THE NEW ZOUAVE REGIMENT, to be commanded by Lieutenant Colonel Good, of the late first regiment, has already been accepted by the War Department. It is the purpose of the Colonel e first in the field.

PAYMENT OF VOLUNTEERS .- The work of pay ing the returning volunteers has progressed rapidly since Sunday morning, and hundreds of them have left for home. The second regiment was paid on Sunday and another yesterday. We presume all will be paid before the close of the resent week. Owing to the crowded condition four city two regiments were ordered to encamp at Carlisle on Saturday. These will totably reach here this afternoon.

THE GRAPE CROP. -Some anxiety was felt the effect upon the game crop in this vicinity. The cold and wet conjoined gave the vines a good size and it looks healthy and promise well. Its richness and flavor will depend much apon the fall months; but nothing now appears to give any intimation that the crop may not and quality.

REV. THOMAS P. HUNT, the well-known tempermee advocate, chaplain of one of the returning legiments, preached in the Old School Presbyterian church on Sunday last. At the lose of his evening sermon he paid a handsome compliment to the ladies of our city, and on behalf of the soldiers thanked them for the temperance reform.

SELLING BEER ON SUNDAY. - Yesterday forty to fifty kegs of beer. He also refused lation :compliance with the proclamation of the Mayor, and continued to do business while other establistments were closed. In default of five hundred dollars bail Snyder was committed to prison for trial at the August term. This is the third complaint made against this man, This gentleman, formerly a citizen of Carlisle, within a few months, for violating the law pro-

SOLDIERS DEAD .- Mr. George Rife, of Norristown, one of the soldiers shot by young Starry ously ill at the residence of Lieutenant George last Friday, during the progress of the riot in Walnut street, died yesterday at the residence of Mr. Humes in Third street, from the effects of the wound received on that occasion. Several other volunteers are now lying dead in up to the time of volunteering in defence of this city, victims of typhoid fever. These men were all kindly cared for by citizens, and received as much attention as if they had been in charge of their families at home. A number more are down with the same disease.

A DEN GUTTED .--- A disreputable institution in the rear of the Capitol was stormed the other night by a party of soldiers. The furniture was proken, the walls defaced and damaged, and the entire establishment effectually gutted. The female occupants were driven out, and have not ventured to return. The storming party would have conferred a benefit upon the city by crushng out other equally infamous dens.

> WHITNEY'S IMPROVED REVOLVERS .- The improvements in all kinds of fire arms, has long een a subject of rivalry with the soldiers and inventors of the world, but it has been reserved for American genius and skill so far to excel all the world in this particular branch of mechanism. Eli Whitney, a son of the great inventor of the Cotton Gin, has accomplished the last success in this branch of the business, and his rifled revolvers are now accepted and reinventors of the world, but it has been reserved cognized as superior to Colt's revolvers.

Why do people carry money about their persons among a crowd? The cases are parallel, and the an swer to do both is, "I didn't think there was any danger." of these disagreeabilities increased with time, and about four men his rince a fourth was added to them, by hair failing off the top of my bead and threat-mug to make me bald. In this supleasant predicament, I was induced to try Wood's. Hair Restorative, maints to arrest the failing off of my hist, for I had really no expectation that gray hair could ever be restored to its original color exception dyes. I was, however, greatly surprised to find first the use of two to the sonly, that not only was the failing off arrested, but the color was restored to the gray hairs and sensibility to the scale, and dandruff ceased to form on my head, very much to the grayintarist and sensibility to the scale, and dandruff ceased to form on my head, very much to the grayintarist and sensibility to the scale, and dandruff ceased to form on my head, very much to the grayintarist and sensibility to the scale, and dandruff ceased to form on my head, very much to the grayification of my wile, at whose solicitation I was induced to try it.

For this, among the many obligations I owe to her sex, I strong y recommend all husbands who wile the idmination of their way a to pril by my example, and use it if growing gray or getting baid.

Very respectfully, 88N A. LAVENDER.
