WISE HEARTED WOMEN.—The ladies of Martic, Lancaster county, have sent one thousand temperance tracts to Camp Curtin, for distribution among the volunteers there. Their example is worthy of imitation.

WATCH AND PRAY.—Complaints having been made that some of our ministers make extravagantly long prayers on Sunday mornings, one of our deacons lately timed that exercise, and found it twenty minutes long! Will our divines please "make a note of it?"

THE TAMMANY REGIMENT, whose passage morning edition, is composed of Irish citizens of New York, and commanded by W. D. Kennedy, a native of Baltimore, and the Grand Sachem of the Tammany Society. The regiment reached Washington this morning.

l'assage of United States Dragoons .- The third detatchment of United States Dragoons, under the command of Lieut. James A. Brisbin, passed through this place yesterday en route for Alexandria. They carried two days provisions in their haversacks, and were a fine looking body of men.

ASSAULT AND BATTERY .- This morning Robert at Court and answer the charge. Subsequently Lune prosecuted Humphreys for committing a similar outrage upon the former's son. Humphreys also entered bail for his appearance at the August term.

THE ZOUAVE REGIMENT .- The movement inaugurated by Capt. Keim, of this city, for the formation of a Zouave regiment is progressing wich encouraging success. We learn that eight companies, now in process of organization, have b en reported, and there will be no difficulty in raising two more. The First City Zouaves of Harrisburg, composed of active young men between the ages of eighteen and twenty-one, will constitute the first company of the contemplated new regiment.

SUNDAY SCHOOL PICNIC.—The annual picnic of the Union Sabbath School Association (colored) will take place on Tuesday next. The scholars, teachers and parents will meet at the church at seven o'clock in the morning and proceed to the Pennsylvania Railroad depot to take the cars for Campbell's grove. The cars will leave at eight o'clock and return at six in the evening. Excursion tickets twenty-five cents. Persons desiring to visit the grove during the day can do so by taking the regular

ARREST OF SUSPECTED PICKPOCKETS .- This morning the Chief of Police pulled three strangers named James Ralston, Richard Williams and Charles Mott, whose movements in market were calculated to excite suspicion. It is said two of them are Philadelphia "knucks," and that their likenesses adorn the rogue's gallery in the police department of that city. When arrested one of them manifested a disposition to "blow," and the probability is that he will develop some facts showing the extent, and operations of the gang. Alderman Kline committed them for a further hearing.

GENERAL E C. WILLIAMS.—The last number likeness of our townsman, General Williams. services past and present. The General is now in high esteem by the men under his command, and has the reputation of being one of the best general officers in the division. His/courtesy as a gentleman, skill and bravery as an officer, and kind treatment of the men, render him universally popular.

SUMMER NUISANCES: - There are two drawbacks to enjoyment these hot July nights, when it is necessary for people to keep their windows open. We mean bats and bugs! A whole column might be written about each one of these abominable nuisances. The former comes into your room punctually at bed time, in a sneaking and ungentlemanly manner, and flits. just above your head with tireless wing and unconquerable energy, till your patience is well-nigh exhausted. It is idle to attempt to drive the intruder out or to knock him down. He is an Artful Dodger, and as obstinate as artful. If you have a light in your room you can see him swooping down upon you as if he were resolved to tangle himself up in your hair. and to eat his way into your "temple of thought;" and if you are in darkness you can hear the creak of his leather wings and enjoy the pleasant anticipation of a nearer and sudden anmixed horror.

It seems that our informant was entirely mistaken. No member of the company has died since leaving this city, and none are on the sick list. The boys are all in first rate spirits and eager for a fight.

Enforce the Law. - If we mistake not there is a law upon the municipal statute book prohibiting persons from bathing in the Susquehanna river, within the city limits, during the Humphreys prosecuted Robert Lane for assault day-time. This law is violated every day of the and battery with intent to kill. We did not week, to the great annoyance of ladies who learn the origin of the difficulty. The latter have occasion to pass along Front street and was bound over by Alderman Kline to appear over the bridge. These acts of "public indecency" ought not to be tolerated, and the officers are censurable for not enforcing the law.

A WRINKLE BY THE LADIES.—If the stronger ladies are evincing a universal partiality for the same color. Of all the ladies we now meet, two-thirds at least are dressed in gray barege. Made with skirts slightly gored, bound in high the same contrast, these dresses make an extremely neat appearance. More than this, the gray material, costing a dime a yard, and even less, presents as good an appearance as the most costly grenadine or tissue. In all our experience we never remember a season in which ladies dressed so becomingly at so small an outlay. The female gray reserves just now are a very numerous cohort.

ENCOURAGEMENT FOR BOYS.—We put on record, for the benefit of our youthful readers, an account of an incident which recently come under our observation. One of our citizens wishing an endorsement for his son, a young ever is to be done, therefore, in the way of lad, for a position he was seeking, called upon a gentleman prominently connected with the done at once. church which the boy attends. A certificate was cheerfully given, and among other things it stated that the youth had for ten years been a regular attendant of the Sabbath school. We have no doubt this fact had its influence in obtaining for the lad the place he sought. The best recommendation a boy can have is that he attends Sabbath school regularly and "remembers the Sabbath day to keep it holy."

> RETURNED FROM THE WAR. -The three months volunteers, whose time of enrollment expired this week, are now returning. The Allentown Infantry reached here this morning from Charlestown, en route for home, having left that place two days ago. The men are in good condition, and seem to have borne up bravely under the privations and exposure incident to a military campaign, in which they faithfully discharged their duty and did effective service. They are going home to see their friends and recuperate with the intention of re-enlisting for the war. When the Allentown boys left Charlestown our troops were still there, making preparations to pursue the flying rebels, who had retreated to a point some distance south of Winchester. They state that the Cameron Guards will be home next weeek. The citizens of Allentown have made arrangements to give the Infantry a fitting public reception when they reach that place.

We renew the proposition, made several days ago, for a public meeting to make arrangements for a proper reception of the men who so promptly responded to the call of their country, and at the first tap of the drum rallied to the defence of the flag of our Union. Let us show that we appreciate their valor and patriotism, and know how to honor the brave. Who will be the first to move in this matter? We pause

I award it to you cheerfully, occanso I think it dus.—
My age is about 50 years; the color of my hair auburn, and icelined to carl. Forme flyo or six years siace it began to turn gray, and the scalp on the crown of my he do to lose its sensibility and dandruff to form upon it. Each of these oisagreachilities increased with time, and about four mon. hs since a fourth was added to them, by hair falling off the top of my head and threatening to make me bald.

In this unpleasant predicament, I was induced to try Wood? Hair Restorative, mainly to arrest the failing off of my bair, for I had really no expectation that gray hair could ever be restored to its original color exception dyes. I was, however, greatly surprised to find after the use of two locites only, that not only was the falling off arrested, but the color was restored to the gray hairs and seasibility to the scalp, and dandruft ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it. For this, among the many obligations I owe to her sex, I strongly recommend all husbands who value the dimiration of their way so tyreft by my example, and use t if growing gray or gatting baid.
