A Distinguished St. Louis Physician Writes

A Distinguished St. Louis Physician Writes

St. Louis July 10, 1860.

O. J. WOOD, Esq.: Dear Sir:—Allow me the pleasure and satisfaction to transmit to you the beneficial effects of your Hair Restorative, after a trial of five vears. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its turning, and in three weeks time there was not a gray hair to be noticed, neither has there been up to this time.

After my hair was completely restered, I continued its use by applying two or three times per month. My hair has ever a nituned healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the fa its above mentioned will be of any perticular advantage to you, or even flatter your vanity at this late day, as I am well aware they are all known already and even more wonderful ones throughout the Union. I have occupied my time in traveling the greater p rt of the time more wonderful ones throughout the Union. I have occupied my time in traveling the greater p rt of the time tho past three years, and have taken prind and pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people that have pronounced it a humbry; saying they have used it and without effect. In every instance, however, it proved, by probing the matter, that they have used your article at all, but had used some new article said to be as good as yours, and selling at about half the price. I have noticed two or three articles my-self advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently some of those charitans have not brains enough to write an advertisement, as I notice they have copied yours word for word in severali natances, merely inserting some o

I called to see you personally at your original place of business here, but learned you were now living in New

You are at liberty to publish this or refer parties to me. Any communication addressed to me, care box No. 1,020, will be promptly answered.
Yours, truly,
JAMES WHITE, M. D.

WARM SPRINGS, Perry Co., Pa., June 7, 1850.

Prof. WOOD, Dear Sir:—I was induced more than year ago to try your valuable Hair Restorative for the purpose of cleansing my head of dandruff. I had suffered with it upon my head for years, and had never been able to get anything. It do me any good in removable it.

purpose of cleansing my need of dandruif. I had suffered with it upon my head for years, and had never been able to get anything to do me any good in removing it, although I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I casled at Gross & Kunkle's drug store, and bought a bottle, and now am prepared to recommend it to universal use, for it has completely removedail dandruif from my head, and an application once in two weeks keeps it free from any itehing or other unpleasantness.—

I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain in order to have my appearance comport with my age. My head is now'of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, although I do not like to expose myself, I consider it my duty to do so. You can use this or any part of it is any shape you think proper, if it is worth any thing to your.

ROWNERDOW, Ind. Ind. So.

BLOSMINGTON, IDd., July 30, 1859.

B DRAR SIR: I here send you a statement that I think you are entitled to the benefit of. I am a resident of Blosmington, and have been here for over thirty years. I am now over fifty years of age. For about twenty years past my hair has been turning considerably gray, and was almost entirely white and very stiff and unplant. I had seen a number of certificates of the very wonderful effect of your Hair Restorative but supposed there was more fiction than truth in them: but enter-sining a strong desire to have my hair, if possible, restored to its original color and fineness, as it was in my younger days a beautiful black. I concluded I would make the experiment commencing in a small way. I purchased one of your small bottles, at one dollar, and commenced using following directions as nearly as I could. I soon discovered the dandruff removed, and my hair, that was falling off in large quantities, was considerably tightened, and a radical change taking place in the color. I have continued to use it, till I have used three of your small bottles and just begun on the fourth. I have now as pretty a head of dark brown, or light black hair as any man, or as I had in my youthful days, when a boy in the hills of Western Virginia. My head is entirely clear of dandruff, and the hair ceased-entirely falling off and is as soft and fine, and feels as oily, as though it was just from the hands of a Freuch champooner. Many of my acquaintances frequently say to me "Buller, where did you get that fine wig ?" I tell them it was the effect of your Kestorative. It is almost impossible to convince them that it is the original hair of the same old gray head.

Yours, truly.

PREDERICK T. BUTLER,

Wood's Mair Restorative has a quired a reputation from actual test and experiment which cannot be enhanced by newspaper puffs. In our vicinity it has been extensively used, and we believe in every case with every desired result, and received the universal endorsement of all who have tried it. We therefore recommend it as one of those few nostrums which accomplishes all it professes, and all the bald and gray could desire.—Columbia

PROF. Wood'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair falling off. We have seen many authentic testimentals in proof of these assertions some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried this Restorative. Basion Olive Branch.

Wood's HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums, but we take great pleasure in racommending Professor Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Finley Johnson, Eq., has experienced the benefit of its application, and joins with us fur peaking of its virtues. Let, all try it, and bald heads will be as rare as snow in summer.—Baltimore Patriot.

