Holland Bitters

DYSPEPSIA, Liver Complaint, Fever and Ague, &c.

The successful introduction and use of this celebrated Remedy has been the signal for a literal flood of compounds called "Bitters," offered in various forms, from a quart bottle to a five-galion keg, until this word "Bitters" is but another name for "grog," or some villanous whiskey mixture.

But the really great relief derived from the minute dose, one teaspoonful, of our medicine,

BERHAVE'S HOLLAND BITTERS, and the entire absence of after prostration, has established for it a reputation which the host of initations and counterfeits have failed to undermine. It is positively a vegetable preparation, with barely sufficient pure spirits to preserve it.

But one size of the genuine, (Half-Pint Bottles,), price ONE DOLLAR.

It is a medicine of long-tried efficacy for Purifying the Blood, so essential for the foundation of good health and for correcting disorders of the stomach and bowels.

and bowels.

Two or three doses will convince the afflicted of its salutary effects. The stomach will speedily regain its strength, a healthy action of the liver, bowels and kidneys will soon take place, and renewed health be the quick result.

WARM SPRINGS, Porry Co., Pa., June 7, 1859. Prof. WOOD, Dear Sir:—I was induced more than year ago to try your valuable Hair Restocative for the purpose of cleansing my head of dandruff. I had suffered with it upon my bead for years, and had never been able to get anything to do me any good in removing it, although I had tried many proparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Gross & Kunkle's drug store, and bought a bottle, and now am prepared to recommend it bought a bottle, and new am prepared to recommend it to universal use, for it has completely removedall dand-ruff from my head, and an application once in two weeks ruff from my head, and an application once in two weeks keeps it free from any itching or other unpleasantness.—I must also state that my hair had become quite white in places, and, by the use of your pregnanton, has been restored to its original color. I a m now 50 years of ago, and although I have used two bottles of the itestorative, no one has any knowledge of it, as I allow a new gray hairs to remain in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, so, town at my time since I have been a child. I consider your proparation of yreat value, and, although I do not like to expose my-off, I consider it my duty to do so. You can use this or any part of it in any shape you think proper, it it is worth any thing to you.

Bloomisgron, Ind., Jony 20, 1859.

Draw Sir: I hore send you a statement that I think you are entitled to the benefit of. I am a rejdent of Blosmington, and have been here for over thirty yours. I am now over fifty years of age. For about twenty years past my hair has been turning considerably gray, and was almost entirely white and very stiff and unplant. I had seen a number of certificates of the very wonderful effect of your Hair Bestorative but sup used there was more fiction than truth in them: but entermong a strong desire to have my hair, if possible, restored to use original color and fineness, as it was in my younger days a beautiful black, I concluded I would make the experiment commencing in a small way. I perceased one of your small bottles, at one dollar, and commence I using following directions as nearly as it will. I show discovered the dandruff removed, and my thir, that was falling off in large quantities, was considerably ightened, and a radical change taking place in the color. I have continued to use it, till I have used three of your small bottles and just begun on the fourth. I have now as pretty a head of dark forown, or light black hair as any man, or as I had in my youthful days, when a boy in the bills of Western Vergiots. My head is entirely clear of dandruff, and the hair cassed entirely falling off and it as soft and fine, and feels a oily, as though it was just from the hands of a French champooner. Many of my acquaintances frequently say to me "Butler, where did you get that fine wig !" I tell them it was the effect of your kestorative. It is almost impossible to convince them that it is the original bair of the same old gray head.

Yours, truly.

Yours, truly,
FREDERICK T. BUILER,
Bloomington, Monroe Co., Ind.

Wood's Hais Restorative has a quired a reputation from actual test and experiment which caunot be enhanced by newspaper pulls. In our vicinity it has been extensively used, and we believe in every case with every desired result, and received the universal endorsement of all who have tried it. We therefore recommend it as one of those few mostrums which accomplishs all it professes, and all the bald and gray could desire.—Columbia Sou.

Prov. Wood's Hair Restorative—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also curse extangents or uptions, and prevents the hair falling off. We have seen many authentic testimonials in proof of these assertions some of which are from gentiomen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried this Restorative. Boston Otive Branck.

Word's Hair Restorative.—We are not in the liabit of puffing every new discovery, for in nine cases out of ten they are quack nostrums, but we take great pleasure in racommenting Protessor Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Finley Johnson, E. q., has exporteness the benefit of its application, and oins with us in speaking of its virtues. Let all try it, and bald herds will be as rare as snow in summer.—Baltimore Patriol.

Wood's Hair Restorative.—Unlike most specifics, this is proved, by unimpe chable evidea ce, to possess great efficacy as a restorer of the hair to pristine vigor. Where the head had become almost baid because of cickness, the use of this article has produced a beautiful growth of thick glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effects ally eradicates dandruif and other impurities, which operate so injuricusly to the hair. It also has curative properties of another description. In many cases pimples and other disfigurements of the skin distincts where ever it is used. There is no figured attaching to the trial of his remedy, and fits effects can only be beneficial, as the compound if it does not cause a mrnifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—Bound Transcript, April 22, 1859.

A GRUINE Boon.—In our capacity as conductor of a public fournal, we are called upon to advertise the curealls of the day, each of which claims to be unadulterated in its composition and infallible in its curative effects, with what justice we leave our readers to determine. In one instance, however—Prof. Woon's Hair Restorative—we are se well assured of the notable qualities of the article, that we give it our indorsement as all that its in ventor and vender claim it to be. Its effect upon a failing head of hair is universally known to be magical. Like lime or guano on exhausted and, it brings its or p wherever applied. Our own thatch is fortunately very beal thy, but we advise our friends with sparsely growing hair to try the Restorative—Columbia Spy.

ALL HAIR DYES ARANDOYD.—Word's Great Article has Taken the Field.—Professor Wood stands on an eminence no chemiest, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is said, den but world-wide, and thousands who have worn wigs or been hald for years are now, through the use of his preparation, wearing their own natural and luxurisant head covering. So much for chemistry, the chemistry of human life, and the laws which apply to the functions of the system. Prof. Wood studied out the human hair, its character, its properties and diseases, and how to restore the decaying vitality to that ornament; he saw, as in his ewn case, that gray hair is unnatural unless the age of the individual tas reached four core, and its tental the hair could be naturally revitained. He tred his own case—almost baid and quite gray, at the lieved that the hair could be naturally revitained. He trent his own case—almost baid an quite gray, at the age of thirty seven—he restored his own hair in color, strength and luxuriance, and the article he did it with he gave to the world.
