

Daily Telegraph. HARRISBURG. Tuesday Afternoon, July 16, 1861.

NOT A SUFFICIENT REASON.—A human brute, whose name we did not learn, knocked down his wife last night, for which offence he was arrested. The only excuse he had was being drunk at the time. The Alderman did not appreciate the defence and had the offender locked up.

THE DOG LAW.—Warrants have recently been issued by the Mayor against fifteen or twenty citizens for violation of the ordinance which requires owners of dogs to keep them muzzled when running at large. The parties will be arraigned for a hearing in the course of a day or two.

EXPENSIVE AMUSEMENT.—One Benjamin Dayton and another man, instead of going to the wars, got up a private conflict on Second street last night. Police officer came along—other man was away. Dayton was collared, escorted to an Alderman's office and fined one dollar for his fun.

A QUESTION FOR THE MAYOR.—A correspondent writing to us relating to the enforcement of the ordinance against dog owners, wants to know "what is to be done with the poor dogs that have no owners?" We are unable to reply, and respectfully refer the question to the Mayor for an answer.

THE FOURTH REGIMENT (three years) for some time past in camp at Easton, left there at noon to-day, and will arrive here this evening, having been ordered to Camp Curtin. The other regiments in camp at Easton have also received orders to hold themselves in readiness for marching at an hour's notice.

LACTEAL LARCENY.—Some of the dairymen in the vicinity of Camp Curtin complain that they are frequently deprived of their full supplies of milk by soldiers who invade their premises and milk their cows. The amount of suffering accordingly entailed at the breakfast tables of the patrons of the dairymen thus robbed, can be better imagined than described. The offenders should be punished.

WISCONSIN TROOPS.—The Third Wisconsin regiment (one thousand and fifty) Col. Hamilton, passed through this city at two o'clock this morning, to join Gen. Patterson's division. The men are substantially uniformed, and amply supplied with everything to make them comfortable. They expect to receive arms on their arrival at Hagerstown. The Fourth Wisconsin regiment, Col. Paine, left that State yesterday, and will probably reach here to-morrow night.

HYDROPATHIC.—Two women in the upper section of the city had a misunderstanding, which could not be settled by peaceable means. One of them had the advantage of living on the upper floor, and the other day when her neighbor was going out she received a shower bath in the shape of the contents of a water-pail. The probability is that the parties will figure in the next Court, this woman who received the bath avowing a determination to have revenge in a legal way.

FUNERAL OF A SOLDIER.—The funeral of Joshua W. Muench, late a member of the Lochiel Greys, of this city, whose death we announced on Monday, will take place from the residence of his father, Capt. Charles F. Muench, to-morrow afternoon at two o'clock. His remains will be interred in the cemetery with military honors by the First City Zouaves. It is probable that a detachment of his own company will be here to participate in the solemn obsequies, and pay a last sad tribute of respect to the memory of their late companion-in-arms. The deceased, who had always been a healthy and active young man, was suddenly "cut down like a rose in full bloom," having just passed the twenty-second anniversary of his birth-day, which occurred on the day previous to his death. Peace to his ashes!

A HOTEL THIEF CAPTURED.—This morning a man answering to the name of John Lewis Blessing, was arrested by the Chief of Police, charged with stealing a pair of pantaloons and one hundred and five dollars in money from Wm. Valentine, of Centre county, a boarder at the White Hall hotel. It is alleged that Blessing entered the room of Valentine during the night, while the latter was sleeping, and perpetrated the robbery. Blessing, also a boarder at the White Hall, represented himself as a recruiting officer for Sherman's battery, stating that he had a rendezvous at Janss' tavern. The Mayor being sick, Justice Bender heard the case and committed the defendant to prison for trial. Several other rooms of the hotel were attempted to be entered last night, no doubt by the same fellow, who is evidently a professional thief.

BREVET ASSAULT AND SUPPOSED HIGHWAY ROBBERY.—At a late hour last night a drunken soldier was assaulted by one of his comrades, in Raspberry alley between Market and Chestnut streets, and cruelly beaten. Mr. Wm. Miller, who resides in that locality, witnessed the affair, but hesitated to interfere, lest the ruffian might be armed and do him injury. The assault, after knocking his comrade down with a stone, ruffled his pockets, and Mr. Miller distinctly heard the jingling of a quantity of silver coin. The fellow then departed, leaving the wounded man lying apparently insensible in the gutter, where he remained some time. Mr. Miller finally concluded to go to his relief, but when he arrived the man was gone. Upon examination he discovered considerable blood upon the ground where the man had been lying, and found a smoke pipe, and a pocket book containing a ten dollar bank bill. Both the men were Irishmen, and dressed in the uniform of the soldiers at Camp Curtin. Mr. Miller is of the opinion that from the number and severity of blows inflicted upon the one who was assaulted, and the quantity of blood spilled, he must have been seriously injured. How Miller could witness a brutal outrage of this kind, without interfering or raising an alarm, we are at a loss to conjecture. There is a mystery connected with the affair which remains to be solved.

THE ELLSWORTH CADETS will meet at the usual place this evening at seven o'clock.

SOMETHING NEW.—A looking glass and picture frame manufactory has been established in this city. We invite attention to an advertisement on the subject in another column.