Wood's HAIR REPORATIVE.—Unlike most specifics, this is proved, by unimperchable evidence, to possess great efficacy as a restorer of the hair to pristine vigor. Where the head had become almost bald because of slokness, the use of this article has produced a beautiful growth of thick, glossy hair. It is, therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicates thandrulf and other impurities, which operate so dipuriously to the hair. It also has curative properties of another description. In many cases pluples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of his remedy, and its effects can only be beneficial, as the compound if it does not cause a mrnifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—Boston Transcript, April 22, 1869. WOOD'S HAIR RESTORATIVE. - Unlike most specifics, this

A GENUME BOOK.—In our capacity as conductor of a public journal, we are called upon to advertise the curealist of the day, each of which claims to be unadulterated in its composition and infallible in its curative effects, with what justice we leave our readers to determine. In one instance, however—Prof. Wood's Hair Restorative—we are so well assured of the notable qualities of the article, that we give it our indorsement as all that its in ventor and vender claim it to be. Its effect upon a failing head of hair is universally known to be magical. Like lime or guano on exhausted land, it bringsits crop wherever applied. Our own thatch is fortunately very healthy, but we advise our friends with sparsety-growing hair to try the Restorative.—Columbia Spy.

All Har Dyn Asandown.—Word's Great Article has Tuken the Field.—Professor Wood stands on an eminence no chemist, whose attention has been turned to inventing a liair tunic, has ever before reached. His fame is spd. a hair tonic, has ever before reached. (His fame, is sudden but work wide, and thousands who have worn wigs or been baid for years are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry, the chemistry of human life, and the laws which apply to the functions of the system. Prof. Wood studied out the human hair, its character, its properties and diseases, and how to restore the decaying vitality to that cramment; he saw, as in his swn case, that gray hair is unnatural unless the age of the individual has reached four score, and he believed that the hair could be naturally revitalized. He tried his own case—almost baid and quite gray, at the age of thirty seven—he restored his own hair in color, strongth and inturiance, and the article he did it with he gave to the world. DR. JOHNSTON. DR. JOHNSTON.

Dr. Johnson member of the Royal College of Size is London, graduate from one of the mest eminent Clark. of the United States, and the greatest part of whose has been spent in the Hospitals of London, Paris, Pt. delphia and elsewhere, has effected some of the most toolshing cures that were ever known. Many modeled with ringing in the cars and head when asleep, great new yousness, being alarmed at sudden sounds, bashtunes with frequent blushing, attended sometimes with derayment of mind were cured immediately,

TAKE PARTICULAR NOTICE. Dr. J. addresses all those who having injured them solves by private and improper indulgencies, that secret and solitary habit which rains both body and mind, to fitting them for either business or society.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of tablack and Limbs, Pains in the Head, Dimness of sublack and Limbs, Pains in the Head, Dimness of sublack and Limbs, Pains in the Head, Dimness of sublacks of Muscular Power, Paipliation of the Heart, lypepels, Norveous Irritability, Derangement of the big surface for the productions, General Debility, Symptoms of Consumition, &c.

MENTALLY. MENTALLY, the fearful effects on the mind are much in be dreaded:—Loss of Memory, Confusion of Ideas, pression of Spirits, Evil Forebodings, Aversion to contry, Self-distrust, Love of Solitude, Timidity, &c., are some of the evil effects.

Thousands of persons of all ages, can now judge what is the cause of their decline in health, losing their vice becoming weak, pale, nervous and emadiated, have a singular appearance about the eyes, cough, and symims of consumption.

YOUNG MEN

ms of consumption.

Who have injured themselves by a certain practice, in dulyed in when alone—a habit frequently learned from stil companions, or at school, the effects of which are alghity felt, even when asleep, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hopes of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life by the consequence of deviating from the path of nature, and indulging in a certain secret habit. Such persons must, before continuplating

canon, Nervous, Trembling, Weakness or Exhaustion or the most fearful kind, speedily oured.

TO STRANGERS.

The many thousands cured at this Institution within an last welve years, and the sumerous important Surgica-operations performed by Dr. J., witnessed by the reporters of the papers, and many other persons, accioes of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afficted.

DISEASES OF IMPRUDENCE — When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, affecting the head, throat, nose, skin, ac., progressing on with frightful rapidity, till death puts a period to his dreafful sufferings by sending him to that bourne from whence no traveler returns. It is a metancholy fact that thousands fall victims to this terribis disease, owing to the unskillences of ignorant pretenders, who, by the use of that deadly poison, succery, run the consultation and make the residue of fife miserable.
