IT WILL RESTORE THE WEAK, EINSTATE THE BLOOD IN ALL ITS ORIGINAL VIGOR AND PURITY.

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL,

BLOOD RENOVATOR.

Is precisely what its name indicates; for, while pleasan to the taste, it is revivilying, exailarating and strengthening to the vital powers. It also revivilles, reinstates, and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all.

So chemically and skillfully combined as to be the most powerful tould, and yet so perfectly adapted as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritation, it is also perfectly exhitarating in its effects! and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and cousequently connected the proventive and cure of the properties. PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in classics that Payche was once sent to a climate warmer than the West Indies to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the lid of the box was removed out flew all the ills that flesh is herr to.—Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, sids the organs of dicestion, in parts strength to the nervous system, and fortides the citatel of health, so as to bid deflauce to the assaults of disease. PROF. WOOD'S RESTORATIVE CORDIAL and BLOOD RENOVATOR is, without doubt, the best Tonic Cordial in the world. To those who are suffering from general debility we would recommend its use; for, while it is pleusant to the taste, it is strengthening to the system, and will at once tend to remove all imparties of the blood, and eradicate all traces of discase. It can be taken by the weakent stomach, while those in good heal hall at once seel its exhibating power. LOOK TO YOURSELF IN TIME.—How many in consequence of a filse deleacy suffer from suppressed, painful, or obstructed mensuration, and think because they are young that by and by nature will work itself clear ground on the system, and all come in right in the end, little dreaming that the seeds of death are already germinating in the system, because the vital energies are impaired, and the entire a cimal economy deranged, debilitated; and yet, careless of themselves as they are, if a remedy were set before them which would restore all the (unctions of the system, and reinvigorate the body, they would take it and thus be in time to see the late.
