A NYMPH OF THE PAVE, giving the name of "local habitation" in this city, Alderman Kline furnished her with a free pass into the vagrant's retreat, where she will be entertained as the guest of the city for five days.

Assaulted & WOMAN .- A man named George Carney was before Alderman Kline last evening for assaulting Lucinda Hall. He went to prison, where every fellow ought to go who is against a woman. There are too many such libels upon humanity in this community.

REGIMENTAL DRILL .- The fifth regiment of returning volunteers drilled on State street this morning, in presence of a large number of spectators, and acquitted themselves very cred itably. During the brief period the men have been in service they have made rapid progress in the science of war, and if properly officered would equal any regiment in the State. We learn that a reorganization of the regiment is about to take place, with a view of re-enlisting for the war.

The day was highly favorable for rusticating in the woods, and of course our colored friends enjoyed themselves, as they usually do on such occasions.

GOOD TIME FOR FARMERS .- Farmers will not feel the hard times very materially. Crops are good and prices will be good for almost everything which the farmer produces. And while they will be getting good prices for their products, the price of everything they consume will be lower than has been the case for years. The farmer is therefore well off and can fat upon the result of his industry to better advantage than any other slass of citizens in the common-
