

Mr. JOHN EPPLEY has been appointed a route egent on the Northern Central Railroad, between Baltimore and this city.

A SPECIAL MEETING of the Friendship Fire Co., No. 1, will be held in their Hall on Monday evening, at the usual hour. Every member is requested to be present. By order of the President of the Steam Engine Committee. -----

The PAXTON TRIDE have completed their ar rangements for a grand ball in Davis' concert hall next Tuesday evening. The members of the tribe will appear in full Indian costume, and those who wish to "see sights' should attend the party.

UNITED STATES TROOPS. - Several car loads of United States soldiers arrived here last night over the Lebanon Valley Railroad and proceeded directly to Carlisle barracks, where they will remain until their services are required by the government. No information could be obtained from the officers or privates, who declined answering all questions. It is expected that a large body of troops from the west will arrive here in a few days on route for Washington city.

QUITE A FAMILY MESS. - Not long since a man married for his second wife, his own step mother, who was sister to his wife. The lady is therefore step-mother and aunt to her husband's children, also their grand-mother, while the husband is a step-father to his step sister. Her issue by this marriage, will not only be cousins to their step-brother, but uncles and supis also. And the lady herself, being grandmother to her children and nephews, may be regarded as mother to herself and child to her self, and therefore her own grandmother.

FORMAL AND FREE PRAYER .--- Our Episcopal brethren justly glory in the simplicity, majesty, beauty and variety of their noble liturgy. Yet free prayer often has power which no forms, however excellent, can reach. It is said of Summerfield, that his prayers were worth as much as his preaching. They were so full of earnestness, of pathos, of unction, that they melted every soul in the audience. Often a man of ordinary gifts, intellectually, will yet have such enlargement in conducting public service, as to carry a whole congregation with him up to heaven's gate. Directness, simplicity, pertinence, the true spirit of humility, the language of Scripture, and a real longing of heart for the blessings asked-these are requisites not confined to a few, but open to all, and when attained, they make a minister's devotional exercises in the pulpit a wonderfully useful adjunct to his sermons.

discovered a new method of preparing paper, tamperers. He advises that the ordinary paper of commerce should be soaked in gallic acid in the proportion of a few grains in a pint of water, enough to saturate five and twenty sheets. When dried, paper thus prepared may extent that it cannot be erased ; and any attemp to destroy the writing by means of chemical agents will leave evidence of the fraud in black blotches around the genuine writing. This process is a simple one, and if it should

NEW BANK .- A new bank at Downingtown, chartered under the free banking law, is soor to go into operation.

A RETIRED SCHOOLMASTER excuses his passion for angling, by saying that, from constant handling the rod.

A GOOD IDEA. --- A correspondent recommends that committees should be appointed by County Agricultural Societies, for every borough and township in every county, with special instructions to inquire after and prosecute every one who disregards the laws of the State in regard to the protection of birds.

THE CITY HOSPITAL contained five lodgers last night, one of them a victim of tangle-foot hailing from Kentucky, who was found "lying around loose." He was sent to prison for five days. The other occupants of the hospital being common vagrants, were discharged.

NEW SCHEDULE.-The summer time table of the Pennsylvania Railroad company goes Into effect next Monday, on and after which date

from Harrisburg daily, affording our business citizens facilities for quick trips to and from Philadelphia, which will be of great benefit to them. The hours of arrival and departure of the various trains will be found in the time-table published in our advertising columns.

CHEAP DESSERT FOR POOR PEOPLE .--- Oranges which are now abundant and cheap, may be economically used in place of preserves. Even good brandy, makes an excellent flavoring for pudding, sauce, cakes, etc.

GENERAL CAMERON has won golden opinions by his reply to two young officers who were recently ordered off with sealed orders. They asked the General whether their orders would lead them to any position of antagonism to the South, and were promptly told that they were then and there dismissed from the service. A few more such touches of Jacksonism will greatly tend to purge the army of spies and traitors, and serve to inspire that confidence. without which no cause can succeed. When President Lincoln selected Gen. Cameron for Secretary of War he got the right man for the right place.

District Attorney yesterday received a letter from a colored man named Joseph Bell, who formerly lived with Mr. Bomgardner in this city, announcing his arrest and imprisonment at fugitive slave. He states that he is a free born call and examine at S. Lewy, Boad's old Stand, man, and is anxious that his friends hereshould [Cor. Rev. A. H. SHOEMAKER will preach in the court room (Brant's Hall) to-morrow morning and evening, at the usual hours.

EVENING CHURCH BELLS, -- With what sweet, low melody does the pealing of the church bells habit, he never feels quite himself unless he is fall upon the ear when the air is clear and still, calling upon us to turn our thoughts for a while from the affairs of this world to those of the next. At first, with scarcely distinguished sound, comes floating to us the faint tolling of one in a distant part of the oity, then with yars 9 mmths, and 29 days. startling relief the deep clangor of another in our immediate neighborhood, then still another, and so they alternate with seeming regular ca dence, until the town clock, with measured resonant notes, appears to close this singular concert by reminding us that time is fleeting. And what musical monitors ought the church bells BRANT'S CITY HALL to be to us, as if warning sounds from a distant land. How often they open the long-closed avenues of the heart. The hardened criminal in his cell, under the heaviest penalty of the law, weary of existence, with his heart impenetrable to the agonized grief of an aged father, five passenger trains will arrive at and depart the speculium soliton as a pressed virtuous feelings and memories of better and happier days come rushing over him, as the far-off rippling gentle sounds of the evening bells come stealing in through the thickening twilight like an angel of light. How then the memory of former days comesgliding through his brain, the village church, its simple chimes, the old accustomed seat, the delight of his mother, justly proud of her boy. Under the influence the ordinary fruit, which can be bought at this of such thoughts as these, he bows his head, and time for ten and twelve cents per dozen, when his heart is at last softened. What a theme peeled, quartered, and covered with sugar for has the evening vesper bells ever been to the two or three hours, makes a more healthful and poet in sunny Italy, as in the beautiful sunset Inscious dish than the rich confectionaries found of that country the simple peasantry leave the upon many tables. The peel, packed in a jar luxuriant vineyards and turn with solemn steps with layers of white sugar, and covered with to their devotions. Even the stern and unimaginative Turk, who eschews the bell and prefers as a substitute the 'melancholy cry of the muezzin, prostrates himself in the dust at the first sound of his voice. And at sea, with what solemnity does the usually thoughtless and careless sailor turn on deck at the solemn peaks of the Sunday bells for afternoon prayers. To the reflecting observer there is nothing more calculated to awaken pure and holy thoughts than the evening church bells.--- Exchange.
