TO ADVERTISERS.

The circulation of the DAILY TELEGRAPH IS FOUR TIMES LARGER than any other daily published or circulated in this city, and it therefore presents greater inducements for the paironage of advertisers than is offered to them through any other medium. Let those who want buyers, try advertising in the TELE-

THE MORNING TELEGRAPH Is issued every morning and contains THE LATEST TELE-GRAPHIC DISPATCHES received during the night.

THE BERRY MARKET. -There was an abundant supply of cherries, raspberries and mulberries in market this morning, which our country friends found ready sale for at remunerative prices. The crop of raspberries will be unusually large this season.

PRESBYTERIAN SERVICES.—Rev. C. Wistar Hodge, son of Rev. Dr. Hodge of Princeton Seminary, will preach in the Old School Presbyterian Church to-morrow morning and evening at the usual hours. The Lord's Supper will be celebrated at the morning service.

THE OLD SOLDIERS AND THE FOURTH .- The soldiers of the war of 1812 in this city and vicinity will meet at the office of David Harris Esq., in Chestnut street, on Monday evening at seven o'clock, to make arrangements for their annual celebration of the anniversary of American independence.

THE COUNTRY AIR. - Those who visit the rural districts now will realize the truth of the following lines by Willis:

'There's perfume upon every wind, Music in every tree;
Dews for the moisture-loving flowers, Sweets for the working bee.

FORFEITURE OF BUTTER .- This morning the Market Master relieved a country woman of thirty rolls of butter, which fell short of the standard weight. Our country cousins get good prices for all their products, and when they attempt to come the light-weight and short-measure dodge, it is proper that the market laws should be enforced.

FLAG RAISING.—The members of the Mount Vernon Hook and Ladder Company have ordered a large and beautiful American flag, which will be flung to the breeze from the flag staff girl that ever was seen, and weighs eleven on their truck house, with appropriate ceremonies, on the morning of the fourth of July. There will be an address by an eloquent gentleman of this city, appropriate music and other interesting exercises.

THE FOURTH OF JULY.—From present indications the anniversary of American independence will be celebrated with more than usual pomp and circumstance in all towns and cities throughout the loval States. We hope there may be no lack of patriotism on the part of our citizens, but that all will enter heartily into the observance of the day, and

natch from the ashes of their sires The embers of their former fires.

ATTENTION, COMPANY! -- The company of young gentlemen (?) who parade or drill every Sabbath evening in front of the Vine street Methodist church, are requested to stand steady and keep heads up to-morrow night, as a young lady desires to take down their names, in order to form a roll of the company, with a view to tendering its services to the government for the war. The "curb-stone rangers" are requested to be out in full force.

More New York Troops.-Last evening the sixteenth regiment of New York passed through this city en route for Washington. The train consisted of twenty-five passenger cars, all compactly filled. The men were armed and equipped, ready for immediate service in the field. Another regiment from New York arrived here this forenoon on its way to Washington, and one is expected to-morrow morning. All the equipped regiments in that State have been ordered to Washington as rapidly as they can be transported thither.

LEARNING TO SHOOT-THE POSITION .- A gunner informs us that twenty years' experience and observation have taught him that any perkon may become a good shot by observing the following directions: Allow the rifle to hang in the hands in an easy manner, declined at an angle of forty degrees; then raise it steadily and quickly in a line with the object, the eye ranging carefully, and at the instant the object aimed at is covered, touch the trigger. He says: "I find there is a moment when the gun is absolutely still-that is the moment the upward movement is arrested." These directions observed will certainly make a good shot. If the sight is lost by the first trial it can be recovered by a second. Any deviation from this rule is fatal to accuracy.

HARVEST. - Our toiling agriculturists commenced to harvest their hay crops several days ago. The grass in most localities is heavy, the weather having been favorable to its growth. The wheat fields, which will be ready for the reaper next week, present a promising appearance, the crop being now beyond the reach of harm from its numerous enemies. The heads about to assemble, and to implore Him, in the are heavy and full, and bend over from the weight of the grain. The oat and potato crops are also and excellent, while the corn looks small in many fields owing to the cold and all blessings flow, for the bountiful season which appears to be before u

THE UNION PRAYER MEETING will be held mencing at four o'clock, as usual.

RELIGIOUS SERVICES AT CAMP.—The usual relinorrow. Mass at eight o'clock in the morning, and addresses by some of our Protestant clergymen at three in the afternoon.

