NARROW ESCAPE OF A CONSTABLE. - A fellow named Bill M'Clurg was arrested last evening that occasion : by officer Wickert for drunkenness and disorderly conduct. He violently resisted "the derly conduct. ARREST OF A SUSPECTED SPY. -This forenoon a city, where he underwent a partial examination before the Mayor, and was committed to prison for a further hearing on Monday. He gave his name as John Benton, but had in his possession a certificate of membership of an Odd Fellows' lodge, and other papers, with the name of this morning questioning a number of the soldiers, and taking phonographic notes of the information thus gained, in a small blank book. Among the papers found in his pockets was one granting him a furlough for seventy-five days from a Virginia company. The man's actions and contradictory stories pending the examination, were such as to increase the suspicion of his being a spy. His arrest caused a great sensation, and for more than an hour the Mayor's office was surrounded by a large crowd of excited people.

AN ITEM FOR PARENTS .- The Sanitarium, 2 new and valuable publication, advises parents to let the little ones get all the sleep that Nature allows them. Never wake them. Nature will do that in a kind, gentle way. If they do not arise in season, send them to bed earlier and earlier every night, till they can be dressed for breakfast without losing any sleep. If you do not want your darlings to have the brain fever, or water on the brain, do not let them study in the evening. Do not lecture or scold them just before retiring. Let them lay their heads on their nice little pillows just after singing that sweet little song-

THE COMET.-The sudden and unexpected appearance of the comet, now visible in the skies. is accounted for on the hypothesis that, with a swift northwestward motion, it has been setting before the sun. It is evident that, in such a case, it would become visible in a single night, twenty-four hours being sufficient time for it to KNIGHTS OF THE GOLDEN CIRCLE.—If rumor be fall far enough behind the day to disclose itself other Harrisburgers are in the same regiment—

THE ECONORY OF HEALTH.—This busy nation of Americans have 12,000,000 working people, whose services may be estimated at \$2 a day, and their annual loss by sickness at an average of ten days each in the year.—This gives a total loss of \$240,000,000 a sum three times as large as the whole cost of the General Government, indeluding the Army, Navy, Post offices, Legislators, Foreign Ministers and all. The amount weighs over six hunred tons in pure geld.

A large proportien of this costly suffering might be averted by attention to dist, cleanliness, and above all, by the proper use of the right remedy in season. When a 25 cent box of Ayer's Pilis will averten attack of illness which it would take several days to recover from, or a dollar bottle of Ayer's Sarssparilla, will expel a lurking disorder that would bring the sufferer to his back for weeks or months, does it take any figures to show the good economy of the lavestment? When Fever and Ague is rankling in your velus, and shaking your life out of you, is it worth the dollar it costs for his Acus Curs it, even if it can be cured at all, or is it cheaper to take Ayer's Cherry Pecteral, costing a few shillings, and remove the trouble before it is serious? It takes no wisdem to decide.
