AN IMPOSTOR .- The Vigilance Committee of Chambersburg yesterday, upon the arrival of the cars at that place from this city, arrested a passenger who from certain suspicious circumstances they had reason to believe was connected with the Southern rebels. It was ascertained that he had came direct from New York, and was en route to Hagerstown. He had that all the powers and facilities of the Pennin his possession a trunk very large and very heavy, which it was supposed contained articles for the transportation of troops and munitions "contraband of war." At an examination before the Committee the man produced a "pass" purporting to have been issued by Mayor the contrary, the line was never so thorough-Kepner, of this city, upon which he was discharged from custody and permitted to continue his journey to Hagerstown. #### FROM CAMP SCOTT. [Correspondence of the Telegraph,]

YORK, Pa., May 3, 1861.

MR. EDITOR :- While the storm of rain and snow sways the sceptre over our camp, I deem snow sways the sceptre over our camp, I deem it would not come amiss to drop you a line. My object in writing is to make known our condition. We are quartered in a very good camp, and the citizens of York are very kind, and appear to take more interest in our comfort than our government which we are serving; and I think it proper that we should not pass this neglect without giving it a notice. I speak in reference to the three regiments which were ordered from Harrisburg, campéd at Cockeysville, and have returned from that God-forsaken vicinity. As you are aware we were ordered away before we were even uniformed or equipped, and we are in the same state yet. Our men are not supplied with blankets properly, one blanket being divided between two men, which makes them quite small, and insufficient to protect the men from the elements. It is a shame. Some of the men's clothes, citizens' dress, are fast wearing out, and no indication of them being supplied with a uniform, although it has been promised to them frequently by some of the officers. The rations are too small, not sufficient to feed a man for twenty-four hours, for which it is intended; in fact it is not more than two-third rations. Great dissatisfaction exists on that account, and to my knowledge if it is not soon remedied there will be an outbreak principally on that account. It must be remembered that men leaving comfortable homes, for the sake of our insulted government, expect some privations, but they do expect enough to eat.— These three Regiments with the exception of two or three companies, have not got belts, cap boxes, cartridge boxes, bayonet scabbards or knapsacks; and yet we are told to hold our selves in readiness to march at a moments warning to repel a foe, "worthy of our best steel." The question is simply, are we preparsteet. The question is simply, are we prepared? No we are not, and the soldiers would be right to say they will not go, when the government does not furnish them, in the manner proscribed by law. Whose fault it is I do not know, whether it is the fault of the government or the fault of our officers: but the fault s somewhere and should be speedily remedied. notice that the troops coming here from Harrisburg are fully equipped, with the exception of a uniform; we would not grumble if we had not the uniform, but in the name of common sense equip us that we may be able to meet the foe on the same terms that they will meet us. Hoping that this statement of things may not exist long. I remain yours truly,

That we regret the violent attack on the troops of the United States, while peaceably marching through the city to protect the seat of Government, and indignantly repudiate making it a pretext to organize an armed mob under the disguise of a special police, to place the city in a hostile attitude to the General Government, and hereby declare onr abhor-rence for the attempt of the Legislature to inaugurate a military despotism, by a bill for the creation of what is called a board of

The President issued the following Proclams BY THE PRESIDENT OF THE UNITED

WHEREAS, The existing exigencies demand immediate and adequate measures for the pro-tection of the national Constitution, and the preservation of the national Union, by the suppression of the insurrectionary combinations now existing in several States for opposing the laws of the Union and obstructing the execu-tion thereof, to which end a military force, in addition to that called forth by my proclama-tion of the 15th day of April in the present year, appears to be indispensably necessary.

Now, therefore, I, Abraham Lincoln, President

of the United States, and commander in chief of the army and navy thereof, and of the militia of the several States when called into actual service, do hereby call into the service of the United States forty-two thousand and fifty four volunteers, to serve for the period of three years, unless sooner discharged, and be mustered into service as infantry and cavalry. The proportions of each arm, and the details of enrollment and organization, will be made known throughout the Department of War. And I also direct that the regular army of the United States be increased by the addition

of eight regiments of infantry, one regiment of cavalry and one regiment of artillery, making altogether a maximum aggregate increase of twenty-two thousand seven hundred and fourteen officers and enlisted men; the details of which increase will also be made known

through the Department of war.

And I further direct the enlistment, for not less than one or more than three years, of eighteen thousand seamen, in addition to the present force, for the naval service of the United States. The details of the enlistment and or-ganization will be made through the Depart-

ment of the Navy.

The call for volunteers hereby made, and the direction for the increase of the regular army and for the enlistment of seamen hereby given with the plan of organization adopted for the volunteer and for the regular forces hereby au-thorized, will be submitted to Congress as soon
