BLOOD RENOVATOR.

Is precisely what its name indicates; for, while pleasan to the taste, it is revivilying, exhibitating and strengthening to the vital powers. It also reviviles, reinstates, and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks. of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of

So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritation. WOOD'S RESTORATIVE CORDIAL.—It is recorded in classics that Payche was once sent to a climate warmer than the West Indies to procure a sample of the beauty of Proserpino in a box. After some delay the messenger returned, and as soon as the lid of the box was removed out flew all the ills that flesh is heir to.—Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood; alds the organs of digestion, imparts strength to the nervous system, and or different the citatel of health, so as to bid defiance to the assaults of disease. PROF. WOOD'S ENSTORATIVE CORDIAL and BLOOD RENOVATOR is, without doubt, the best Tonic Cordial in the world. To those who are suffering from general debility we would recommend its use; for, while it is pleasant to the taste, it is strengthening to the system, and will at once tend to remove all impurities of the blood, and endicate all traces of disease. It can be taken by the weakest stomach, while those in good health will at ence feel its exhilarating power. We are confident that after using one bottle of this cordial none will be for a day without it.—"New York Leader."

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to fellow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of nature, and thus souther the weakest stomach, and tone up all the organs of which the hum'st begy is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. This habit of youth is indulged in while alone, and so often learned from evil componions when at school, and if not cured will destroy both mind and body. Both sexes fall victims to this disease. The symptoms are—Pain in the Hoad, Dimness of Sight, Ringing in the Ears, Fimples on the Face, Loss of Memory, Frightiq Dreams at Night, Weakness in the Bock, Pain in the Breast, and Cough, (indicative of Consumption). Dyspepsia, great berangement of the Nervous System, and so on, till Death puts an end to their sufferings. What is said of the officers who are guilty of treason will apply to most of their men. We commend the article to a care

The question has lately been upon every lip, where are we to find competent officers for high positions in the present crisis?" and, coupled with this, is the statement that our best officers, after long training in service under the stars and stripes, have deserted us and gone over to the enemy, while we are left without their equals. It may be vaguely answered, with a sort of fatalism, that emergencies of this kind produce military genius, as the French revolution did Napoleon, and the Peninsular war Wellington. But this is at best unsatis factory; we want them before they can be the production of the crisis. Let us look a little at the facts and at the men who are available

General Scott is his superior in everything; a intriguer. Davis has indeed an iron will, but it is oftener a will to do evil than a beneficent one. General Scott is a magnanimous patriot, who gives his own unrivalled military talents and experience to the country without hope of

gain.

But leaving the commander out of the question, we are confronted with such names as tion, we are confronted with such names as Lee, Beauregard, Joseph Johnston, May, Magruder, Emory, and others. How are to replace such men, who are now a tower of strength to the enemy? Let us analyze these names, or rather their significates a little. General Lee, the present commander of the Virginia traces. the present commander of the Virginia troops, is a scientific engineer and a personally brave coldier; but he has been more overrated perhaps THE SUBSCRIBER has removed his rection of the name of

Colonel May who received praises for his charge at Resaca which were not his due, is a pretty good caval-ry colonel, and nothing whatever more. His notoriety is his only claim to mention. Malor Emory is a good officer, and his friends are puzzling their brains to find out why he resigned. Rumor says he wants to return, but the "door is shut."

Now, look on the other side. For among all many of the subordinates have energy and education. For Davis we have Scott-God grant him many days! For Lee and Beauregard we have Gen. There are a few statistics worth nothing. Of the one hundred officers from Virginia, not more than forty have resigned. This is significant that Virginia herself is at present under leadership which the people will yet throw off.
