HARRISBURG.

Thursday Afternoon, May 9, 1861.

UNION ENVELOPES, Note Paper and Badges can be had at Bergner's Book Store.

ATTENTION.—The Fourth Ward Home Guard will meet for drill at their head quarters at 8 o'clock this evening.

FLAG PRESENTATION.—A handsome American flag was presented to the Lochiel Greys this afternoon by the ladies of this city.

THE COMMITTEE OF PUBLIC SAFETY meets at eight o'clock this evening at the Court House (Bran's Hall.) A full attendance of the members is requested.

COMMUNICATION OPENED.—The first regular passenger train for Baltimore, since the 19th of April, left this city at noon to day, with the expectation of being able to run through on usual time.

THE HYDRANTS.—Persons using Susquehanna water are notified that it will be shut off at 6 o'clock Sunday morning, for five or six hours, for the purpose of connecting the pipes leading up Ridge Road with those of the Reservoir.

MORE MILITARY.—A volunteer company from Clearfield, (old town,) with an excellent brass band, arrived here at noon to-day, and joined Camp Curtin. The company had the full complement of men, and were under the command of Capt. Oscar Loring.

THE BRADFORD COUNTY VOLUNTEERS.—Owing to some misunderstanding in relation to the time of service, a considerable portion of the three companies of volunteers who arrived here a few days ago from Bradford county, returned to their respective homes at noon to-day.

REMOVED TO PITTSBURGH.—Miss. H. E. Sears, who practiced medicine here for several years, we see by the Pittsburg papers, has hung out her shingle in that city. During her residence in this city she was highly esteemed for her upright conduct and merit and skill as a physician.

FLAG RAISING.—We understand that a large and handsome American flag will be raised this evening at 7 o'clock at Mrs. Espy's boarding house, in Front street. Gen. Small of Philadelphia, will deliver a short address, the "Star Spangled Banner" will be sung, and the Columbia County Brass Band will furnish music for the occasion.

A COMET VISIBLE.—The comet just discovered by M. Thatcher, is said to be now plainly visible to the naked eye. Star gazers will find it in the quadrangle of the "Dipper" in the Great Bear—a hazy star near the brightest of the four. It exhibits a tail three degrees long in the telescope. It moves rapidly from the north-west, and in a few days will be conspicuous as a flaming sword from the north advancing into the southwestern skies. Is it an omen?

CAMP CURTIN.—There are now twenty-seven companies in Camp Curtin, two of which belong to the three months' service requisition, and are awaiting special marching orders.—The remaining twenty-five companies have been accepted under the three years' requisition, but have not yet been formed into regiments, or mustered into the service of the United States. They remain for the present in camp, for military instruction.

HARRISBURG FEMALE SEMINARY.—So many schools are being disbanded at the present time that some rumors are circulated that this institution would also be discontinued. We are authorized by the Principal, Mrs. Sarah E. Dixon, to give an emphatic contradiction to these rumors. The patronage of the Seminary is as large as ever at this season. No change has been made in the corps of inspectors—and the school is to be continued in all its departments as heretofore. The recent suspension of the Pennsylvania Female College renders this institution a necessity. The Seminary will be reopened in September, after the usual holidays, with that increased patronage which it certainly deserves.

A DIFFERENT STORY.—The notice in last evening's TELEGRAPH in reference to an "excitement in State street," was partially incorrect. We have since learned from those who witnessed the whole transaction, that the persons who visited Casey's meat shop were detected in the act of pocketing a quantity of bologna, and when taxed of their theft, they became saucy and impudent, and threatened to whip the son of the proprietor, whereupon this latter personage, and not the father as stated yesterday, proceeded to give his would-be assailants a thrashing, which caused them to vacate the establishment in the quickest possible space of time. The information upon which we based our statement yesterday was derived from one of the parties who received the thrashing, and of course, was framed to meet his own views.

DESERTIONS FROM THE VOLUNTEER RANKS.—Very few desertions have taken place in the Pennsylvania line up to this time. The proportion is not as one to ten of the desertions which took place from the two regiments which marched to Mexico in 1846. The desertions up to this time do not average one to each company after being sworn in. Probably one hundred have ran away, which, in an army of twelve thousand volunteers, is unparalleled in the annals of history. In the late war with Great Britain, whole companies deserted after being fully cognizant of the hardships of camp life, and in the Mexican war some companies lost a third of their men before they left New Orleans.

