Wednesday Afternoon, July 16, 1861.

ILLNESS OF THE MAYOR.—We regret to announce the illness of Mayor Kepner, who is now confined to his room by a slight attack of typhoid fever. We hope to see him at his official post again in the course of a few days.

THE WHEAT CROP.—Our exchanges throughout the State give most flattering accounts of the crops. Everywhere in Pennsylvania the wheat crop is more than an average one, and is being harvested in good condition. The tolling agriculturists of the old Keystone have abundant reason to be thankful.

CORN AND POTATOS.—The recent rains have produced the most marked and favorable change in the growth of corn and potatoes. The prospect of a large yield of these crops in our country is excellent. The growth of each at present is astonishingly rapid. It affords us pleasure to chronicle this fact—particularly respecting the last named crop—for we, like "all the world and the rest of mankind," relish a good potato.

DISAPPEARING.—The Comet which has been "spreading itself" in the north-western heavens for two weeks past, is fast disappearing, being scarcely visible to the naked eye at this time. The astronomers have settled the question in regard to its being the great Comet of Charles Vth, negatively, and we may therefore still be on the look-out for the expected celestial wonder.

INCOMBUSTIBLE WHITE WASH.—Pass fine freshly slaked lime through a fine sieve, and to six quarts of the lime thus obtained, add one quart of the purest salt and one gallon of water, boil the mixture and strain it clean. Then, to every five gallons of this mixture, add one pound of alum, half a pound copperas, and put in slowly three-fourths of a pound of potash and four quarts of fine sand. It adheres firmly to wood or brick.

THE FIRST CITY ZOUAVES drilled in Market square last evening in presence of hundreds of spectators, many of them ladies. The young men looked well, marched beautifully, and went through the regular Zouave drill with a degree of skill and proficiency which elicited universal commendation. This splendid military corps is a credit to the city, and the people should take pride in sustaining it. The membership of the company should be increased to at least one hundred rank and file.

ARRIVAL OF MILITARY.—The fourth regiment of the Pennsylvania Reserve Corps arrived here at twelve o'clock last night, and marched from the depot to Camp Curtin by the way of Market and Third streets. The regiment is composed of fine looking men, all of them neatly uniformed. The probability is that they will receive arms here and soon be ordered to join Gen. Patterson's division, to take the place of one of the returning three months' regiments. The regiment is officered as follows: Colonel, R. G. March; Lieutenant-Colonel, John F. Gault; Major, R. M. McClure.

STRUCK WITH A STONE.—This morning two small boys got into an "irrepressible conflict" in Market square. One of them threw a stone at his combatant, which struck him on the left temple with such force as to knock the lad down. The wound was a severe one, and the little fellow cried piteously as he wended his way home, a commingled stream of tears and blood disfiguring his otherwise handsome countenance. We did not learn the names of the youthful combatants. Throwing stones, either in fun or earnest, is a very dangerous operation, and boys should not indulge in it.

A WILD MAN.—About two weeks ago an insane man escaped from the asylum, at Roxborough, and for eight days was roaming among the fastnesses of the Wissahickon. He was seen several times, and each time in a state of entire nudity, indulging in uncouth gambols. At one time he would be seen bathing in the waters of the Wissahickon, and the next instant perched on a high cliff, rendering all approach impossible. On Wednesday last a large force of police officers from the city set out in pursuit and succeeded in capturing him. He is said to be fearfully violent when in custody.

BOATS' TROPHIES OF THE WAR.—The number of relics of the war which are afloat, and the estimation in which they are held, has induced speculation. We are informed that parties in New York are now engaged in manufacturing "relics," consisting of articles of clothing, military hats, swords, etc. These will be disposed of, to a patriotic people, as genuine trophies of the victories of our forces. In addition to this humbug, "shipplasters," purporting to be from Virginia, are being printed to supply an increasing demand, whilst secession flags, also of New York manufacture, are in the market. Under these circumstances, it becomes the duty of every man who has a due regard for his pocket, to examine well into the authenticity of trophies before purchasing.

AN OLD FEMALE OFFENDER CAPTURED.—About ten months ago one Avey Hamilton alias Aveline White, hailing from Elmira, was arrested in this city for stealing jewelry and other articles from boarders at Hoffman's tavern and the Military Hall. She was tried, convicted and sentenced to prison for several months. Her term expired a few weeks ago, since which time she has been living a life of vagrancy, in connection with Mary Toy, whose name frequently figures in our police reports. The severe punishment which followed Avey's former dishonest acts does not seem to have benefited her, for yesterday she was arrested by the Chief of Police for stealing various articles of jewelry from five different persons at the City Hotel opposite the depot. She was committed to the lock-up and subsequently had a hearing before Justice Beader, acting in the Mayor's place, who committed her to prison for trial. The woman is evidently an incorrigible thief, and sustained that reputation at her former home in Elmira. She is likely to remain in her present quarters for a long time.

