HARRISBURG, PA., MONDAY AFTERNOON, JUNE 10, 1861.

NO. 34.

Steam Printing Office.

Having procured Steam Power Presses, we are prepared to execute JOB and BOOK PRINTING in every description, cheaper than it can be done at any other establishment in the country.

Table with 2 columns: Description of printing services and their rates. Includes 'Four lines of press constitute one-half square', 'one week', 'one month', 'three months', 'six months', 'one year'.

IMPORTANT FROM EUROPE.

FRANCE FIRM TOWARD THE UNION. England Changing Front.

Satisfactory Assurances from Prussia. Austria Gives no Countenance to the Rebels.

THE SPANISH REVOLUTION. POSITION OF THE HAITIANS AND DOMINICANS.

WASHINGTON, June 9. It is given out here, apparently the best authority, that the late despatches from Europe are of the most favorable tenor.

France, it is said, is open and above board in her expression of friendship to the Federal Government, and in her determination to support the nation as it is in every proper way.

Austria, while dissatisfied with and protesting against the appointment of Mr. Burlingame as the negotiator of the peace made by him in Congress on the raising of the grade of the Sardinian mission, gives equally warm assurances of her interest in the welfare of the Union, and her determination to give no countenance to the rebels who are disturbing our peace and prosperity.

From Prussia our Government receives assurances that no rebellion against so mild and beneficent a government as that of the United States will receive any sanction or countenance whatever.

This intelligence has given great satisfaction to those to whom it has been communicated. Advice from Hayti state that the Haytian government has sent 3,000 men to garrison Hinche, on the Spanish Dominican frontier.

It is also said that large bodies of the Dominicans are ready to fight against the Spanish revolutionists, and it appears probable that the Haytians will assist them.

The same authorities declare that Lord John Russell is beginning to discover that he has been too precipitate in the recognition of the belligerents. There has been a perceptible modification of opinion in the British Councils, and England will prove true, not to the prejudices of her ministers, but to the great instincts of the British people.

The Movement Against Harper's Ferry.

TROOPS ADVANCING FROM THREE POINTS. Three Blows to be Struck at Once.

THE REBELS DOOMED. From the Tribune of Saturday.

WASHINGTON, June 9. The movements for which careful preparations have been going on for many days in silence and secrecy, are now apparently about to commence.

Several hundred regulars have left, within twenty-four hours, for the Relay House. They will form a portion of one of the columns which are to operate against Harper's Ferry.

A column of Gen. Patterson's command is approaching by way of Hagerstown, and a column of Gen. McClanahan's army is moving from the west.

If it cannot come to Gen. Johnston from Manassas Junction, or Gen. McDowell will engage the whole attention of the rebels posted there. Not can they be reinforced from Richmond and Norfolk, for Gen. Butler will be a dangerous foe to leave, even in a hurried retreat; and he will not remain quiet.

There are armed steamers enough in the Potomac to threaten other approaches to the Capital of the Old Dominion. Thus three blows may be struck at once, and the enemy, scattered and distracted, not knowing which way to turn, will fall victims to the plans which the man who has encouraged and encouraged only calls an "octagonarian," has formed in a shabby little office, and which his "armed cabinet" will execute.

Such, in outline, are the features of the next series of moves upon this side of the Military Chess Board, as they disclose themselves to us. We do not pretend to have derived them from Gen. Scott, directly, but they are suggested by persons not uninforming respecting the plans of the campaign, and they square with facts and probabilities as to the details. We do not pretend to special knowledge. Even officers high in the army profess ignorance, and assert that the Lieutenant-General's campaign is to them an enigma.

General officers complain that they have not a sufficient number of regiments in their brigades, on the other hand soldiers grumble that they have nothing to do. But the General-in-Chief looks to all, comprehends the situation and prepares for exigencies.

We have good reason to believe that before many hours a column of 4,000 men will march from this city towards Harper's Ferry. About 2,000 will be district volunteers. The remainder, the New Hampshire Regiment and the Rhode Island Battery will form a part. The whole will be commanded by Col. Stone of the Fortunate Infantry. The precise hour of starting, which has been postponed from time to time, is not yet definitely determined. This column will probably have no more serious task than that of intercepting the fugitives driven by other commands from Harper's Ferry. Other regiments, in addition to those named, are under marching orders.

Rev. Mr. BRATTLE, of the Bethel, at Cleveland, Ohio, presented a revolver to one of the soldiers of the Seventh Regiment, before his departure, with the following injunction:

"If you get in a tight place and have to use it, ask God's blessing, if you have time, but be sure and not let your enemy get the best of you. You can say amen after you shoot."

