

Daily Telegraph.

Forever float that standard sheet: Where breathes the foe but falls before us; With Freedom's soil beneath our feet, And Freedom's banner streaming o'er us!

OUR PLATFORM. THE UNION—THE CONSTITUTION—AND THE ENFORCEMENT OF THE LAW.

HARRISBURG, PA.

Thursday Afternoon, April 25, 1861.

COMMISSARY APPOINTMENT.

William W. Irwin, Esq., of Beaver county, has been appointed Commissary General of the militia of the Commonwealth, and is actively engaged in the discharge of the duties of his office.

THE WAR IS SO AGGRESSIVE, so far as we can hear from the movements of the southern conspirators; and as they have struck the first blow, on them the consequences of the conflict will fall. Admitting this to be so, it would be well for the people of the free states to prepare themselves for such a resistance to the aggression of these traitors as will turn the tide of this rebellion, and place the war where it belongs, in the midst of the territory of treason.

VIRGINIA IS reaping the folly of her treachery in the universal condemnation which is being heaped upon her. The western part of the State will never join the crazy portion of the Old Dominion, so that those who are endeavoring to precipitate secession will have an opportunity of testing the length to which the practice can be carried by a division of the Commonwealth, and a revolution waged against a revolution in their own midst.

IN THE WAR MOVEMENT now prevalent it is possible that we may overlook the most vulnerable point in the armor of the South. We may throw half a million of troops upon the rebel territory, and have a line of conquered cities, and provinces, from Baltimore to the Gulf, without striking so effectual and deadly a blow at the South, as by a strict blockade of all the Southern ports, and all the land avenues of supply.

HEAVY SNOW STORM.—Wednesday morning, says the Wilkesbarre Record of the Times of the 24th inst., opened with a furious snow storm, which must have added many inches to the accumulation on the mountains.

ANDREW JACKSON, in his famous Nullification Message, delivered in the year 1833, declared that "it is the right of mankind generally, to secure by all means in their power, the blessings of liberty and happiness; but when for these purposes, any body of men have voluntarily associated themselves under a particular form of government, no portion of them can dissolve the association without acknowledging the correlative right in the remainder to decide whether that dissolution can be permitted consistently with the general happiness."

IN CONTRAST with the action of Andrew Jackson, the position of James Buchanan, while he was President, is worthy of the serious consideration of the people of this Union, because James Buchanan was a member of the Administration of old Hickory, and of course, approved of its policy. If he had not cheerfully and absolutely done so, James Buchanan would have never been commissioned as Minister to Russia by Andrew Jackson.

IF THE COTTON STATES remain out of the Union, as they declare they will, United States stock must increase in value very materially. While South Carolina and her associates in crime and treason were in the Union, United States stock was worth \$1 16 @ 1/2 20 per dollar. The inference is then fair, that if the slave states should all remain out of the Union, the value of these stocks would so increase as to make the credit of the government the proudest feature of its construction.

WE HAVE BEEN REQUESTED to state that only the past of Gov. Curtin, the President, Vice President, Directors and Superintendents of the Pennsylvania Railroad, can be accepted by the conductors of the road. To save trouble, soldiers traveling from one point to another, should only provide themselves with such passes.

THE BALTIMORE NEWS, which has always been a violent secession journal, continues its attacks on Gov. Hicks, and advises the secessionists not to trust him. This would almost seem to establish that he has not been a traitor, playing a deep game, as many supposed.

LATEST FROM BALTIMORE. The Baltimore papers of Tuesday give us several important items about the position of affairs in this city. They state that General Triunfo has issued an order saying that there shall be no absolute restriction on steamship travel, but no persons would be allowed to leave the city without permits.

THE CONFIDENCE in financial circles, manifested for the stability of the government, is one of the best signs of the times. The fact of our unbounded credit while burdened with expensive states, and their threat to absolve themselves, will increase this credit.

ROLLS OF HONOR.—In all of our exchanges outside of the rebel country, we find lists of companies that have mustered for the service of their country. These muster rolls are truly rolls of honor. Every man whose name is on these rolls, will be the heir of an honor as proud as that ever accorded to any patriot.

MORE EXPULSIONS FROM THE SOUTH. No northern man is allowed to travel through any of the slaveholding States. Two men arrived here last night that had been driven from Thomasville, North Carolina. They state that a large body of southern troops were stationed at Harper's Ferry, and that some 500 troops from South Carolina were encamped at M'Quinn creek, in Virginia, within four hours travel from Washington.

SHERMAN'S BATTERY TO GO THROUGH BALTIMORE. A gentleman direct from Washington, whose statement can be relied upon, informs us that yesterday he struck the Philadelphia road at Snyderville, about twenty miles below Wilmington. Sherman's Battery, horses, guns and men, were at this place. There was a train of fifty or sixty cars containing soldiers, all armed. There were several large siege guns on platform cars, and they were all bound for Baltimore.

GENERAL ORDERS—NO. 3. HEADQUARTERS OF THE ARMY, WASHINGTON, April 19, 1861. The Military Department of Washington is extended so as to include, in addition to the District of Columbia and Maryland, the States of Delaware and Pennsylvania, and will be commanded by Major General Patterson, belonging to the volunteers of the latter State.

HON. CALSB CUSHING FOR THE UNION. NEWBURYPORT, Mass., Wednesday, April 24. The Hon. Calsb Cushing, at a flag-raising, addressed the citizens of Newburyport this afternoon. He was listened to with the deepest attention, and was for the Union, under any or all possible circumstances, and against all its foes.

WAR ISN'T.—A casemate is a stone roof to a fort, made sufficiently thick to resist the force of cannon balls, and a casemate gun is one which is placed under a casemate. A barbette gun is one which is placed on the top of a fortification. An embrasure is a hole or opening through which guns are fired from fortifications. Loop holes are openings in walls to fire musketry through.

MISCELLANEOUS. WHAT CAN NORTHERN WOMEN DO?—What, says the New York Post, can a woman do? Everything. She can give her husband, son or brother cheerfully to the holy cause of liberty and Union.

HEROIC DEEDS.—THIRTEEN LIVES LOST.—TWENTY PERSONS INJURED.—A horrible calamity occurred at the well of Little & Myrick, on the Buchanan Flats near Franklin, on Wednesday. A vein of oil was tapped, and a spout thrown up two hundred feet in height.

EROLDED MILITARY.—The proclamation of the President, calling for a force of 75,000 volunteers, has met with an energetic response from the entire North. There have been up to this time very probably not less than two hundred and fifty thousand men offering their services to the Government of the different States.

NORTHERN FREE STATES.—2,336,816 Confederate States of the South. 378,682 Border Slave States. 604,724 Territories. 11,022
