More Munitions of War .- Several additional wagon loads of boxes containing arms and other munitions of war arrived here yesterday and were deposited in the State Arsenal.

MILITARY MATTERS .-- Two more volunteer companies, one to be named the "Kepner Fencibles," are now forming in this city. The "head quarters" of the Fencibles is at the Hope hose house, and the other company we believe hangs out their flag at the Exchange.

REVOLVERS.-By the army regulations U. S. Infantry are forbidden to carry revolvers. The reason assigned for this order is, that the fact of carrying revolvers may lead to their use at a time when the rifle or musket should be employed. ARREST OF A VIEGINIAN .- A man who gave his name as Wm. H. Collins, hailing from the State of Virginia, was arrested this morning at Camp Curtin, under the belief that he was a spy. He was taken before Mayor Kepner, where he was subjected to a strict examination, which terminated in his discharge, there being no evidence sufficient to detain him for the charge upon which he was arrested.

Sound Sentiment.-The following verse of a song we clip from one of the Philadelphia papers. The music reminds us of the advancing tread of armed men:

Our starry flag, our starry flag, Whose eagle soars enthroned in light, Will thou not float o'er hill and crag Triumphant in the hour of fight? Let him who swells Rebellion's cry In civil strife once turn to thee, A patriot's tear will fill his eye, His bright sword strike for liberty!

IMPORTANT TO FOOT SOLDIERS .- How TO CLOTHE THE FEET AND KEEP THEM COMFORTABLE. -1. Blistering, buring, soreness and tenderness of the soles of the feet may almost invariably be prevented, even when marching for days together and over a heated road, by soaping the sole of the stocking-that is, covering it with a thin coating of the cheapest brown soap. This, at the same time, keeps the skin and Bell, the aggregate of which was 7,645. of the sole cool, hardens it, and prevents inflamation. Coarse cotton sooks are the best for walking.

2. Don't wear woolen socks when marching, not even thin ones, no matter in what cli-

mate. 3. The boot or shoe should have a thick sole; it is not sufficient that they should be simply "double soles;" the soles should be at least half an inch thick; if three fourths of an inch or an inch all the better; they are more expensive, but if well made they will last a long time, and even in the warmest weather will be found easy to walk in, the feet easily becoming accustomed to their weight.

practise economy than now. War enormously enhances the price of provisions and other necessaries, while it diminishes the means of purchasing them. In some kinds of business fortunes are being realized. But such is the general prostration of business that the failures in New York since the 22d of April number over two hundred; and such is the quantity of protested paper thrown on the banks that they now refuse to accommodate. One of these, the day before yesterday, had \$3,000 worth of paper protested. Real estate is unsaleable, and those who have robbed them of their all seem to delight in adding insult to injury. rents are gone down, because they know that the war and the demand in England will enable them to command high prices. It is necessary, therefore, for all classes of citizens to practice economy; even for some who used to purchase three or four coats in twelve months to wear one now for a whole year. Economy in the wear one now for a whole year. Economy in the year of the wear one now for a whole year. Economy in the year of ble them to command high prices. Another Omen.-Last Sunday a large eagle passed over Lebanon, and on arriving at Camp fronsides, near that borough, made a circle two over the men in camp and then passed on to the North. The frequent appearances of this noble bird to the soldiers assembled to maintain the integrity of the stars and stripes s remarkable.

KENTUCKY AND THE UNION .- The Louisville Journal of Monday says:

"Secession in Kentucky received a staggering blow on Saturday, and Louisville covered herself with imperishable honor. There were 3.112 votes cast for the Union delegate ticket, when the aggregate vote of the city at the Presidential election was only 7,453. The largest vote ever cast before in Louisville was in the gubernatorial race between Magoffin the Union ticket, she exceeded by four hun-

dred and sixty votes the largest aggregate vote ever before polled.

Of the 7,453 votes for President, Breckin-ridge received but 860, and many of the latter doubtless voted the Crittenden-Guthrie ticker of Saturday so that the secressionists proper on Saturday, so that the secessionists prope do not constitute a corporal's guard. If their ticket had not been so judiciously withdrawn, we do not believe it would have averaged more than two or three votes in any precinct of the city. This result inspires us with additional hope that the State generally has spoken with a voice equally unmistakable for the Union,

the Constitution, and the restoration of peace.

THEFT.—The total amount due this hour from the seceded States to Northern merchants and PRACTISE ECONOMY.—There never was a time in our history when it was more necessary to properly than now. War enormously creditors have for years done everything possible to commend themselves to the good will of the South. Their politics, their opinions generally, have been molded to please their rather exacting customers; they have resolved, and subscribed, and fused, and voted, just as they supposed would be most agreeable in Georgia and Alabama. They gave generous credits, and they trusted almost anybody who came from the honored Land of Cotton. reward is to be most outrageously swindled and a good part of them stripped of large fortunes and sent adrift in the decline of life bankrupts,
