ANOTHER COMPANY .-- We learn that Capt. Wm. B. Sipes, of the late State Capital Guards. is recruiting another company for the war. The Guards generally speak in high terms of the Captain's efficiency as an officer and kind treat determined to re-enlist under him.

THE SECRETARY OF WAR, General Simon Cameron, is still at his country seat, "Lochiel," near this city. He has numerous visitors daily. and does not obtain the rest and recreation so desirable after his laborious duties at Washington for four months past. The General will probably remain here for the balance of the

OFF AT LAST.—The artillery regiment under on their passage through the city. We confiwhen the "tug of war" comes between the Union and rebel forces.

IN HER OLD QUARTERS. -An old female of fender named Mary Toy, who seems to have a natural and unconquerable propensity for appropriating the property of other people, was up again this morning for stealing a quantity of corn and tomatoes from the garden of Mr. J. H. Ostott, on Allison's hill. Alderman Kline committed her to prison for trial. Mary had but recently served out a term for the crime of

COLONEL SAM BLACK'S REGIMENT is encamped in Cameron's woods near this city and, a more pleasant spot could not have been selected for the purpose. The regiment is not quite full, but recruiting is going on rapidly, and we hope soon to see the gallant Colonel on his way to the seat of war. His men have unlimited confidence in his soldierly qualifications and courage, and are prepared to follow where he leads, which we predict will be into the thickest

STILL ANOTHER -A man named Martin Conner was knocked down by the westward express train, the other morning, near Altoona, and almost instantly killed. It is thought that he was not right in his mind, as he was first observed standing on (or close by) the track, pointing up at the sun, and notwithstanding the whistle was sounded, he did not move until the bumper struck him. An inquest was held, and a verdict of accidental death rendered.

FALSE CHARGE.—This morning a daguerreo typist, named Levi M. Leitzel, charged a soldier with stealing a miniature case or locket from his room. When the parties appeared bemake out a case, and the soldier was discharged. cusation. The locket was of the "flash" jew elry style, and not worth stealing.

IMPORTANT INFORMATION. -It will be interesting to those not initiated, to learn that the members of the Order of K. G. C. are known by a well cultivated moustache—the balance of the face being shaved scrupulously clean. On cession is immediately put in training, so as to tances, by recollecting this fact.

THE EVENING MARKETS have been fairly inaugurated for the season, and are abundantly supplied with the various fruits and vegetables. The night market is a great convenience to our citizens, and a popular institution among all commitment to prison of a supposed escaped classes. Last evening we noticed immense piles of green corn, cabbage, new potatoes, cucumbers, beans, &c., which sold at moderate southern growth, have also made their appearance in our market. They are brought here from Baltimore and Philadelphia by hucksters. At present prices, however, these fruits are luxuries in which people of limited means cannot afford to indulge.

Went to the Woods.—This morning we met a procession of neatly appareled little girls, with sparkling eyes, smiling faces and bounding hearts, on their way to the country, to spend the day in picnic fashion, and enjoy a free romp in some shady retreat "where the

In Bad Condition .- The young soldier, Henry Charles Standish, of Company B, fifth regiment, who was married on Monday and afterment of his men, and a number of them have wards arrested for desertion, still remains in the lock-up. He had several fits vesterday, and this morning was entirely helpless from the effects of paralysis. In his present condition it is cruel to keep him in the damp and filthy quarters where he is now confined. He should either be dismissed, taken to camp, or placed in charge of his wife.

MORTALITY AMONG CHILDREN.—The usual command of Colonel Rush and Lieutenant Col- ket, and a good deal of it finds its way into the man's injuries are of such a serious nature that onel Campbell, left Camp Curtin last evening hands of children. Many of the apples now he is not likely to recover. en route for the seat of war. The men were in sold in the city are green and unwholesome, high spirits and cheered with great enthusiasm and the same may be said of pears and peaches. Some parents are green enough to feed such dently look for a good report from this regiment trash to their little ones, and the result, in many instances, is disease and death.

> THE ARMY WORM. - We learn from our exchanges that the destructive army worms have appeared in some sections of the State and are making sad havoc with the oats and corn crops Probably no more destructive animal makes its appearance in any community—whole fields of grain, and not unfrequently whole sections of country, falling a prey to its ravages. We understand that they are traveling north, and that every field of oats and corn that comes certain destruction. No means, as yet, have from their course.

ANOTHER REGIMENT ACCEPTED. -The Zouave regiment tendered to the government by Col. John W. Power, of Johnstown, has been accepted by the War Department, and will be fully organized and mustered into service in the course of a week or two. Colonel Power came here at the commencement of the war as commander of the Johnstown Zouaves, one of the first companies to march out of Camp Curtin for the scene of hostilities. He was subsequently elected Lieut. Colonel of the third regiment, and served in General Patterson's division with great credit to himself and satisfaction to his superior officers, until the close of the three months' campaign. Colonel Power springs from good stock, is a brave and gallant gentleman, and possesses the soldierly qualifications necessary to constitute a successful and popular commanding officer.

"ARREST OF AN ESCAPED PRISONER."-In our issue of Monday last we noticed the arrest and rrisoner of war, named George M. Brisbin, by direction of the authorities at Washington. Mr. Brisbin, who professes to be a printer, and is prices. Watermelons and ripe peaches, of still confined in jail, sends us the following communication in reply to our item. THE FRUIT CROP.—The fruit crop, though not so abundant as in former years, will be good in many parts of the country. Pears are very plenty, and in many orchards the trees are bending under the weight of the most beautiful apples, which are rapidly ripening and fulling to the ground.

> Boous Soldiers .- It is disgusting to walk through our streets and see the strut of the bogus soldier. There is a class of sapplings who call themselves young men, who have not the courage to go to war, nor the manliness to allow those who do go the honors and admiration belonging to a soldier. It is becoming for a volunteer, who has returned with honor, to wear the blue pants, grey jacket or military cap. The public know it, and pay respect and attention to him. But it is contemptible to see, as we are forced to see upon almost every block, two or three pups affecting military airs, strutting in semi-military rigs, and caressing an imaginary military moustache. They recognize in the brave soldier an object of ladies' admiration, and appear to think that by counterfeiting him they will receive a share which they would not if they retained their true and original face. They don't give the feminine credit of possess ing the power to detect bogus currency. They do not know how readily they are seen through, and how heartily they are despised. But these bogus soldiers are easily found out, and it is hoped their day is about over. Let the honors of war be worn only by those who have won them. Let the ladies shower their attentions upon the soldier, not the soldier's dress, and let bogus gents slide on the opposite side of the street—give them a wide berth and 'let them
