OUR PLATFORM THE UNION - THE CONSTITUTION - AND THE ENFORCEMENT OF THE LAW. HARRISBURG, PA. Wednesday Afternoon, July 10, 1861.

THE TARIFF.

There seems to be a disposition among certain members of Congress to use the present crisis to attack the revenue laws, and if possible, injure the prospects of the producing classes of the country. By a vote in the House of Representatives yesterday; it was decided not to consider any subject irrelevant to the war.

THE GOVERNMENT.

When Abraham Lincoln was inaugurated, those who now stand prominent as rebels, then satisfied that the destruction of the American government was inevitable. It was made a part that the federal authority was repudiated in at least three states, while almost twice as many more commonwealths were ready to sever their connection with the Union of states, the moment it would appear practical for them to dissolve the association.

REPORT OF SECRETARY OF TREASURY.

TREASURY DEPARTMENT, July 5, 1861. The Secretary of the Treasury is required by law to prepare an annual report, at the commencement of every session, on the public revenue and the public expenditures, and plans for improving and increasing the revenue.

THE PEOPLE OF THE SOUTH.

The people of the South are beginning to realize the effects of their own acts. They are now suffering from results that are natural, and feel very much like casting the blame where it does not belong, and from whence it always returns to plague and annoy themselves.

DESERTERS FROM THE REBEL ARMY.

DESERTERS FROM THE REBEL ARMY represent the condition of affairs in the rebel ranks to be of the most desperate character—drunkenness, assassination, gambling and insubordination being the order of affairs in the entire rebel force.

THE GOVERNMENT. When Abraham Lincoln was inaugurated, those who now stand prominent as rebels, then satisfied that the destruction of the American government was inevitable.

A vast conspiracy against the Union of the States and the very existence of the national government, which has been gathering strength and preparing hostilities in secret for many years, has at length broken out into flagrant rebellion.

First. The balance arising from the receipts and expenditures of the fiscal year, 1861, ending on the 30th of June. Second. The demands upon the Treasury arising under the existing appropriations and created by the new year 1862, exigencies for which provision is to be made during the fiscal year.

Third. The best way of providing for these demands and the means available for that purpose. As to the first and second branches the Secretary shows an aggregate of appropriations already made of \$17,710,870 68.

On the third branch, viz, the Ways and Means, the Secretary says—The proportion of the large sums required for ordinary expenditures and by the existing emergency, it is quite apparent that the duties on imports—the chief resource for ordinary disbursements—will not be adequate.

THE MISSION OF COLONEL TAYLOR, the rebel bearer of despatches from the traitor Davis to President Lincoln, has proven to be a failure. The precise nature of his communication has not been revealed to the public, but it is not improbable that the dispatches he bore were intended as a feeler of public opinion in the north.

THE POLITICAL AND FINANCIAL CONDITION OF MISSOURI.

MISSOURI so desperately that a call for a convention has been issued, to meet in Jefferson city on the 22d of this month, for the purpose of nominating a Governor and Lieutenant Governor.

REPORT OF SECRETARY OF TREASURY. THE RECEIPTS FOR THE LAST QUARTER OF THE FISCAL YEAR just closed, were only \$5,527,246 33, and though a very considerable improvement in the revenue may be confidently anticipated during the current fiscal year, should no change be made in the rates of duties, it will be inadequate, beyond doubt, to the demands of the Treasury, which should be provided for without resort to loans.

With this revival of trade and industry the revenue will improve, even though the restoration of peace may be delayed beyond our present hope. It is hardly to be doubted, however, that the great body of the citizens of the States now involved in the calamities of insurrection will, ere long, become satisfied that order and peace, and security for all rights of property and for all personal and political rights in the Union and under the Constitution, are preferable to the disorder and conflict and insecurity necessarily incident to attempts to subvert the government, break up its institutions and destroy our nationality by force and violence.

While recommending the changes in the existing tariff and the other revenue measures which seem to him necessary, the Secretary indulges therefore a confident expectation that they will not only improve the revenue, but also meet the reasonable demands for the ordinary expenditures, for the payment of interest, and for the reduction of the public debt; and that they will, moreover, by establishing the national credit on sound foundations, contribute in no inconsiderable degree to that revival of trade and industry which, by its healthful reaction, will, in turn, essentially promote the increase and security of the revenue.

Without going into other details of less importance, the Secretary thinks it proper to add in general that from the proposed duties on articles now exempt and from duties charged on articles now either lightly burdened or on heavily taxed, that the tax amounts to a prohibition of a further increase of revenue to the amount of \$7,000,000 may be anticipated, and from these duties a just expectation that revenue from the duties of the present tariff will not fall short of \$30,000,000. He estimates, therefore, the total revenue from imports during the present year at \$37,000,000, to which may be added the sum of \$3,000,000, to be derived from sales of the public lands and miscellaneous sources, making the total revenue for the year \$40,000,000.

Without going into other details of less importance, the Secretary thinks it proper to add in general that from the proposed duties on articles now exempt and from duties charged on articles now either lightly burdened or on heavily taxed, that the tax amounts to a prohibition of a further increase of revenue to the amount of \$7,000,000 may be anticipated, and from these duties a just expectation that revenue from the duties of the present tariff will not fall short of \$30,000,000.