When actual hostilities are commenced desertion may be punished by death. In the position in which the camps are now, desertion is usually punished, when the deserter is caught, by shaving the head and drumming out of camp. Little action has been taken, up to this time, even to recover deserters, because where one has taken place a dozen of true and loyal men have been ready to take his place.

SWORD PRESENTATION.—We noticed in last Saturday's TELEGRAPH the fact that a number of the personal friends of Lieut. C. C. Davis of the State Capital Guard, of this city, had purchased a handsome sword and belt for presentation to that meritorious officer. The presentation ceremonies took place last Monday at Camp Scott, near York, and are described as having been very interesting. Messrs. Alex. Watson, David Croft and Joseph Sheetz constituted the committee appointed to bear the gift to the recipient. Mr. Watson presented the sword belt, making the following remarks:

LIEUT. DAVIS: Permit me, sir, on behalf of your many friends in the city of Harrisburg, to present you with this sword, as a small token of their high regard for you as an officer and a man; feeling assured that in giving it into your keeping it will be used as long as you have an arm to strike in defence of that flag under whose folds our country has grown into greatness, and that its blade will not be tarnished while in your care, save by the heart's blood of him who would trail in the dust that beautiful emblem of our nationality, the Stars and Stripes. Lieutenant, the citizens of Harrisburg feel proud of you and your five noble-hearted and brave brothers, all of whom are enrolled in the service of our country. With an army of such men in the field, we feel safe that the Star Spangled Banner long will wave "o'er the land of the free and the home of the brave." While on the tented field, should thoughts of home and mother steal o'er you, let it be a little consolation to you to know that the comfort of your aged and widowed mother will be strictly cared for in your absence. Yet full well I know that the united regard and sympathy of the whole community will be but a poor equivalent for the absence of her six noble boys. May God bless and protect you, the sincere prayer of all, hoping you may soon return covered with the honors so richly deserve, and which you will surely reap should the opportunity occur.

Lieut. Davis made a brief but very appropriate reply, which we regret could not be obtained for publication.

THE NEW MILITIA BILL.—A new militia bill is now before the Legislature. The first section authorizes the organization of a Reserve Volunteer Corps, to be composed of eleven regiments of Infantry, three of Cavalry, and one of Artillery, the same to be clothed and equipped as similar troops in the United States service, and to be liable, at such times as their services may be required, to be called into the service of the United States or National Government. Section second provides for the establishment of two or more camps as Camps of Instruction; and section third requires that the troops be drilled therein until perfected in the military art. Section four relates to the pay and rations, which are made the same as in the United States service. Section five requires that the troops shall, at all times, hold themselves in readiness for service. Section six makes it incumbent on the commander-in-chief to procure arms, uniforms and accoutrements for the troops—the captains of the different companies to give security for the safe keeping and delivery of the same. Section seven relates to the election of officers. Section eight empowers the staff officers and commander-in-chief to make all useful regulations for the organization and equipment of the men. Section nine authorizes the distribution of one thousand stand of arms to the people of those counties bordering on the Virginia line, to be used for home defence, or in such other service as they may be required to perform. Section ten empowers the Governor and Adjutant General to procure suitable arms and equipments for the volunteers now organized, and to contract for remodeling all the arms of the State which have become unfit for service. It also provides that before any arms are distributed to the Home Guards or other companies, they be sworn to support the constitution of the State and the United States, &c.

DEPARTURE OF TROOPS.—The 14th and 15th regiments of State troops left Camp Curtin, the one at 9 and the other at 10 o'clock this morning, in the cars of the Pennsylvania Railroad towards Philadelphia. As stated yesterday, the Verbeke Rifles, of this city, are attached to the Fifteenth, and accompanied their regiment. During the stay of the Rifles at Camp Curtin, they have been subjected to strict discipline and severe drill, the result of all which has been to put the company in the best possible condition for active service. The corps is composed of active able-bodied young men, who look as if they could endure almost any amount of the fatigue and hardships incident to a military campaign.

