Holland Bitters

DYSPEPSIA. Liver Complaint, Fever and Ague, &c.

THE successful introduction and use of this celebrated Remedy has been the signal for a literal flood of compounds called "Bitters," offered in various forms, from a quart bottle to a flvesgallon keg, until this word "Bitters" is but another name for "grog," or some villanous whickey mixture.

But the really great relief derived from the minute dose, one teaspoonful, of our medicine.

BERHAVE'S HOLLAND BITTERS. and the entire absence of after prostration, has established for it a reputation which the host of imitations and counterfeits have failed to undermine. It is positively a vegetable preparation, with barely sufficient pure spirits to preserve it.

But one size of the genuine, (Half-Pint Bottles,) price ONE DOLLAR.

It is a medicine of long-tried efficacy for Furifying the Blood, so essential for the foundation of good health and for correcting disorders of the stomach and bowels. health and for correcting districts of the stollars and bowels.

Two or three doses will convince the afflicted of its salutary effects. The stomach will speedily regain its strength, a healthy action of the liver, bowels and kidneys will soon take place, and renewed health be the quick result.

PROF. WOOD'S HAIR RESTORATIVE.

OTHERS SAY OF IT. A Distinguithed St. Louis Physician Writes O. J. WOOD, Ksq.: Dear Sir:—Allow me the pleasure and satisfaction to transmit to you the beneficial effects of your Hair Restorative, after a trial of dive years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its turning, and in three weeks time there was not a gray hair to be noticed, neither has there been up to this time.

skioped its turning, and in three weeks time there was not a gray hair to be noticed, neither has there been up to this time.

After my hair was completely restered, I continued its use by applying two or three times per month. My hair has ever c intinued healthy, soft and glossy, and my stalp perfectly free from dandruff. I do not imagine the faits above mentioned will be of any particular advantage to you, or even fighter your vanity at this late day, as I am well aware they are all known already and even more wonderful ones throughout the Union. I have occopied my time in traveling the greater part of the time the past three years, and have taken pride and pleasure in recommending your Restorative, and carlbiting its effects in my own case. In several instances I have metwith people that have bronounced it a humbug; saying they have used it and without effect. In every instance, however, it proved, by prohing the matter, that they have used your article at all, but had used some new article said; to be as good as yours, and selling at about, half the price. I have noticed two or three articles my self advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently some of those charitans have not brains enough to write an advertisement, as I notice they have copled yours word for word in several matances, merely inserting some other name in place of yours.

I have, within the past swy eyars, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness gray halt, scald head dandruff, and every disease the scalp and head are subject to.

I called to see you personally at your original place of business here, but learned you were now living in New York.

WARM SPRINGS, Perry Co., Pa., June 7, 1860.

Prof. WeDD, Dear Sir:—I was induced more than year ago to try your valuable Hair Restorative for th purpose of cleansing my head of dandruff. I had suffered with it upon my, lead for years, and had never been able to get anything to do me any good in removing it, alticough I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Gross & Kunkle's drug store, and bought is bottle, and now am prepared to recommend it to universal use, for it has completely removedall dandruff from my head, and an application once in two weeks keeps it free from any itshing or other unipleasantness.—I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used twe bottles of the destorative no one has any knowledge of it, as I allow a few gray hairs to remain in order to have, my appearance comport with my age. My head is now of less trouble to me in keeping it clean, aco., than at any time since I have been a child. I consider your preparation of great value, and, although I do not like to expose myself, I consider it my duty; to do so. You can use this or any part of it is any shape you think proper, if it is worth any thing to you.

Bloomnorow, Ind., July 30, 1856.

BLOGAINGTON, Ind., July 30, 1859.

