

Daily Telegraph.

HARRISBURG.

Wednesday Afternoon, June 19, 1861.

TO ADVERTISERS.

The circulation of the DAILY TELEGRAPH is FOUR TIMES LARGER than any other daily published or circulated in this city, and it therefore presents greater inducements for the patronage of advertisers than is offered to them through any other medium. Let those who want buyers, try advertising in the TELEGRAPH.

THE MORNING TELEGRAPH

Is issued every morning and contains THE LATEST TELEGRAPHIC DISPATCHES received during the night.

BRASSING.—A bath in the Susquehanna river before sunrise. Try it!

OUR FLAG.—A new flag-staff was erected on the roof of the TELEGRAPH building this morning, from the top of which, at an elevation of seventy feet above the ground, the starspangled banner floats gracefully in the breeze.

A WILD GOOSE.—A wild goose was captured in the river yesterday afternoon. It had been wounded in the wing and was unable to fly. These "birds" frequently pass over our city in flocks, but at so great a height that it would require a patent Minnie rifle to bring them down.

Mrs. STEPHEN A. DOUGLAS and suite left this morning in the eight o'clock Northern Central train en route for Washington city. We had not the pleasure of seeing the distinguished visitor, who is said to be one of the most beautiful and accomplished ladies in the country.

STRAWBERRIES.—Our market was never better supplied with strawberries than now. The crop is unusually abundant this year, and prices are therefore somewhat lower than formerly. The supply on hand this morning far exceeded the demand, and boys peddled the luscious fruit about town at ten cents a box.

OUR MARKET is now abundantly supplied with every variety of early vegetables and fruits, at prices which enable all classes of citizens to "fare sumptuously every day." Generous mother earth has yielded bountifully to the present season in this region; and fortunately for the people if money is scarce a little of it goes a great way. Let us be thankful!

WENT TO THE WOODS.—This morning we met a party of bright-eyed, happy-hearted lads and lasses, on their way to one of the beautiful groves in the vicinity of the city. The weather being highly favorable for picnic purposes, of course the participants enjoyed themselves as only young folks can on such occasions. Another party will visit Spruce Hollow to-morrow.

PATRIOTISM AND SALTPETRE.—We are reminded of the approach of the "glorious fourth" by the occasional explosion of fire crackers; the juveniles being unable to restrain their patriotism until the advent of our national anniversary. There will be an unusual quantity of saltpetre burned on the coming fourth, and dealers in squibs and pyrotechnics should provide ample supplies in time.

BODY FOUND.—A few days ago the body of a man was found on a rock at Conowingo Falls, in the Susquehanna river, near the Dauphin and Lancaster lines. The body was very much disfigured, having evidently been in the water for some time. The deceased appeared to have been a respectable man, and a silver watch was found on his person. He was supposed to have been an up-river lumberman.

THE ZOUAVE ARTILLERY REGIMENT.—The regiment of Col. James Brady, now in Camp Curtin, will be uniformed in the genuine Zouave style. The material for their clothing is fine and handsome, and they expect to be clothed within a week or two. The regiment will be furnished with rifle cannon, and each man will carry a rifle and pistols. The drivers will be armed with Burnside's carbines. The officers are determined to make their regiment a crack corps. The men were sworn and mustered into service under the State requisition on Saturday last.

MURDER IN A PITTSBURGH COMPANY.—ONE MAN SHOT DEAD—ANOTHER WOUNDED AND TWO TAKEN PRISONERS.—A few days ago the camp at Melville, five miles this side of Baltimore, on the Northern Central railroad, where the "Firemen's Legion," of Pittsburgh, attached to the twelfth Pennsylvania regiment is stationed, for the protection of the road, was thrown into a little excitement by four of the privates attempting to murder one of the picket guards. It appears the captain gave the four men leave of absence for several hours, and they repaired to a place near the camp where they obtained liquor, and became intoxicated. On their return they assaulted the guard, took his musket from him and attempted to bayonet him, whereupon the guard ran to the captain's quarters and informed him of the fact. The captain immediately detailed five men to pursue them, and bring them to his quarters dead or living. As soon as the detachment came in sight of the disorderly soldiers they were riddled upon, and the sergeant, upon hearing the shouts of "kill them! kill them!" ordered his detachment to fire, which resulted in the one of the mutineers being shot dead on the spot, three balls entering his breast and one taking effect in his forehead; another was shot through his left hand, and the remaining two taken prisoners. The wounded man is confined in the hospital at Melville, and the two prisoners were taken to Fort McHenry to await trial. The fellow who was shot has long been familiarly known in Pittsburgh as "Loafers," and when under the influence of liquor was more demon than man. The two prisoners, if convicted, will be shot immediately.

ODOROUS.—The air with the perfume of "posies" and new-mown hay.