HAVELOCKS A FAILURE.—Complaints are beginning to be made that havelocks are a failure. The dazzling white renders them conspicuous as marks for the enemy. They flap about the ears and face, interfering with the aim of the wearer, and preventing him from hearing the orders of the commanding officer. A substitute is mentioned, which consists of a cork lining to be put into the top of the hat or cap, which keeps the head cool, on the principle that ice is kept in an ice-house by surrounding it with non-conducting substances.

DUMMED OUT OF CAMP.—A private in Captain Wisert's company, which hails from Washington county, was drummed out of "Camp Wilkins" on Saturday. His name was Wolf, and his offence consisted in his having used threatening and abusive language to his superior officers. The ceremony was performed in the presence of the entire regiment, which was ordered out for the occasion. Wolf was led through the ranks to the tune of the "Bogue's March" and then expelled from the camp, amid the hoots and jeers of the troops and spectators.

CAUTION TO MOTHERS.—It is a very common thing to see mothers and servant girls pushing along the sidewalks the little carriages in which they are giving infants an airing on pleasant days. An exchange remarks that the practice is a very dangerous one, and is liable to do great and permanent injury to the child. The position of a child riding backward instead of forward, is an unnatural one, and directly affects the brain. Some grown persons even cannot ride backwards in a railroad car without experiencing a sense of faintness, and to expect a child to do what a strong adult cannot, is unreasonable, to say the least. It is believed by medical writers that infants have died from disease produced by being ridden backwards.

RETURNING REGIMENTS.—The term of the three months regiments which left Pennsylvania at the commencement of the war, will expire within a week. The men of one or two of these regiments have already signified their intention of entering the service for three years, or during the war. Other regiments will follow this patriotic example, and of the regiments that will disband at the close of their three months' term, a large number of individual members will rejoin the army. The War Department has wisely thrown out inducements to these experienced soldiers. Regiments which re-enter the service will be entitled to fifty dollars bounty per man. Companies will be entitled to forty dollars per man, bounty, and individual soldiers to thirty dollars bounty. These three months men have become veterans, and many of them are now fully equal to regulars. The government has done a sagacious thing in offering them inducements to retain their places in the field which cannot be so well filled by raw recruits.

ACIDS IN SUMMER.—Physiological research establishes the fact that acids promote the separation of the bile from the blood, which is then passed from the system, thus preventing fevers, the prevailing disease of summer. All fevers are "billious," that is the bile is in the blood. Whatever is antagonistic of fever is cooling. It is a common saying that fruits are "cooling," and also berries of every description; it is because the acidity which they contain aids in separating the bile from the blood. Hence the great yearning for greens and lettuce and salads in the early spring, these being eaten with vinegar; hence, also, the taste for something sour, for lemonsades, in attacks of fever. But, this being the case, it is easy to see that we nullify the good effects of fruit and berries in proportion as we eat them with sugar, or with sweet milk. If we eat them in their natural state, ripe, fresh, perfect, it is almost impossible to eat too many, or eat enough to hurt us, especially if we eat them alone, and not taking any liquid with them whatever. Hence, also, is butter-milk, or even common milk, promotive of health in the summer time. Sweet milk tends to billiousness in sedentary people; sour milk is antagonistic.

RECEPTION OF RETURNING VOLUNTEERS.—A number of ladies of this city are busily engaged in making preparations to give our volunteers a dinner in Capitol Park on the day of their return. According to street rumor they are expected to reach here on Saturday next, although in this case, as in most others, we place but little reliance on such vague reports. We are in favor of giving our volunteers a proper reception on their return home; and aside from the dinner contemplated by the ladies, the citizens should call a town meeting and make arrangements to give them a formal and cordial public welcome, inviting the military to participate. But, in whatever way or by whom the reception may be gotten up, those who move in the matter should first know whether they are coming home and when. Our private advice throws considerable doubt upon their return at the expiration of the three months, and we know that the War Department can retain them in service thirty days longer if their services are needed. We would be sorry to learn that our men had abandoned the field in the face of the enemy, and we don't believe they will do it. We sometime since requested our correspondents in the various regiments to give us the earliest possible information of the action of their regiments in this respect, and late private letters intimate that the sentiment of the boys was undergoing a great change about returning home since their arrival at Martinsburg. We are satisfied that no definite conclusion has been come to, as frequently asserted in other quarters, or we would have been duly advised of the fact.

IN THE midst of universal excitement personal appearance, convenience and comfort are still matters of moment above all. Money was never of more value than now; therefore, those who desire to save it in the purchase of dry goods are invited to visit the cheap store of UXON & BOWMAN, corner of Front and Market streets.

HOW TO PRESERVE BEAUTY.—Nothing is more becoming to a man or woman than a beautiful, lustrous head of hair, and a woman's beauty is generally incomplete without a fair complexion, and he or she who neglects these great and important adornments of nature must expect to suffer the mortification of premature baldness, and wrinkles face and a gallow skin. Nothing is necessary to preserve these essential attractions but the use of Prof. Wood's Restorative—Louisville, Tenn. For a full and complete description of this medicine, and a full and complete description of the Restorative, apply to Mr. J. G. Given—Baltimore, Md. Sold by all good Druggists. 1713 Dawson.

THE ECONOMY OF HEALTH.—This busy nation of Americans have 12,000,000 working people, whose services may be estimated at \$2 a day, and their annual loss by sickness at an average of ten days each in the year. This gives a total loss of \$240,000,000 a year three times as large as the whole cost of the General Government, including the Army, Navy, Post offices, except the Foreign Ministers and all. The amount would cover six hundred tons in pure gold.