ANOTHER NEW YORK REGIMENT arrived here this morning over the Lebanon Valley Railroad and proceeded directly to Washington city.

THE FOURTH WISCONSIN REGIMENT, which left that State on Monday, is expected to reach Harrisburg this evening en route for the upper Potomac to join Gen. Patterson's division.

DINNER POSTPONED.—The ladies who have the management of the collation to be served up to the returning volunteers, have very properly determined to postpone it until such time as all the companies from this city shall have reached home, and then entertain them with "one grand feed." In the meantime the collecting committees will continue to solicit "material aid," and we trust that all of our citizens will be patriotic enough to contribute according to their means.

A PEDESTRIAN TRIP.—A party of four Philadelphians are now making a tour through Pennsylvania on foot, attired a la militaire, with knapsacks and blankets. One of them writing home gives the details of an amusing adventure. At a small village the pedestrians were arrested on the charge of being deserters from the United States army, and only escaped when the fact was developed that they were related to some of the most prominent citizens of Philadelphia and were on a tour of pleasure.

THE RETURNING VOLUNTEERS.—The citizens of other towns in this State are holding meetings and making arrangements for a public reception of the returning volunteers. No movement of the kind has yet been made in our city, except by the ladies, who propose to furnish the boys with a dinner. A public demonstration and cordial welcome is due to those who promptly responded to the call of their country, and rallied at the first tap of the drum to the defence of our national flag, and would also be a means of encouraging them to return, should their services be needed in the future. We suggest that a town meeting be called at once, and a committee appointed to make the necessary arrangements for a proper reception of our gallant volunteers.

THE CITY HEALTH IN SUMMER.—Individual care and cleanliness are more necessary at the present time than at any other during the year, in order to maintain the city health. Every housekeeper, by discouraging the practice of servant girls, of throwing offal on the streets, in violation of the law, can benefit the community. This remark applies with much force to the occupants of tenant houses in the streets which are narrow. The July and August sun purify this garbage, and a miasma is generated as subtle and deadly as that of a stagnant marsh. The patrolling policemen, also, should now report all breakers of city ordinances. Servants often throw heaps of offal and garbage "around the corner of the house," on vacant lots and convenient places generally, without their employers being aware of their practices.

BLACKBERRY WINE AND CORDIAL.—As the blackberry season is now near at hand, we publish the following excellent recipes, furnished by a notable housewife. There are no wines or cordials equal to those of domestic manufacture, and in this region where berries are abundant and cheap every family should provide an ample supply of these wholesome and delicious drinks.

Blackberry Wine.—To three quarts of blackberry juice, add one quart of water and three and a half pounds of sugar, white or brown. Put in an open jar, and let it stand two or three days to work; then bottle, and set away in a cool place for a year before using.

Blackberry Cordial.—Take any convenient quantity of Blackberries, and stew in a preserving kettle for half an hour; then strain, and boil again for half an hour, adding one pound of sugar to each quart of juice, using spices to the taste. When cool, add one gill or more of genuine Cognac brandy to each quart of juice. Then bottle and cork tight.

WOMEN AND THE WAR.—The women of the loyal States, who have already exhibited a commendable degree of patriotism, and done much for the cause and the comfort of our gallant volunteers, must not suppose that when they have provided nurses for the military hospitals, and supplied them with everything needful for the sick and wounded, that they have borne their full part of the burdens of the war. If the war continues, it will increase every man's expenses and reduce his income, and the economies of the household will become more important. There are very few families that cannot retrench to a substantial amount in articles of mere luxury and show. There are few women who cannot help essentially to alleviate the burden of dull times to the father of the family by a reduction of personal expenses, without the sacrifice of anything essential to their respectability or comfort. If the Paris styles are not followed as closely and conscientiously as usual, and enough is saved in bonnets, ribbons and laces this year to arm and equip a volunteer for the campaign, the woman who makes the patriotic sacrifice will not be less attractive. In fact, woman may bear almost equally with man the labors and sacrifices that war makes necessary, and is only denied the privilege of exposing her life for the country on the battle field. There she falls in the person of her husband, lover and son, and suffers thus often more than those who perish.

