FINE WHEAT.—This morning we were shown some specimens of wheat, gathered from a field of J. C. Bomberger, Esq., near this city, which cannot be excelled anywhere in the State. The heads are unusually large and well filled with solid grains. As a general thing the wheat in this section is of the very best quality, and a more bountiful crop never was harvested. The farmers have reason to be thankful.

CHILDREN are a good deal of trouble, no doubt, (your mother made the remark years ago,) but no married gentleman's house is complete without them. As this is a branch of the service always desirable, an excellent opportunity is afforded young men possessing the proper qualifications to enter it. The regiment is officered by some of the ablest officers in the United States service.

One would think the superstitious era had not passed were he to judge from the inordinate amount of drinking indulged in by the troops. Whisky, which unfortunately keeps pace with the army wherever it goes, is the principle beverage. It is surprising that, in view of the evil effects of intoxicating liquors, its use is not strictly prohibited by the officers in command of our encampments and troops. It is safe to share to the hospitals and to premature graves. Almost every day drunken soldiers are picked up on the streets of this city and taken to the liquor might not be injurious, its excessive indulgence must ever be fraught with evil consequences, and be to an army like ours a prolific source of disorder.

CHICKEN THIEF .-- An old offender, Mary Toy, vas before the Mayor this morning, charged ing, when a hearing took place before the with attempting to steal chickens from Mrs. Richardson, living near the Lunatic Asylum. Mary seems to have an ungovernable propensity for thieving, having been detected in several small operations within a few weeks. She is a young and good looking woman, and might become a respected and useful member of society, if she could be induced to reform and abandon her present habits and associations.

> GLAD TO HEAR IT.—A country paper, descanting on the times as they effect business, says farmers will have no hard times. Crops are good, and prices will be good for everything excepting hay, the plenteousness of which all over will make it very cheap. While the farmers will be getting good prices for their produce, the price of everything they consume, clothing, dry goods, groceries, all will be cheap. This pleasant prospect ought to induce all who know anything about farming to turn their industry in that direction. Other branches of business certainly do not present anything so flattering.

A WELCOME SHOWER .- A refreshing shower came last evening to relieve us from the in_ tense heat of the last three or four days. The thermometer had soared up among the nineties during all that time. It fell considerable last evening, and everybody welomed the change. The atmosphere was cooled and purified, the dust laid, the streets and gutters thoroughly washed and cleansed, drooping vegetation revived, and suffering humanity once more enabled to breathe with comfort. COLORED MAN STABBED.—At a late hour last night some soldiers, while perambulating the classic locality in the rear of the Capitol, got into a quarrel with two colored men. One of country. He was a man of fine social qualities, the latter was s'abbed in the shoulder with a knife during the progress of the fracas, and slightly wounded. The assaulted party raised an alarm, and reinforcements began to arrive, when the soldiers beat a precipitate retreat. There being no police officers on duty in that ties. The proper mode of proceeding is for rowdy district, where similar disgraceful scenes are enacted almost every night, of course no to make complaint to the Mayor, and have the arrests were made.