BY TELEGRAPH.

FROM ARLINGTON HEIGHTS. Capture of Rebel Prisoners, Horses and Cattle.

NEW BREASTWORKS THROWN UP AND GUNS MOUNTED. CHANGE IN THE MILITARY PROGRAMME.

No Immediate Attack on Alexandria Anticipated. Accessions to the Rebel Forces at Fairfax Court House.

ARRINGTON HEIGHTS, June 9. The Engineer corps of the 69th New York Regiment with Company B, of the 2nd Cavalry, yesterday took five prisoners and three horses. They also captured a drove of cattle fifty in number, which were on their way to the Rebel Camp. The field works of the 69th Regiment have been recently extended, new breastworks thrown up and guns mounted.

There is good reason to believe that but for the recent change in the movements of rebel troops, large forces having been centered at Manassas Junction within a few days, an advance of Federal troops from Alexandria and this point would certainly have been made during the past week. On Monday last orders to that effect were received, and the troops have been in momentary expectation and readiness since then to march.

The skirmish which took place at Fairfax Court House, between a party of dragoons and rebels, was unfortunate, having the effect to direct the attention of the rebels to that point, and since the occurrence large accessions have been made to their force in that vicinity. General Beauregard has arrived there and assumed command. This change in the position of affairs will cause some delay in any active operations of Federal troops in that direction.

As to the purposes of the rebels of course all is conjecture, yet the apparent security manifested by the people still remaining in Alexandria—about 4,000 out of a population of 11,000—gives assurance that no immediate attack is projected. Communications between that city and the Rebel camps is without doubt still carried on secretly, and the inhabitants will be able to receive warning of an attack from the Rebel force is contemplated.

From Fortress Monroe. The Town of Evansport Burned by Secessionists.

Landing of Troops at Fortress Monroe and Pig's Point. A SKIRMISH AT HAMPTON.

The Rebels Routed by a Regiment of Zouaves. ONE HUNDRED MUSKETS CAPTURED.

The Union Sentiment Increasing at Fortress Monroe. ARRIVAL OF THREE MORE REGIMENTS AT NEWPORT NEWS.

The Naval Brigade to be Armed and Equipped. A LARGE FLEET OF TRANSPORTS ADDED TO THE SERVICE.

Preparations for a Fight at Newport News. A Nest of Rebels Shelled by the Quaker City.

RESITUATION FOR DAMAGES TO PRIVATE PROPERTY. NEW YORK, June 9.

A special dispatch from Washington reports the arrival of the steamer Mount Vernon from Fortress Monroe.

The passengers report that the entire town of Evansport, eleven miles above Aquia Creek, was in flames. The property in the town is principally owned by Union men. This town consists of a saw mill that suspended operations long since, an unoccupied dwelling and a few shanties, the population comprising somewhat less than a dozen negroes.

The same dispatch reports that the steamer Cambridge was disembarking troops at Fortress Monroe, and that another steamer was landing a regiment at Pig's Point.

We have a report of a skirmish having occurred at Hampton last night, between a picket of Col. Dury's regiment of Zouaves, and a party of rebels. The pickets were driven in, and the Zouaves made a dash at the rebels, capturing 100 muskets. The enemy fled before any prisoners could be secured.

The Union sentiment is gaining ground rapidly in the neighborhood of Fortress Monroe.

ANOTHER DISPATCH. BALTIMORE, June 9. The steamer State of Georgia left Old Point Comfort last night, and arrived here to-day with the following intelligence:

D. W. Gross & Co.

DRUGGISTS, PHYSICIANS, STORE-KEEPERS AND CONSUMERS.

WE are daily adding to our assortment of goods all such articles as are desirable, and would respect fully call your attention to the largest and best selected stock in this city.

FARMERS AND GRAZIERS, Those of you who have not given our HORSE AND CATTLE POWDERS a trial know not their superiority, and the advantage they are in keeping Horses and Cattle healthy and in good condition.

Thousands can testify to the profit they have derived from the use of our Cattle Powders by the increasing quantity and quality of milk, besides improving the general health and appearance of their Cattle.

Our long experience in the business gives us the advantage of a thorough knowledge of the trade, and our arrangements in the cities are such that we can in a very short time furnish anything appertaining to our business, on the best of terms.