Since writing the above we have been kindly furnished with the names of the officers and a list of the companies composing the above regiments, which we publish for future reference:—

New York, May 9.

The transport steamship Baltic and Kedan, have arrived. The latter brings as passengers from Fortress Monroe, Col. Dimmicks family and several ladies and children of the other officers. The troops there were prepared for any emergency.

The United States Sloop-of-war Cumberland was lying off the Fort. The steamer Quaker City was blockading Cape Henry.

It was reported that the Virginians were fitting out the steamers Yorktown and Jamestown for the purpose of running the blockade at the mouth of the James river, where the steamer Monticello is stationed.

Batteries are said to be erecting on Craney Island and at Norfolk Point.

The report that 5000 secessionists are stationed opposite Fortress Monroe is unfounded. A secession flag is still flying at Hampton.

The Kedan also brought one of the wounded of the 6th Mass. regiment and several soldiers discharged on account of sickness. Capt. Blake of the Naval school and his family are also passengers.

New York, May 9.—The steamer Africa is below with Liverpool dates to the 25th ult.

SECOND DISPATCH.
The Royal mail steamship Africa arrived at this port at noon, her advices, via Queenstown, are to the 23rd ult.

The foreign political news is unimportant; the opening of hostilities in America engrossed public attention. Affairs in Poland are unchanged.

camp of the 7th Regiment continues to be the point of attraction. The marine band played in the Presidential grounds in the afternoon, a which time hundreds visited the place.

Mrs. Lincoln's first reception in honor of the officers and soldiers on duty at the Capital of the nation will be held this evening. Invitations have been extended, and a great delight is occasioned thereby; heretofore the pressure upon the mind and physique of the President and family has been so constant that no time could be found for such demonstrations of regard to the patriotic defenders of the Capital; but now that a breathing spell occurs, Mrs. Lincoln has availed herself of the opportunity to testify the esteem in which both the President and herself hold those for whose benefit the reception is to be given.

There has not heretofore been displayed from the White House the National Standard. This the President proposes to do some day this week.

The Star says: "We have information by telegraph that the Harriet Lane reached Annapolis this morning, bringing up a private schooner, captured last night just outside the Virginia Capes. When chased, the crew of the schooner with but two exceptions abandoned her in their boats. She had been disguised by the obliteration of her name from her stern, and by being painted yellow."

Major Anderson received his appointment as Colonel this afternoon.

Baltimore, May 9.—Bradley Johnson a prominent secessionist has left Frederick with some eight others, and it is supposed their destination is Harper's Ferry. A considerable number have also left this city in companies going across the country in the direction of Harper's Ferry. It is said that not less than three hundred have gone from this city.

The City Council of Baltimore this evening made an appropriation to rebuild the bridge at Canton, on the Philadelphia Railroad.

Recruiting for the United States Army is actively progressing, and the National Hotel, which has been unoccupied for some time past, has been rented for quartering the recruits.

Gov. Hicks, in reply to a resolution of inquiry by the Legislature, whether he consented to or authorized the burning of the bridges on the Northern Central and Philadelphia, says he neither authorized nor consented to the destruction of said bridges, but left the whole matter in the hands of the Mayor of Baltimore, with the declaration that he had no authority in the premises—that he was a lover of law and order, and could not participate in such proceedings.

Gen. Butler, in his special brigade order of today, making the following allusion to the arrest of Spencer: "The General takes this opportunity publicly, as he has done privately, to thank Lieuts. Fox and Shelley, of the Eighth Regiment, for their coolness, promptitude and zeal, in arresting one Spencer, who was uttering in the presence of the troops at the Relay House, atrocious sentiments, declaring that 'we,' meaning himself and other rebels, 'acted rightly toward the Massachusetts troops three weeks ago last Friday,' and saying that the murderous mob who killed our friends there were right in the action, and that the same men were preparing to give us a warm reception on our return."

"For these reasonable speeches, substantially admitted by him in his written examination, Spencer has been arrested and sent to Annapolis, where he will be properly dealt with."

"The other matter to which the General desires to call the attention of the troops is this: Wishing to establish the most friendly relations between you and this neighborhood, the General invited all vendors of supplies to visit our camp, and replenish our somewhat scanty commissaries."