ACCEPTED.—The Union Rifles, of Williamsburg, Blair county, have been accepted by the Governor, and are making preparations to come to Harrisburg and go into camp.

Mrs. LEWIS, the old lady injured yesterday at the depot, had improved this morning. Little hopes, however, are entertained for her recovery. She is at the Bomgardner House.

THE ROVERS GUARDS continue to drill regularly, and are making rapid progress in acquiring a knowledge of military tactics. This company, which is likely to become a permanent organization, will be a credit to the city.

INORDINATE THIRST.—To those who have a strong desire to drink great quantities of water in summer, a writer gives the following advice: "Take the twig of a birch, elm or other tree, having a pleasant taste, and cut it into several pieces about half an inch in length each. Keep one of these in the mouth while traveling or working in the sun, for about an hour, throw it away and supply its place with another, and thus continue during the warmest hours of the day. By following this advice, a person will feel no more desire to drink in warm than cool weather."

SPILING FOR A FIGHT.—One of the Michigan boys got very sick in this city and was unable to accompany his regiment to Washington. He was ordered home when convalescent, and furnished a pass to go, but that did not suit him at all. The other day, very unexpectedly to his comrades, he made his appearance in the camp at Washington. The Surgeon seized him in the ranks, and as he was really unable to withstand the hardships of the service, ordered him out. It was just as the troops were in column to march to Virginia, an alarm having been given. He left the column crying, and said, sobbing loudly: "Never mind, boys, you'll find me on the other side of the bridge. I'll be d—d if I don't be there." And if there had been a fight no doubt he would have kept his word. The brave fellow started for a fight and if there is a chance he is going to have it. That Michigan boy, if he lives, will return home covered with laurels!

LUTHERAN SYNOD OF PENNSYLVANIA.—The following resolutions in reference to the present condition of our beloved country, and the duty of its citizens towards the government, were unanimously adopted by this large and influential body at its recent meeting in the city of Philadelphia:

Resolved, That with all true friends of our hitherto sacred country, we earnestly deplore the present melancholy condition of our Union. **Resolved,** That in firm reliance on the infinite mercy, wisdom and faithfulness of Almighty God, we trustfully hope that the bright sunshine of day will again rise forth out of the present night of gloom. **Resolved,** That we especially keep in view the duty of unalterable fidelity to the Union, and of conscientious obedience to the lawfully constituted authorities of our country; and that we cheerfully do all in our power to promote and to secure the perpetuity of our Union. **Resolved,** That we gratefully remember the faithful defenders of our country, commending them to our earnest prayers to the rich and tender mercies of God, whilst at the same time we do all in our power to relieve and comfort the peculiar class of sick and suffering soldiers to whom our attention has been called.

INDEPENDENCE DAY IN HARRISBURG.—AN IMPROVED AND PATRIOTIC DEMONSTRATION.—In accordance with previous notice, the committee appointed to make arrangements for a celebration of the forthcoming anniversary of our National Independence, met in the Mayor's office last evening. A general plan of celebrating the day was adopted, consisting of a national salute to be fired at sun-rise, and a simultaneous ringing of all the bells of the city; a parade of the various civic and military organizations and citizens generally; to be followed by the reading of the Declaration and an Oration in Capitol Park. The committee also recommended a general flag display by our citizens. A committee, consisting of the following gentlemen, was appointed to solicit subscriptions to defray necessary expenses: 1st Ward—Daniel, Hocker, Alexander Koser. 2d Ward—Frederick Trace, J. Brien Boyd. 3d Ward—John L. Speel, Oliver Edwards. 4th Ward—Samuel Kline, John Gastrock. 5th Ward—A. Oves, J. B. Hutchinson. 6th Ward—J. W. Lamy, John Brooks. The Secretary of the committee, Joshua M. Westling, was instructed to procure the necessary subscription books, &c., from whom the ward committees are desired to receive them and attend to their duties without delay. These committees will please report the result of their efforts to the general committee on Saturday evening at 7 o'clock in the Court House. Mayor Kepner has been selected to receive the amount collected and make the necessary disbursements.

HAVELOCKS AS A CIVIL INSTITUTION.—The havelock is by no means as recent an invention as many persons suppose. It is a new thing to see them worn in this locality by men; but for time almost out of mind they have been patronized by the gentler sex. The sun-bonnet, so familiar to every one as a favorite article of head-gear with children, country maidens, washer-women, and watering place belles, is nothing more nor less than a havelock in all essential particulars, and sun-bonnets were worn by the grandmothers and great grandmothers of the present generation. General Havelock, when he saw that his soldiers in India were suffering with the roasting heat, and that the backs of their necks and their shoulders were blistered by the sun's rays, no doubt thought of the long-caped white bonnet worn by his mother's maid when engaged in out-door work, and he applied the cooling fixture to the caps of his men. We saw a citizen on the street yesterday with a havelock upon his head, and shading his neck and shoulders from the sun. He was about as much an object of attention as Jonas Hanway was when he made his first appearance on the streets of London with an umbrella raised above his head. Had the wearer sported a military uniform, his unusual head-gear would have excited no comment; as it was familiarly known in Pittsburgh as "Loafers," and when under the influence of liquor was more demon than man. The two prisoners, if convicted, will be shot immediately.

