GOING HOME .- The Potter B'fles, a company of fine-looking, able-bodied and intelligent men, who arrived here some three weeks ago, and have remained in Camp Curtin up to this time in a ragged and starving condition, yesterday disbanded owing to their non-acceptance by the Governor, and about fifty of them determined to return home. We print in anfrom the Rifles, explanatory of their action, country has, by the injudicious course of the of men who are not surpassed in gallantry or patriotism by any troops in the volunteer service.

INDEPENDENCE DAY .--- It is proposed by some of our exchanges that a glorious old fashioned celebration of the Fourth of July be held at the county seat of every county in the loyal States. What say the people of Dauphin? We can, if we will, have a grand military and civic demonstration, worthy of the occasion and creditable to the Capital City of the old Keystone State. There will be a number of military companies in camp here at that time, and no doubt the various fire companies, lodges of Free Masons and Odd Fellows, United American Mechanics, etc., in this city, would participate in the 'patriotic demonstration. If ever there was a time in the history of the country, when Independence Day should be appropriately observed and honored by our loyal citizens, that time is now, when the temple of Liberty is shaken to its centre by the sssaults of armed rebels and traitors. Let us, then, prepare to welcome the coming anniver sary of the birth-day of freedom with the riug? ing of bells, the roar of cannon, the blazing of of civil and religious liberty :

Let music swell the breez, And ring from all the trees, Sw e. Freedom's s. ng. Let moral tongues wase; Let al that briathe partike; Let rocks their silenc: break-The sound preber. Land of the pilrin's pride; From every mountain side Let Freedom ring.

THE HARRISBURG RIFLES. & new company composed principally of young men between eighteen and twenty one-years of age, under the command of Capt. D. B. Keim, made a moonlight parade last evening, and acquitted themselves quite creditably, considering the other column a well-written and patriotic card short time they have been drilling. They went through a variety of difficult movements aud descriptive of their life in Camp, which with a degree of accuracy and skill that speaks for itself. It is to be regretted that the would have done credit to older and more experienced soldiers. The permanent organiza "powers that be," lost the services of a body tion of the company will be completed to-night The military enthusiasm now prevalent in this city is likely to result in the the formation of several permanent companies, so that in the event of additional requisitions being made by the President, our "boys" will be prepared to

enter the service as well drilled soldiers. Assaulted a WOMAN .--- A poet says, "the man who lays his hand upon a woman, save in the way of kindness, is a wretch whom 'twere baseflattery to call a coward." Every communi ty is cursed with "wretches" of this descripion, and one of them turned up yesterday in Alderman Maglaughlin's office-a fellow named Fishinger-arrested for committing an assault and battery upon Mary Waller. He was bound over to answer the charge at the next Court. We know nothing of the origin of the affair, but we hold that under no cir cumstances is a man justifiable in laying violent hands upon a female, no matter what her character or condition in life. Almost daily individuals are arraigned before the Mayor and Aldermen on complaint of whipping their colled on. wives. Such men are a disgrace to their sex. and libels upon humanity.

DRILLING THE SCHOOL BOYS .- Mr. Albert J. bonfiles, the flaunting of gay flags and banners, Figer, who has considerable experience in mili the sounds of martial music, and the joyous tary tactics, designs regularly drilling the shouts of fiermen who appreciate the blessings largest hoys who attend the north ward schools. The movement is a good one, and should be

inaugurated by all our public school teachers. The dilling of the boys two or three times a week will ben fit them physically, and teachers will in this way train up an army of well drilled soldiers to fight the future battles of the country, should an emergency arise to demand their services.

It is understood that orders were issued yesterday for two Regiments to proceed to occupy Alexandria, and it is stated at this time that Col. Elisworth's Zouaves have crossed over in boats; while it is equally certain that prepara-tions were made to seize Arlington Heights, which plainty overlook Washington; and there is but little doubt that all these orders have been executed.

It was at least two o'clock this morning before all the troops reached their destination. The troops which did not repair to Alexandria and Arliagton Heights, were required to guard importaut intermediate points between Wash-

ington and Alexandria. The District of Columbia military did not return to Washington until half past six o'-

clock this morning. From 6,000 to 10,000 troops were sent over into Virginia at an early hour this morning. Firing was heard, occasioned by the forcing of Virginia pickets. The city is in a great state or excitement owing to these proceedings, and further events are looked for with intense solicitude.

When the Federal troops reached Alexandria the Virginia troops fired at them and fled. Visitors to that city say that the scenes were intensely exciting. The United States vessels were in the meantime before Al-xandria. It

seems to be true that a body of Federal troops has advanced to Fairfax Court House, to take possession of the junction of the Orange & Alexaudria and Manassas Gap Railroads, with the view of intercepting the advance of the Virginia troops towards Alexandria from Rich-

mond and other points. Nearly three thousands troops arrived here vesterday, comprising some from New York, and the two Ohlo regiments. A third Connectcut regiment came in this morning. It is reported that as the Virginia troops re-

treated from Alexandria, one of them was killed by a return shot from the Federal forces. There is a prospect of capturing the fugitives.

The Union State Convention met in this city to day. It was largely attended by the city delegates,

and most of the counties of the State were re presented.

The proceedings were marked by a spirit of great enthusiasm and harmony of action. A series of resolutions were adopted in favor of an unconditional Union, and denouncing sec-ssion in the strongest terms, pledging the State to sustain the Government in the exersise of all its constitutional powers, for a vigor ous, active and successful crushing of the re-