SCOLDING.—If laughter begets fat, it is no less true that scolding is the parent of meagerness. Who ever saw a plump tergiversant? The virago is scraggy—scragginess is the badge of all her tribe. It would seem that the attrition of a fierce, exacting temper gives sharpness to the human frame as inevitably as a gritty grindstone puts a wiry edge on a broad axe. Artists understand this fact, and govern themselves accordingly. They invariably represent ladies supposed to be given to "the rampage" as remarkably high in bone. Shrews are thus depicted in comic valentines, and all the illustrations of "Curtain Lectures" have presented the "rib" of Mr. Caudle without a particle of fat. Lavater, referring to female firebrands, says flatly, to their faces, that their noses are sharp. We have a dim idea that he mentions some exceptional cases of ladies with snub noses, who are given to mobbing their husbands, and these form a mild variety, and only a small portion of the genus scold.

CITIZEN, ATTENTION!—The members of the Citizen Fire Company are requested to meet at their hall this (Wednesday) evening, at 7 1/2 o'clock, for the transaction of important business. Punctual attendance is desired. By order.

RECRUITS.—A party of twenty-seven young men, recruits for the new artillery regiment now in process of organization, arrived here this afternoon. The regiment is rapidly filling up with men of the right stripe to make good soldiers.

ROW IN TANNER'S ALLEY.—A row occurred in Tanner's alley this forenoon among a party of drunken soldiers. Some of them came out of the conflict with broken heads and damaged countenances. The most inebriated man in the crowd proved to be the best fighter, escaping unhurt and leaving three of his assailants upon the field wounded. The police officers not being about no arrests were made.

TROOPS COMING.—There will soon be a general movement of troops through this city, the various regiments constituting the reserve corps having been ordered into active service. Most of them will be attached to General Patterson's division now marching through Virginia in the direction of Winchester. In a short time all the camps except the one at this place will be vacated for a season.

FUNERAL OF A VOLUNTEER.—The funeral of the late Joshua W. Munch, of the Lochiel Greys, took place this afternoon, and was the largest that has occurred in our city for a long time. An immense concourse of people thronged the street in the vicinity of Capt. Munch's residence, and the cortege was made up of a long line of carriages, omnibuses and pedestrians. The First City Zouaves participated in the obsequies, and buried the deceased with the usual military honors. As the long procession moved on its solemn march to the cemetery, men looked sad and felt that a brave young heart had ceased to beat. The firing at the grave by the Zouaves was executed with a degree of skill and accuracy scarcely to be expected from such young and inexperienced soldiers. The youthful volunteer who so promptly responded to the call of his country, and went forth but a few brief months ago in high health and with sanguine hopes of a bright future, and who would have distinguished himself under his country's flag had his life been spared, now rests peacefully beneath the green turf of our beautiful city of the dead— "Where no war or battle's sound Shall wake his last repose."

Females particularly situated, or those supporting themselves by their own industry, should use these Pills in season, as they are sure to produce miscarriage, and the proprietor assumes no responsibility for this ailment, although their mildness would prevent any such result. Moderate cases of Menstrual Disorder, such as are a base imposition and unsound; therefore, as you value your lives and health, (to say nothing of being shamed by the signature of S. D. Howe on every box, which has recently been added on account of the Pills being counterfeited.)

THE ECONOMY OF HEALTH.—This busy nation of Americans have 12,000,000 working people, whose services may be estimated at \$2 a day, and their annual loss by sickness at an average of 10 days each in the year. This gives a total loss of \$240,000,000 a sum three times as large as the whole cost of the General Government, including the Army, Navy, Post offices, Legations, Foreign Ambassadors and Ministers, and about six hundred tons in pure gold. A large proportion of this costly suffering might be averted by attention to diet, cleanliness, and above all, by the use of the famous Dr. Cassell's Food. A 25 cent box of Ayer's Pills will avert an attack of illness which it would take several days to recover from, or a dollar bottle of Ayer's Sarsaparilla, will expel a lurking disorder that would bring the sufferer to his back for weeks or months, does it take any longer to show the good economy of the investment? When Ayer's Sarsaparilla is taking in your veins, and shaking your life out of you, it is worth the dollar it costs for the cure to have the vicious disorder expelled, which it does sure and quickly! When you have taken a cold in your head, and it is settled on the lungs, when days or weeks or months must be spent in trying to cure it, even if it can be cured at all, or if it can be cured by Ayer's Cherry Pectoral, costing a few shillings, and remove the trouble before it is serious? It takes no time, and costs no more.
