One of the Guard squads, commanded by Lieut. Geo. W. P. Davis, stationed at St. James bridge, had a brush with the secessionists a few nights ago.

The other day a soldier was placed to guard requested to attend the meeting. the store-house on the grounds, but being a careless sort of a fellow, some of the sharpers about camp being hungry or greedy (we don't know which,) took advantage of his carelessness and stole half a dozen hams from the place. This loss being discovered, the guard was arraigned before the proper officer, to give an account of himself, and to account for the bacon. The poor fellow plead ignorance of the whole transaction, and was finally let off with a reprimand. But "Who stole the ham," is still a mooted question, and will doubtless forever be. Such is camp life.

THE DEATH OF MR. MATTSON .- The following resolutions were passed yesterday after the ceremonies attending the funeral of Geo. W. Mattson, the volunteer from Cameron county who was accidentally shot at Camp Curtin yesterday morning :

Resolved, That in the death of our comrade, George W. Mattson, we deplore the loss of a steadlast friend, an honest man, a soldier gal-lant and faithful and true. He would have faced death nobly on the field of honor; and whatever fate there may await the rest of us, we shall ever remember him as having met his end in the discharge of his duty to his Com-

HOME GUARDS.—Little importance as some of our citizens seem to attach to the formation of these bedies of Landwehr, there is a significance can be furnished in an hour's notice. which attaches to them that raises them high above the charge of being organized merely for amusement, or as vents for the escape of superabundant patriotism. The Home Guards may. in time become to the United States what the yesterday. They were fierce loooking bull National Guard was formerly to France—the | dogs, being guns of very long range, and lookdefenders of freedom. These guns are ten or twelve feet long, possible. For, in the event of troops being and though comparatively small in the bore, wanted in a hurry, the necessary reinforsements will be ready at hand, drilled, and to some degree, used to the hardships of a campaign. We express ourselves in this manner with the full knowledge of what is before us, of the long and severe conflict we are perhaps called upon to go through; and would suggest that while these bodies of men are drilling and learning to shoot, some means should be used for their proper organization and arming. We have now in our city several of these companies; say some five or six, composed of good and true men, who if properly encouraged, will never call for any aid from the Government to enable them to defend their homes and fire-

An Appeal to Farmers .- We again call the attention of the people of Dauphin county to the importance of planting all their available ground with those essential articles of human food, corn and potatoes. War is now upon us. and will doubtless rage with more or less intensity for many months to come. Its destructiveness and necessities will combine to make immense demands upon the producing capacity of the country. LUMBER.—This article has been arriving slowly on our shores for some time past, but the number of rafts of Lumber and Timber is probably not more than one-fourth what we have usually here at this time. There is little if any demand, and comparitively no sales made--owners preferring to hold on for more remunerative prices than those ruling just now. We hear of quite a number of timber rafts having been run through to Port, where they will be tied up to await better times.

DAUPHIN COUNTY MILITARY .- Another military company, called the Reserve Corps, has been organized at Middletown by Captain D. J. every man joining the corps:

THE NEXT FOURTH OF JULY .- It is highly probable that the next Fourth of July will prove to be one of the grandest and most imposing celebrations ever witnessed in this or any other country. The patriotism of Unionlovers will then exceed all bounds. We hope soon to be able to chronicle the fact that arrangements are in progress to celebrate the 'glorious Fourth' in the Capital city. Let there be a grand military, civic, and religious demonstration-let the bells be rang, the cannons fired, fire-works displayed, and a high old fashioned time generally prevail. The associations clustering around the day will by such a demonstration at this time awaken in every bosom a newer and a stronger feeling of love and veneration for our glorious Union.

With this request I readily comply. An in-

surrection has broken out in several of the States of this Union, including Virginia, de-signed to overthrow the Government of the United States. The executive authorities of the State are parties to that insurrection, and so are public enemies. Their action in seizing or buying vessels to be employed in executing that design is not merely without the authori-Boynton. The following pledge is required of ty of the law, but is treason. It is treason for any person to give aid and comfort to the public enemies. To sell vessels to them which it is their purpose to use as ships of war is to give them aid and comfort; to receive money from them in payment for vessels which they have seized for these purposes would be to attempt to convert the unlawful seizure into a sale, and would subject the party so offend-ing to the pains and penalties of treason; and the government would not hesitate to bring the offenders to punishment.

Keokuk and Quincy papers say that hundreds of Union men have been driven out of Missouri, under orders issued by the Southern Council. A despatch from St. Aubert to the Democra says Dr. Zeioner, residing in Liberty township near Osage bridge, has been arrested and sent to Jefferson City for trial by martial law for raising a company of Union volunteers.
