THE QUOTA OF DAUPHIN COUNTY, under the late Act of Assembly, is two companies. One, the Cameron Infantry of Middletown, has already been accepted and is now in camp. Tenders of service have been made by the Gratztown Cavalry, and the Kepner Fencibles of this city, but the Governor has not yet decided which of the two to accept. The members of these companies are exceedingly anxious to be enlisted in the "war for the Union," and we hope both will be accepted.

We print in another column a well-written and patriotic card from the Rifles, explanatory of their action, and descriptive of their life in Camp, whi h speaks for itself. INDEPENDENCE DAY .-- It is proposed by some of our exchanges that a glorious old fashioned celebration of the Fourth of July be held at the county seat of every county in the loyal States. What say the people of Dauphin? We can, if we will, have a grand military and civic demonstration, worthy of the occasion and creditable to the Capital City of the old K-ystone State. There will be a number of military companies in camp here at that time, and no doubt the various fire companies, lodges of Free Masons and Odd Fellows, United American Mechanics, etc., in this city, would participate in the patriotic demonstration. If ever there was a time in the history of the country, when Independence Day should be appropriately observed and honored by our loyal citizens, that time is now, when the temple of Liberty is shaken to its centre by the assaults of armed rebels and traitors. Let us, then, prepare to welcome the coming anniver sary of the birth-day of freedom with the ringing of bells, the roar of cannon, the blazing of of civil and religious liberty:

Let music swell he breezs,
And ring from all the trees
Sweak Freedom's sang.
Let moral tongues awase;
Let al that breathe partice;
Let rocks their silence break—
The sound presons.
Land where our fathers died,
Land of the pitrin's pride;
From every mountain side
Let Freedom ring.

THE NEW MILITARY CORPS, originated by members of the Citizen Fire Company, will meet in the hall of the engine house this evening to perfect an organization, elect officers, and adopt a name and style of uniform. The "boys" connected with this new and spirited corps have already made rapid progress in the acquisition of military knowledge under the effective instruction of Dr. Seller and other experienced drill officers.

Washington, May 24-8 o'clock A. M.

Within a few hours past there have been important military movements. It was suspected yesterday that orders had been given for the advance of troops into Virginia, but these beadvance of stops into the stage of the exact truth could not at that time be reliably ascertained. The New York 2d, 12th, 7th certained. The New York 2d, 12th, and 21st., regiments, the New Jersey and Michigan brigades, and Cel. The Washington City National Rifles. Cap. Smood, at about ten o'clock last night, passed over Long Bridge, which is about a mile in length and connects Washington with the Vir ginia shore, and remained at the latter terminus until two o'clock this morning, acting as an advance guard. These were followed by other district volunteer companies acting in a similar capacity. Subsequently the New York Second and Twelfth regiments and the Michigan and New Jersey brigades crossed the bridge, the Virginia pickets having been driven in by the advance guard.

Oue of the regiments took the road leading to Fairfax Court House about twenty miles from Washington; while another one of the New Jersey regiments stopped at the Forks. a mile from Long Bridge, to await for orders.

An advance into Virginia was also made

the Bridge and Columbia Springs on the Washington and Alexandria railroid. It is understood that orders were issued yesterday for two Regiments to proceed to occupy Alexandria, and it is stated at this time the Col. Ellsworth's Zouaves have crossed over in boats; while it is equally certain that preparations were made to seize Arlington Heights which plainty overtook Washington; and there is but little doubt that all these orders hav

been executed. It was at least two o'clock this morning before all the troops reached their destination The troops which did not repair to Alexandria and Arliagton Heights, were required to guard The Ferry boat was returned again to the important intermediate points between Wash-

ington and Alexandria. The District of Columbia military did not return to Washington until half past six o'-

clock this morning.
From 6,000 to 10,000 troops were sent over into Virginia at an early hour this morning.

Firing was heard, occasioned by the forcing of Virginia pickets. The city is in a great state of excitement owing to these proceedings, and further events are looked for with intense so-

The accounts from Alexandria are somewhat confused, but their is no doubt of the fact that a cially from the fact that Pennsylvania has been men named Jackson, who shot Col. Ellsworth, was instantly put to death, some say by both

bullets and bayonet.
When the Federal troops reached Alexandria the Virginia troops fired at them and fled. Visitors to that city say that the scenes were intensely exciting. The United States vessels were in the meantime before Alexandria. It seems to be true that a body of Federal troops has advanced to Fairfax Court House, to take possession of the junction of the Orange & Alexaudria and Manassas Gap Railroads, with the view of intercepting the advance of the Virginia troops towards Alexandria from Richnoud and other points.

Nearly three thousands troops arrived here yesterday, comprising some from New York, and the two Ohlo regiments. A thirdConnectcut regiment came in this morning. It is reported that as the Virginia troops re-

Explanatory Card from Col. Oakford.

Statement of the Daily Express Contradicted

PHILADELPHIA, May 24 —Col. O. A. Oakford, in command of the 15th Pennsylvania Regiment, gives the following explanation of the present condition of the 14th and 15th Regiments now at Camp Johnson. He states that the co-splaints made by the Lancaster Express are not well founded. These two regiments, while in Camp Curtin, were served with daily rations of fresh beef and potatoes, but on their removal to Camp Johnson they were put on the regular army rations, which are two of heef and five of pork per week. No potatoes were issued, such not being provided by the army rations.

The quality of the rations was good with but one except on, and that was a ration of pork which was purchased at Lancaster. There is no greater restiveness among the troops than is usual with fresh volunteers undergoing, the transformation from civil to military life. The change to salt pork is absolutely neces-sary as a sanitary measure, before entering upon

the campaign, because if the change was made in hot weather south of Washington, dyseutery would inevitably be the result, and be more destructive of life than the bullets of the enemy.

The change of babits in the men and living

in open air greatly increases their appetites, and this and the want of a knowledge of cookery and economy, which exists in the regular army, is the great cause of the complaints of insufficient rations.
