Wednesday Morning, July 24, 1861.

MAYOR'S COURT was held yesterday by Alderman Kline, the Mayor not having entirely recovered from his late illness. Nine coupling. drunks, who passed the night in the lock-up, were arraigned, reprimanded and discharged.

SUNDAY SCHOOL PIC-NIC.-The annual pic nic casion with eager interest. May their pleasing anticipations be fully realized.

A NYMPH OF THE PAVE, giving the name of Alfrey McCormick, was picked up by the police about twelve o'clock last night. Having no "local habitation" in this city, Alderman Kline furnished her with a free pass into the vagrant's retreat, where she will be entertained as the guest of the city for five days.

Assaulted a Woman. - A man named George Carney was before Alderman Kline last evening for assaulting Lucinda Hall. He went to prison, where every fellow ought to go who is brute enough to raise his hand in violence against a woman. There are too many such libels upon humanity in this community.

REGIMENTAL DRILL .- The fifth regiment of returning volunteers drilled on State street vesterday, in presence of a large number of spectators, and acquitted themselves very cred Itably. During the brief period the men have been in service they have made rapid progress in the science of war, and if properly officered for the war.

SEPTIMUS PIESSE gives the following in the wealth. Scientific American as a recipe for clarifying oil for ritle gun locks: Fill a phial three parts full with almond oil, then fill up the remainder with clean lead chips. Keep the phial in a warm room and shake it now and then for a month, at the end of which time most of the mucilage acid naturally in the oil will have combined with the lead, and thus the oil will be clarified and fit for lubricating gun locks and other similar work. The lead is easily procured in chips by cutting up with a knife a couple of elongated bullets.