"AND THE STRIPES."—A little four year old girl, while repeating the catechism to her mother, was asked, "What did God create?" The child promptly replied, "The earth, the sun, the moon, the stars—and the stripes!"

NOTICE.—Owing to information received today, the Committee of Arrangements for a fourth of July demonstration are requested to meet at my office in Walnut street, this evening at eight o'clock. Business which will not admit of delay will come before the Committee. **JOSEPH M. WESTLING, Secretary.**

A MEAN MAN.—A Cumberland Valley farmer charged some of our hungry soldiers two shillings for a loaf of bread! That fellow is mean enough to steal acorns from a blind hog in the forest, and would chase a flea through a five mile swamp for the hide and tallow. He ought to migrate to the south and enlist in the rebel army.

PROLIFICITY.—This morning two dilapidated soldiers, stimulated with a copious supply of lager, got to quarrelling about nothing, and concluded to fight it out fairly and squarely. So they pulled off their blouses and pitched into each other promiscuously. They fought in true artistic style, and though each swore he whipped the other, neither could show a scratch or bruise upon his enemy. Evidently, "nobody was hurt," but there might have been, had not a police officer suddenly appeared and interrupted the performance.

LOST!—A POCKET BOOK containing a Diamond ring; two Plain Gold Rings, stamped 22 and 16 carat, and over Five Hundred Dollars in gold and bank notes. Among the money was one \$50 note on the Danville Bank; and one \$20 note on the Harrisburg Bank; and two \$20 gold pieces, and \$80 or \$85 in smaller coin. A number of papers were also in the pocket-book. Twenty-five dollars will be paid, and no questions asked, if the finder will leave the same at this office. **Jell-dit**

NEW GOODS FROM NEW YORK AUCTION.—50 pieces of Grey Goods at 10, 12, and 20 cts. 100 dozen Linen Pocket Handkerchiefs for 3, 5 and 6 cts. 10 pieces Lavender Cloth for 7 cts. 25 dozen Linen Pocket Handkerchiefs for 12, 20 and 25 cts. Splendid Mohair Mitts at 31 and 37 cts. 15 dozen towels at 12 cents a towel. Linen Sleeves and Collars at 25 cts. 50 dozen Sun Umbrellas and Parasols cheap. 100 pieces of the best Calico ever sold for 6 cts. 50 pieces Broadway Dressing Gown cheap. A large lot of bleached and unbleached Muslin. Now is the time to buy bargains. Call at S. L. Lamy's, Rhoad's old corner.

IMPORTANT TO FEMALES.

DR. CHEESMAN'S PILLS.
Prepared by Cornelius L. Cheesman, M. D.
NEW YORK CITY.

THE combination of ingredients in these Pills are the result of a long and extensive practice. They are mild in their operation, and certain in correcting all irregularities, Pains, Menstruations, removing all obstructions, whether from cold, or otherwise, headache, pain in the side, palpitation, loss of sleep, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from interruption of nature.

TO MARRIED LADIES.
Dr. Cheesman's Pills are invaluable, as they will bring on the monthly period with regularity. Ladies who have been disappointed in the use of other pills can place the utmost confidence in Dr. Cheesman's Pills doing all that they represent to do.

NOTICE.
There is one condition of the female system in which the Pills cannot be taken without producing a **PELVIC RHEUMATISM.** The condition is referred to as **PREMENSTRATION.** The result, MISERABLE SUFFERING. Such a condition is a tendency of the machine to restore her sexual functions to a normal condition, that seen the reproductive power of nature cannot resist.

CONTRIBUTOR OF THE SIEGE OF PARIS. The government organ of France writes from Tunis, Algiers, as follows:—"Our college of Philosophers at home, may, and probably will, be disappointed, as a great number of the philosophers of the United States are the people to turn these discoveries to practical account. Many of the modern inventions in use here are American and one American chemist, Dr. J. C. W. Lamy, has supplied the United States with a new and improved kind of gunpowder, which is called 'Cherry Powder,' and is composed of the following ingredients: Sulphur, Saltpetre, and Gunpowder. These ingredients are of equal application, pure in their results, and have the honor of the people. While the science of Medicine is carried to a higher perfection in our own country (France) than any other, it is a Frenchman, a Frenchman, a Frenchman, who has supplied the United States with a new and improved kind of gunpowder, which is called 'Cherry Powder,' and is composed of the following ingredients: Sulphur, Saltpetre, and Gunpowder. These ingredients are of equal application, pure in their results, and have the honor of the people.
