VIGOR AND PURITY. PROF. O. J. WOOD'S

# D. W. GROSS & CO., RESTORATIVE CORDIAL, BLOOD RENOVATOR.

Is precisely what its name indicates; for, while pleasan to the taste, it is revivilying, exhibatating and strength-ning to the vital powers. It also reviviles, reinstates, and renews the blood in all its original purity, and thus restores and renders the system invulnorable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of till.

So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted as to act in perfect accordance with the laws of nature, and hence soothe the weakers stomach, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhibitrating in its effects and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can pever injure. As a super properties. onsequently can never injure. ### MOTHERS, TRY IT!

And to you we appeal, to detect the illnoss or decline not only of your daughters before it be too lite, but also your sous and husbands, for while the former from false delicacy, often go down to a premature grave, rather than let their condition be known in time, the latter are so often mixed up with the excitement of business, that if it were not for you, they tro, would travel in the same downward path until it is too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unserringly point you to Prolessor WOOD? the remedy which should be siways on hand in time of need.

Acad what the Press say after thoroughly testing he maiter, and no one can have a doubt.

PROF. WOOD'S RESTORATIVE CORDIAL,—It is recorded in classics that Payche was once sent to a climate warmer than the West Indies to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the lid of the box was removed out flew all the ills that flesh is helf to,—fortunately hope was found in the bottom of the box.

Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, aids the organs of direction, imparts strength to the nervous system, and for iftes the citacle of health, so as to bid definance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions and while it is excillarating as pure wine, no injurious results can possibly follow its use it is a desideratum in the medical world, and those wine are afflicted with loss of Appetite, Dyspepsia, Consum.tion, Faintness, Giddiness, Neuralgia, Paloita-

PROF. WOOD'S RESTORATIVE CORDIAL and BLOOD RENOVATOR is, without doubt, the best Tonic Cordial in the world. To those who are suffering from general debility we would recommend its use; for, while it is pleasant to the tasts, it is strengthening to the system, and will at once tend to remove all impurities of the blood, and credients all traces of disease. It can be taken by the weakest stomach, while those in good health will at once feel its exchlarating power. Wo are condiont that after using one bottle of this cordial none will be for a day wil, not it.—"New York Leader."

A PURE, HEALTHY TONIO, and one free from the deleterious and injurious effects sure to fellow those in ordinary use, bas long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the hum. I body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence, it is pariectly adapted to Cid and young. Reader, try it. Thousands have stready done so, and the testimony is universal in its fayor.—"New York Atlas."

A member of the New York seventh regiment from Washington, says when that regiment offered its services to the Government it was for the defence of the Capital, and not to engage in war against any State or States. Fifty members had refused to take the oath on reaching Washington. The rest took it on condition not to be called out of the District of Columbia. HOW A SOLDIER KEEPS HIS WORD OF HONOR. It is refre-hing in this day, when Twiggs and Beauregard and Hamilton, among warriors, and Wigfall and Breckinridge among Senators, sworn to allegiance, are recreant to their oaths, to read the parrative of the old soldier, Peter Hart, who was in Fort Sumter during the slege. The story carries its own moral, and needs no word of comment. Hart was an old soldier under Anderson at Mexico. When Mrs. Anderson visited Fort Sumter, Hart ac-companied her, by permission of the Confeder ate authorities, on giving his parole not to fight should he conclude to remain in the garrison. When the hombardment commenced the sol dier mounted the parapet wall, and shouted to the men: "Now fire away boys, I can't fight without breaking a soldler's word, but I'll tell
