it and without effect. In every instance, however, it proved, by probing the matter, that they hat not used your article at all, but had used some new article said to be as gool as yours, and selling at about half the price. I have noticed two or three articles my-self advertised as above, which I have no doubt are humbugs. It is actonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt. Apparently some of those charitans have not brains enough to write an advertisement, as I notize they have copied yours word for word in several instances. Inerely inserting some othors amo in place of yours. I harve, within the past two years, secan and takked with more than two thousand persons that have used your proparation, with perfect success-some for baldness gray hair, scald head, dandruf, and every disease the scaip and head are subject to. I called to see you personally at your original place of businesis here, but learned you were now living in New York.

DR. JOHNSTON.

Dr. Johnson member of the Royai College of Eurgeons, London, graduate from one of the mest eminent Colleges of the United States, and the greatest part of whose life has been spent in the Hospitals of London, Paris, Phila-delphia and elsewhere, has effected some of the mostas-tonishing corres that were ever known. Many troubled with ringing in the ears and head when asleep, prest ner-vousness, being alarmed at sudden sounds, basfulness, with frequent Diashing, attended.sometimes with derange-ment of mind were cured immediately.

TAKE PARTICULAR NOTICE.

TAKE PARTICULAR NOTICE. Dr. J. addresses all those who having injured them-selves by private and improper indulgencies, that secret and solitary habit which ruins both body and mind, un-fitting them for either business or society. These are some of the sad and melancholy effects pro-duced by early habits of youth, vit: . Woon's HAIR RESTORATIVE has acquired a reputation from notual test and experiment which cannot be en hanced by newspaper puffs. In our vicinity it has been extensively used, and we believe in every case with every desired result, and received the universal endorsement of ul who here tief it. We therefore scenario desired to end all who have tried it. We therefore recommend it as one of those few nostrums which accomplishes all it profess-es, and all tho hald and gray could desire.—Columbta

PROF. Wood'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its origi-nal color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair failing off. We have seen many authentic testimonials in proof of these asser-tions some of which are from genilemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried this Restorative. *Ratom* (for Branck). Bosion Olive Branch.

Wood's HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums, but we take great pleasure in racommending Professor Wood's article to all whose hair is failing off or turning gray. Our well known contribu-tor, Finley Johnson, Esq., has experienced the benefit of its application, and Joins with us in speaking of its virtues. Let all ury it, and bald heads will be as rare as snow in summer.—Baltimore Patriot.

Wood's HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great effloacy as a restorer of the hair to pristine vigor. Where the head had become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable prepara-tion for all classes. Its ingredients are such as to effect ally eradicates thadruff and other impurities, which operate so injuriously to the hair. It also has curative properties of another description. In many cases pim-ples and other disfigurements of the skin disappear wher-ever it is used. There is no hazard attaching to the trial of his remedy, and its effects can only be beneficial, as the compound if it does not cause a minifest inprove-ment, is incapable of doing harm, as its component ele-ments are perfectly innocuous.—Boston Transcript, April 22, 1869. WOOD'S HAIR RESTORATIVE .- Unlike most specifics, this

A GENUINE BOON.—In our capacity as conductor of a public journal, we are called upon to advertise the cure-alis of the day, each of which claims to be unadultared in its composition and infallible in its curative effects, In its composition and infallible in its curative effects, with what justice we leave our readers to determine. In one instance, however—Prof. Wood's Hair Restorative —we are so well assured of the notable qualities of the article, that we give if our indorsement as all that its in ventor and vender claim it to be. Its effect upon a failing head of hair is universally known to be magical. Like lime or guano on exhausted land, it brings its crop wher ever applied. Our own thatch is fortunately very heat ity, but we advise our friends with sparsery growing hair to try the Restorative.—Columbia Spy.

ALL HAIR DIES ARANDOND.- Word's Great Article has Taken the Field.-Professor Wood stands on an emine nee in ochemist, whose attention has been turned to inventing a hair toolo, has ever before reached. His fame is sud-den but world wild, and thousands who have wom wigs or been bald for years are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry, the chemistry of human life, and the laws which apply to the functions of the system. Frof. Wood studied out the human hair, its character, its properties and diseases, and how to re-store the decaying viality to that ornament ; he eaw, as in his own case, that gray hair is unnatural unless the age of the individual has reached four score, and he be-lieved that it he hair could be naturally ney italized. He tried his own case—almost bald and quite gray, at the age of the investme. The distored his own hair in color, strength and luxuriance, and the article he did it with he gave to the world.