"But to his disgust and horror, he finds well authenticated evidence that a private in the 6th Regiment has been poisoned by means of dry-chine administered in food, brought into camp by one of these peddlers. I am happy to be informed that the man is now out of danger. This act, of course, will render it necessary for me to cut off all purchases from unauthorized persons."

"Are our few insane enemies among the loyal men of Maryland prepared to wage war upon us in this manner? Do they know the terrible lessons of warfare they are teaching us? Can it be that they do not realize the fact that we can put an agent, with a sword, in every household, armed with the terrible weapon?"

"In view of the terrible consequences of this mode of warfare, if it were adopted by us from their teachings, may we not, with every sentiment of devotional prayer, exclaim, 'Father, forgive them; they know not what they do.' Certain it is that any other such attempt, reasonably authenticated as to the person committing it, will be followed by the swiftest, surest, and most graphic punishment."

Arrests for treason of some of the guilty parties in the raid of the 19th of April have already been made, but as yet none of the ringleaders have been touched. Many of them have cleared out, but enough of them are left to make bright examples of. A perfect stampede of the minor offenders has followed the first movements of the officers of the law. The general feeling is that nothing serious will come of the matter, until the United States shall be in position to insure the free operation of the laws.

The occupying forces at the Relay House are fortifying that position. It is impregnable, and commands the approach to the city from the west. We are anxiously looking for the coming of our friends from the East and the North; and, from what I can learn, it is probable that the columns from these points will be in position by Thursday at furthest.

This afternoon General Butler tried the range of his battery on the heights, taking for a target an old, unoccupied shanty, two thirds of a mile distant, which was struck with great precision.

Some thirty cars laden with provisions and groceries, chiefly consigned to Government agents, went to Washington to-day. A rigid examination of all westward-bound trains is still maintained.

All the bridges on the Northern Central Railroad, between Harrisburg and seven miles from Baltimore have been built.

FREDERICK, M. D., May 9.
Two companies of volunteers for the secession army from Baltimore, composing an aggregate of 65 men, passed through here about 10 o'clock this morning on their way to Virginia. They were under the command of Captains Welmore and Price, and were unarmed. They stopped at Liberty last night. Their approach created an alarm here, and the Home Guard was under arms all night for the protection of property. They marched through the city protected by Gen. Shirrer and the Sheriff. Their very tattered condition excited ridicule rather than indignation.

About 400 Kentuckians of Col. Bantam Duncan's command are said to have arrived at Harper's Ferry. They were without arms. A cavalry force of 400 men, from Carlisle Barracks, encamped last night on Marsh's Creek, near Emmitsburg, en route to Washington.—They are expected to pass near Frederick to-night.

THE WHEELING CONVENTION.

Delegates From Fourteen Counties already Appointed.

ARMING OF THE UNION MEN.

WHEELING, Va., May 8.
A large Union meeting was held at Kingwood, in Preston county, on the 4th inst., at which resolutions were adopted expressing un-

alterable opposition to the Ordinance of Secession, and favoring a division of the State to vote for members of Congress. Delegates were appointed to the Wheeling Convention.

Nothing has been heard from the Kanawha region, but advices from the various western counties indicate a great increase in the Union sentiment.

All the necessary arrangements are being made for holding the Convention of Western Virginia in this city on Monday. Fourteen counties have thus far appointed delegates. A great deal of enthusiasm is manifested over the receipt of 2,000 stand of arms which reached here to-day.

Vote of Thanks.

HEAD QUARTER'S LOCHIEL GRAYS, CAMP CURTIN, May 8th, 1861.

At a meeting of the Lochiel Greys the following preamble and resolutions were unanimously adopted:

WHEREAS, Mr. John Rice of the city of Philadelphia has kindly presented to each member of our company a most excellent and serviceable silk oiled cloth covering for head and shoulders, well known to our gallant "Tars" as a "Sou'-Wester."

Therefore be it resolved, That we, the Lochiel Greys of Harrisburg, do hereby tender our warm thanks to Mr. Rice for the marked and unlooked for favor which he has so generously bestowed upon us.

Be it further resolved, That the above resolutions be published in our daily papers, and a copy of the same be forwarded to Mr. Rice.