Thankful for the liberal patronage bestowed on our house, we hope by strict attention to business, a careful selection of PURE DRUGS, at fair prices, and the desire to please all, to merit a continuance of the favors of a discriminating public.

DR. JOHNSON BALTIMORE LOCK HOSPITAL.

HE HAS discovered the most certain, speedy and effectual remedy in the world for DISEASES OF IMPRUDENCE.

RELIEF IN SIX TO TWENTY HOURS. No Mercury or Noxious Drugs. A CURSE WAIVED, OR NO CHARGE, IN FEARS ON TWO DAYS.

Weakness of the back or Limbs, Strictures, Pains in the Loin, Affections of the Kidney and Bladder, Organic Weakness, Nervous Debility, Decay of the Physical Powers, Dyspepsia, Langor, Low Spirit, Confusion of Ideas, Puff Swelling of the Heart, Trembling, Stammering, Difficulty of the Head, Throat, Nose or Skin—these terrible disorders arising from the indiscretion of Solitary Habits of Youth—these dread and destructive practices which produce constitutional debility, render marriage impossible, and destroy both body and mind.

YOUNG MEN. Young men especially who have become the victims of Solitary Vice, that dreadful and destructive habit which not only sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senators with the thunder of eloquence, or waited to occupy the living lyre, may call with full confidence.

MARRIAGE. Married persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health.

ORGANIC WEAKNESS. He who places himself under the care of Dr. J., may rely upon his honor as a gentleman, and can confidently commend him to a physician.

Office No. 7 South Frederick street, Baltimore, Md., on the left hand side going from Baltimore street, 7 doors from the corner. Be particular in observing the name of number, or you will mistake the place. Be particular for Ignorant, trifling Quacks, with false names, or Paltry Humbug Certificates, attracted by the reputation of Dr. Johnson, lurk near.

All letters must contain a Postage Stamp, to use on the reply. DR. JOHNSON.

Dr. Johnson member of the Royal College of Surgeons, London, graduate from one of the most eminent Colleges of the United States, and the greatest part of whose life has been spent in the Hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with Pimples in the face and head which would not yield to the best medicine, being alarmed at sudden sounds, breathing with frequent blowing, attended sometimes with derangement of mind were cured immediately.

TAKE PARTICULAR NOTICE. Dr. J. addresses all those who have injured themselves by private and improper indiscretions, that secret and solitary habit which ruins both body and mind, unfitting them for either business or society.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the back and Limbs, Pain in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.

MENTALLY. Mentally, the fearful effects on the mind are much to be dreaded—Loss of Memory, Continuation of Ideas, Depression of Spirit, Excess of Fretfulness, Aversion to study, Self-distrust, Love of Solitude, Timidity, &c., are some of the evil effects.

Thousands of persons of all ages, can now judge what is the cause of their decline in health, losing their vigor, becoming weak, pale, nervous and emaciated, have a singular appearance about the eyes, cough, and symptoms of consumption.

YOUNG MEN who have injured themselves by a certain practice, indulged in when alone—a habit frequently learned from evil companions, or at school, the advice of which are nightly felt, even when asleep, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hopes of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life by the consequences of deviating from the path of nature, and indulging in a certain secret habit. Such persons must, before contemplating marriage.

MARRIAGE. effect that a sound mind and body are the most necessary requisites to promote contented happiness. Indeed without these, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another person becomes blighted with our own.

DR. JOHNSON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS. By this great and important remedy, Weakness of the Organs are speedily cured, and full vigor restored. Thousands of the most nervous and debilitated who had lost all hope, have been immediately relieved. All opposition to Marriage, Physical or Mental Dequalification, Nervous, Trembling, Weakness or Exhaustion of the most fearful kind, speedily cured.

TO STRANGERS. The many thousands cured at this institution within the last twelve years, and the numerous important surgical operations performed by Dr. J., witnessed by the reporters of the papers, and many other persons, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.

DISEASES OF IMPRUDENCE—When the misguided and imprudent youth of pleasure gives up his undivided time to the pursuit of dissipation, it seldom happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability can advise better, delaying till the constitutional symptoms of these horrid diseases make their appearance, affecting the head, throat, nose, skin, &c., progressing with fearful rapidity, till death pursues him to his final resting place, or he is compelled to resort to the use of deadly poison, mercury, or arsenic, the constitution and make the residue of the miserable. TO STRANGERS.—The Doctor's Offices hang in his office.

All letters must contain a Stamp to us on the reply. Remedies sent by Mail. Office No. 7 South Frederick street, Baltimore.
