TO STRANGERS. The many thousands oured at this Institution within the last twelve years, and the numerous important Surgical operations performed by Dr. J., witnessed by the reporters of the papers, and many other persons, actions of which have appeared again and again before the public, besides his standing as a gentleman of châracier and responsibility, is a suiticient guarantee to the afflicted.

DISEASES OF IMPRUDENOS,—When the minguided and imprudent votary of pleasure finds be has imbited the seeds of this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and rean ill-timed sense of shame or droad of discovery deters him from applying to those who, from education and re-spectability can alone befriend him, delaying till the con-situational symptoms of this horrid discase make their appearance, affecting the head, throat, nose, skin, so, progressing on with frightful rapidity, till death puts a period to his dreadful suderings by sending him to "inat courne from whence so traveler returns." It is, a mel-uncholy fact that thousands fall victims to this terrible disease owing to the unstitutions of temporary metros. disease, owing to the unskillulness of ignorant pretenders, who, by the use of that deadly potton, mercury, ruit the constitution and make the residue of life miserasic.
