DISLASES OF IMPRUDENCE—When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often nappeas that an ill-timed sense of shame or dread of discovery doters him from applying to those who, from education and respectability can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, affecting the head, throat, nose, skin, &c., progressing on with frightful rapidity, till death puts a period to his dreafful sufferings by seading him to "mat bourne from whence no traveler returns." It is a mel-

bourne from whence no traveler returns." It is a mel ancholy fact that thousands fall victims to this terrible disease, owing to the unskillulness of ignorant pretenders, who, by the use of that deadly poison, mercury, ruin the constitution and make the residue of life miscrable.

The military force that has been assembled

The whole number must now reach quite fif-

Gen. Scott Disapproves of Sending a Force to Acquia Creek.

Flash Accounts of Southern mintary

Telegraphic Communication with the Advance Troops.

ACTIVITY IN THE NAVY YARD

Report of the Retreat of Rebels from Harper's Ferry not Confirmed.

Washington, June 5. No advance movement has been made in Virginia, as far as is known in Washington at this moment. But there is a great deal of activity and an unusual amount of secrecy which excite expectation and curiosity. The army in Virginia is kept constantly ready for any sud-

den attack from the enemy. The Government has accepted the services of the iron railroad battery constructed in Philadelphia some time ago for the Philadelphia and Baltimore Railroad. It will be used in the Southern movement of the army, for the defence of such railroads as the Government may repair and employ for military purposes.

Several locomotives and two hundred and fifty horses, for the use of the army, arrived here to-day from Pennsylvania.

It is understood that General Scott disapproves of sending a force to land at Acquia Creek, not deeming it a point of sufficient importance to risk any number of men.

The Government has not yet decided what disposition to make of Bartlett's Naval Brigade. The morning papers here are filled with flash accounts of immense movements of troops Southward last night. But there is not a word of truth in them.

There is great activity at the Washington Navy Yard. Shells, grape and canister shot, out in vast quantities. The steamer Montishe will receive two additional 32 pounders.-The Pensacola, (sioop-of-war,) carrying fortyfour guns, besides a long pivot gun, will soon be ready for service.

to keep up communication with the War Department as the troops advance.

There is no confirmation here of the re ported retirement of the rebels from Harper's Ferry. Newspapers from the North, addressed to

post offices in the rebel States, are accumulating in the Dead Letter Office in large quantities. They will have to be sold as waste paper.

ARRIVAL OF THE STEAMER WASHINGTON. New York, June 5. The steamship City of Washington has ar-

rived. Her dates anticipated. She brings twenty-three thousand pounds in specie. She passed the steamer City of Baltimore on the 25th, in lat. 50 long. 22:

CINCINNATI, June 5. The engagement at Phillippi took place at 5 o'clock on Monday morning.

An engagement took place this morning, between the United States troops and the rebel forces encamped at Phillippi. Fifteen of the traitors were killed, and from thirty to forty prisoners secured. A large quantity of provisions and amunition was also secured. Some forty or fifty horses and about four hundred though this force consists altogether of new stand of arms were also captured. None of the Federal troops were killed or wounded. The Secessionists made good their escape. Col. Kelly, of the First Regiment, was badly, if not fatally wounded.