I DRAR Sin: I here send you a statement that I think you are entitled to the benefit of. I am a resident of Flosmington, and have been here for over thirty years. I am now over fifty years of age for about twenty years i am now over fifty years of age for about twenty years past my hair has been titrning considerably gray, and was almost entirely white and very stiff and unpliant. I had seen a number of certificates of the very wonderful effect of your Hair Restorative but supposed there was more action than truth in them: but entertaining a strong desire to have my-shart, if possible, restored to its original conor and sheuess, as it was in my younger days a beautiful black. I concluded I would make the experiment commencing in a small way. I purchased one of your small bottles, at one dollar, and cohamenced using, following directions as nearly as I could, I soon discovered the dandruff removed, and my hair, that was falling off in large quantities, was considerably tightened, and a radical change taking place in the color: I have continued to use it, till I have used three of your small bottles and just begun on the fourth. I have now as pretty a head of dark brown, or light black hair, as any man, or as that in my youtful days, when a boy in the hills of Western Virginia. My head is entirely clear of dandruff, and the bair cassed entirely falling off and is as soft and ine, and feels, as olly, as though it was just from the hands of a franch champtoner. Many of my acquaintances frequently say to me "Buller, where did you get that the wig "! I tell them it was the effect of your kestorative. It is almost impossible to convince them that it is the original hair of the same old gray head.

Yours, truly,

Wood's HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper puffs. In our vicinity it has been extensively used, and we believe in every size with every degired result, and received the universal endorsement of all who have tried it. We therefore recommend it as one of those few nostroms which accomplishes all it professes, and all the bald and gray could desire.—Columbia es, and all the bald and gray could desi

Proc. Wood's Hair Restorative.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair falling off. We have seen many authentic testimonials in proof of these assertions some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried this Restorative. Boston Olive Branch.

Wood's HAIR RESTORATIVE.—We are not in the habitof puffing overy new discovery, for in nine cases out of tenthey are quack instrums; but we take great pleasure in racommending Professor Wood's article to all whose mit is falling off or turning gray. Our well known contributor, Finley Johnson; Esq., has experjened the benefit of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snew in summer.—Bultimore Patriot.

Wood's HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpe chable evidence; to possess greatefflower as a restorer of the hair to pristine vigor! Where the head had become almost bald because of sickness, the use of this article, has produced a beautiful growth of thick; glossy hair. It is therefore a valuable proparation for all classes. Its ingredients are such as to effectually exadicates; dandrui and other imprirites, which operate so injuriously to the hair. It also has curvative properties of another description. In many cases pimples and other disfigurements of the skin disappear wherever its used. There is no hazard attaching to the trial of his remedy; and its effects gan only be heneficial; as the compound if it, does not cause a mraitest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—Boston Transcript, April 23, 1859.

A Genum Boon.—In our capacity as conductor of a public journal, we are called upon to advertise the ource alls of the day, each of which claims to be unadulterated in its composition and infallible in its curative effects, with what justice we leave our readers to determine. In one instance, however—Prof. Wood's Hair Restorative,—we are so well assured of the notable dualities of the article, that we give it our indorsement as all that its inventor and vender claim it to be. Its effect upon a failing, head of hair is universally known to be magical. Like lime or guano on exhausted land, it brings its crop wherever applied. Our own thatch is fortunately very healthy, but we advise our friends with sparsely growing hair to try the Bestorative—Columbia Spy.

All Hair Dyes Armoned.—Word's Great Article has Taken the Field.—Professor Wood stands on an eminence no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached.—His fame is sudden but world-wide, and thousands who have worn wigs or been bald for years are now, through the use of his preparation, wearing their own natural, and invariant head covering. So much for chemistry, the chemistry of human life, and the laws which apply to the functions of the system. Frof. Wood studied out the human hair, its character, its properties and diseases, and how to restore the decaying vitality to that ornament; he saw, as in his own case, that gray bair is unnatural unless the age of the individual has reached four score, and he believed, that the hair could be naturally revitatized. Liquois.

We understand Mr. Wolfs, for the accommodation of small dealers in the country, puts up assorted cases of Wites and Liquois. Such a man, and such a merchant, should be sustained against his tens of thousands of opponents in the United States, who sell nothing but initiations, ruinous alike to health and human appiness.