Bogus Coin continues to circulate in our man ket, and the "shovers" operate with astonish ing success. This morning a number of countrymen were victimized, one of them to the amount of seventy-five cents, who "swore terribly" when he made the discovery. There are several "fancy" individuals in this city, without any ostensible means of livehood, who are suspected of dealing extensively in bogus coin and with ordinary tact and vigilance on the part of our police officers these fellows might be "spotted" in their operations and brought to

In the City.—We noticed on the street today Paymaster David Taggart, of the United States army, to which position he was recently appointed by the Secretary of War. There are few finer looking men in the country than Major Taggart, and an elegant and neat-fitting uniform vastly improves his personal appearance, making him look every inch a soldier We congratulate him upon his appointment. and the War Department upon having secured the services of such an accomplished gentleman and competent officer. Major Taggart is located in Washington city.

A VALUABLE REMEDY.—Every family should keep a small quantity of chlorate of potash. We have never found anything equal to it for a simple ulcerated sore throat. Dissolve a small teaspoonful of it in a tumbler of water; and then occasionally take a teaspoonful of the solution, so as to gargle the throat. It is nearly tasteless, and not at all offensive to take, and is hence well adapted to children. Nothing is better than this for chapped or cracked hands. Wash them in the weak solution, and they will soon be well. It is also good for a rough, pimply, or chapped face. It may be had at any

Too Much Happiness for One.-We met to day with one of the happiest of men. A pleasant glow was over his whole countenance; he was all bows and smiles, and extended his hand to all acquaintances, with the remark, "Pleasant morning, fine weather, glorious time." He appeared to have something to communicate, yet spoke in cyphers. When invited to take a 'smile' he invariably excused himself. "Not this morning; can't think of it; 'twent do will see you again this evening." His friends asked each other, what can be the matter? All smiles and won't indulge-what's up? By noon our friend was prevailed upon to indulge in a little cooling beverage, with just a small speck of a "fly" in it. 'Twas then he became communicative, and fears for his safety were removed. "It is the fattest, plumpest little nounds!" ... Joy in the house of our friend! We congratulate him,

DRINKING IMPURE WATER.—Set a pitcher of iced water in a room inhabited, and in a few hours it will have absorbed from the room nearly all the perspired gases of the apartment, the air of which will have become purer, but the water utterly filthy. This depends on the fact that the water has the faculty of condensing and thereby absolving nearly all the gases which it does without increasing its own bulk. The colder the water is the greater its capacity to contain these gases. At ordinary temperature a pint of water will contain a pint of carbonic acid gas, and several pints of ammonia. This capacity is nearly doubled by reducing the temperature to that of ice. Hence water kept in the room a while is always unfit for use, and should be often removed, whether it has become warm or not. And for the same reason the water in a pump should all be pumped in the morning before any is used. That which has stood in a pitcher over night is not fit for coffee water in the morning. Impure water is more injurious to health than impure air, and every person should provide the means of obtaining fresh pure water for all domestic uses.

be too careful in the selection of the officers to simultaneous ringing of all the bells in the army is to ascertain who of the many captains men. It would be well for the country and for this city; all the Fire companies with their themselves if the miserable excuses who are daily offering themselves for captains, colonels, and generals, could be made to realize that they are not fit to be entrusted with the responsibilities to which they aspire; and it would be equally beneficial to the thousands of our best and bravest young men who are offering daily for the ranks, to see to it that they do not get deceived and drawn into companies who have self-elected and incompetent officers. It cannot be doubted that there are a good many excellent and accomplished officers to be found to command all the companies necessary to be raised; and, with the right kind of care, every man can get into a company properly officered.

PRAYER FOR THE COUNTRY.—The General Assembly of the Presbyterian church (O. S.) at its late meeting, in the city of Philadelphia, adopted the following resolution:

Resolved, That, in view of the present agitated and unhappy condition of this country, the first day of July next be hereby set apart as a day of prayer throughout our bounds, and that on this day ministers and people are called on humbly to confess and bewail their national sins, and to offer our thanks to the Father of light for His abundant and undeserved goodness towards us as a nation, to seek his guidance and blessing upon our rulers and their councils, as well as the Congress of the United States name of Jesus Christ, the great High Priest of

Altogether we have abundant cause to be thankful to Him from whom the Old School Church of this city as a day of the side of the Union during the present crisis, In accordance with this commendation, Monprayer, and services may be expected in that has rendered more valuable aid to Gen. Scott hurch at 10 o'clock in the morning.

A STATED MEETING of the Friendship Fire the Presbyterian church, corner of Market | Company will be held on Monday evening, at | Band, of Lebanon, among the best in the inte-Square, this (Saturday) afternoon, com- the usual hour. A full and punctual attendance is desired.

