FROM CAMP SCOTT.-Lieut. Charles A. Davis, of the State Capital Guard, was in town last evening. He reported everything going on finely at Catap Scott, and to the satisfaction of men and officers. In anticipation of his regiment leaving to-day en route for the South, the Lieutenant returned to York this morning.

CITIZEN MILITARY COMPANY .- The members of the Citizen Fire Company have organized a military corps for drill exercise, and meet nightly for that purpose. The commandant, Dr. C. Seiler, is one of the best military tacticians and drill officers in the State, and the "boys" will soon become perfect in the science of war under his instruction. Should their services be required during the progress of the war, they will rally under the "flag of the Union" and march in defence of their country. The movement of the Citizen company is worthy of imitation by the entire fire department of our city. In the present crisis it is the duty of all citizens to familiarize themselves ed together for that purpose, but from the with military tactics, for there is no knowing latest report that reached them from Camp how soon they may be called upon to take up arms in support of the Government.

The "Feast of Pentecost," under the Jewish Economy, was one of their three great yearly festivals, and was signalized by offering the "first fruits" of the year in the Temple at Jerusalem, as it was also in a measure commemorative of the promulgation of the law memorative of the promulgation of the law the sunday of the su rates the descent of the Holy Chost, ten days to reads as follows: after the Ascension of our Lord, and the converts of that day, (three thousand, as we read in Acts,) as the "first fruits" of the Spirit, correspond to the "first fruits" of the secured harvest ander the Mosaic dispensation. The day is stalled Whit Sunday and Whit-suntide, from the fact that on it white vestments are used in many of the churches, by the neophites baptized on the previous day, whit being a contraction of while. Tide is an old name for day or season. The observance of this feast is mainly confined to the Catholic, Episcopal, Moravian, and some of the Lutheran churches, in many of which the ceremonies for the day are peculiar and impressive. In the Catholic church, the vestments used on this day, by pontiffs, priests, and ministers, are of red color, with the two-fold idea of symbolizing the "tongues like as of fine," and teaching that by receiving the Holy Ghost, and his sanctifying gifts, the recipients are to be ready to maintain their faith to the death, the red color being for this same reason chosen by the Catholic church in all her stivals of martyrs.

Coughs. - The sudden changes of our climate COUGHS.—The sudden changes of our climate are sources of Pulmonary, Bronchial and asthmatic Atfections. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of the disease, recourse should at once be had to "Browp's Bronchial Troches," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be warded off. Public Speakers and Singers will find them effectual for clearing and s trengthening the veice. See advertisement.