Another Sensible Movement.—The dry good⁸ gious services will be held at Camp Curtin to- dealers of this city have determined to close their stores at eight o'clock in the evening, from the first of July until the first of September next.

> St. Stephen's Church.—The congregation of St. Stephen's Church are notified that their bell will not be rung to-morrow, on account of sickness in the neighborhood. Hours of service, 10 A. M. and 8 P. M.

A THIRF CAPTURED .- A member of the lightfingered fraternity, who hails from Baltimore, was arrested by officer Wickert for stealing some tape, thread, needles and other articles, from one of our citizens. Alderman Caldwell of the sixth ward committed him for trial.

Assault and Battery. -This morning John Lyon was before the Mayor, arrested by officer Cole, charged with assaulting and beating cer Cole, charged with assaulting and beating 5 and 6 cts. 10 pieces Lavella Cloth for 7 cts. Members of sub-committees who have not yet made final report, are requested to | nal hearts beat with quick pulsation at the do so at that time.

RAILROAD ACCIDENT.-This morning a deaf and dumb man, whose name we did not learn, was struck by an engine while walking on the railroad track at the foot of State street, and hardships and perils of those they love? Do they terribly cut and bruised. It is supposed, however, that he will survive the injuries. Deaf men, of all others, should keep off railroad In connection permit us to say, URIOH & Bow-tracks, especially in a place like Harrisburg, where trains are almost constantly in motion.

THREE "DRUNKS" occupied the lock-up last night. On a hearing before the Mayor this morning, the constables who made the arrest Messrs. Wickert and Cole, charged them with riotous and disorderly conduct, and they were sent to prison. All of them were dilapidated specimens of humanity; and one fellow, who was terribly disfigured, looked as if his left eye had come in contact with somebody's fist.

Suspicious Characters.—There are two or three strangers in the city, whose movements at Camp Curtin and elsewhere have created suspicion. Vigilant eyes should be kept upon all strangers these times. Ever since the commencement of the war southern spies have come and gone at pleasure, and the rebels kept thoroughly posted with regard to military operations in this quarter. It is time to effectually block this game.

WENT TO PRISON .- The old colored oysterpedler and swill-gatherer, Charley Robinson, one of the "institutions" of our city, was arrested yesterday for permitting his dogs to run at large without muzzles. Regarding the law as unjust, Charley stood upon his dignity and refused to pay the fine, preferring to go to prison. The Mayor accordingly committed him. Several other persons have been fined within a day or two for violations of the law.

THE TRAITOR ALVEA, of Hagerstown, whose recent arrest we noticed, passed through this Independent Rangers, en route for Washington city. When the news of his arrival was announced, a large crowd of people flocked to the depot and surrounded the prisoner, and cries of "lynch the traitor," were heard on all sides.

depot and surrounded the prisoner, and cries of "lynch the traitor," were heard on all sides. From the feeling of indignation exhibited by our people, we believe that Alvea would have been roughly treated, but for the restraining influence of the revolvers which the Rangers flourished. All such traitors as Alvea should be hung higher than Haman, and we hope the government will act promptly in his case.

INDEPENDENCE DAY.—The programme for the fourth of July celebration is nearly perfected, and will be announced in full early next week. The main features of the demonstration will be a grand national salute, accompanied by the simultaneous ringing of all the bells in the city, at sunrise. A military and civic parade, to be participated in by at least one full regiment of infantry and several companies of The lates which all such traitors are conditioned as the prior of the medicine to restore he sexual functions to a normal condition, that even the reproductive power of nature cannot resist it.

Fire this Afternoon.—About two o'clock this afternoon a fire broke out in the carpenter shop of Mr. John Lingle, in River alley, between Mulberry street and Washington Avenue. The firemen were promptly on hand and worked noble as usual, but their efforts failed to save the building, which was totally consumed, as was also a frame stable adjoint two o'clock this afternoon a fire broke out in the carpenter ships here, because they are of easy application, sure in their results, and have the confidence of the people.—While the science of Medicine is carried to a higher perfection in our own country (France) than any other, it strikes a Frenchman as a little singular that an American Physician should furnish the medical skill and remedies for our Principal Province.

We are happy to inform our readers that these superior medicines which the Emperor's Principal Province is obliged to get from America may be had by our neighbors, at FIRE THIS AFTERNOON.—About two o'clock sumed, as was also a frame stable adjoining belonging to the college property.
