BATTLE OF DAVIS CREEK.

DEATH OF GEN. LYON. · · ·

We' publish in this afternoon's TELEGRAPH & full account of the battle of Davis Creek, in which, while we lost in numbers, we gained a partial victory. The death of Gen. Lyon will fill the country with gloom. He was a gallant soldier and a loyal American citizen. He was educated at the U.S. military academy at West Point, where he graduated with distinction in 1841, and finally rose to the rank of captain in the second infantry, and by the recent choice of the Missouri volunteers became their Brigadier General. He was in the prime of life as a military commander, being forty-two years of age. His service has been principally upon the frontiers - in the Florida, Texas, California, Oregon, Kansas and other Indian and border wars. He entered the military academy as cadet in June, 1837, and graduated in 1841. On graduating from the military academy he received his commission as lieutenant in the army, and was at once ordered to join the army in Florida, then operating against the Indians. After uncomplainingly passing through that most disagreeable campaign among the everglades of Florida, he was stationed for some years at various points on our western frontier.

Soon after the commencement of hostilities between the United States and Mexico, he was ordered to join the northern line of operations under General Taylor, and after reaching Monterey was soon ordered to join the expedition against Vera Cruz. In the bombardment and capture of Vera Cruz, and the severely contested battle of Contreras, Cherubusco and others which They complain of the hard bread and fat pork occurred between that place and the city of They have no hot rolls and omelets for break Mexico, his activity and military skill found full play. He took an active part in each and Spring chickens are invisible. In fact, the larall of them, and while fighting in the streets in the streets in the city of Mexico, near the Belen gate, on September 18, 1847, received a wound from a musket ball. After the conclusion of peace with Mexico he was ordered to Jefferson Barracks, Missouri, preparatory to a contem-plated march overland to California. By a change of orders from the War Department his are forever discontented with their colonels. regiment was dispatched by ship via Cape Horn, and reached California soon after its acquisition

of having the right man in the right place, as-signed him the place which he to day fills with such credit to himself, and honor to the admin-istration and his government. His devoted friends objected to his entering upon the dis-charge of the arduous duties of a position which has turned out to be the most responsible con-nected with the administration and the govern-ment. but scorning the shirking of responsibil. nected with the administration and the govern-ment, but scorning the shirking of responsibil-ity, he without faltering resigned his seat in the United States Senate, which by the partiality of the people of his native state, he was occu-pying for a second time, and accepted the new and higher trust, which his career shows he has involve and constantly guarded. He found arduously and constantly guarded. He found his department full of treason, and his army full of disloyalty, and in the short space of a few months, he has purified the former, and ex-

nelled the traitors from the latter. It is certain that still higher honors await the Secretary, and a grateful people both in the camp and out, will hereafter eagerly watch an opportunity of showing their appreciation of the man who knowing dars maintain the BIGHT. The News is printed in Denver, Colorado territory, and is apparently a journal of influence and respectability, if we dare judge by editorial ability and deserved patronage.

DISINTERESTED TESTIMONY.

In the midst of the clamor and resentments raised by the opposition to the state and na tional governments, which has been waged for nonths by the Breckinridge Democratic element in this state, at the head of which the Patriol and Union stands pre-minent, the following candid confession from the Pillsburg Post is the more refreshing, because it was the least expected from that source. But, as the developments of the crisis are daily made and daily exhibit the crimes and mendacity of those both engaged in and those who sympathise with treason, the better and more patriotic of the Democratic press are relinquishing their preferences for their old political allies in the south, and yielding a fair and manly support compromise, or any adjustment that will save to that cause in which is involved the security the Democratic party from ruln, and reinstate of a country they love, and the stability of laws in power the southern traitors now warring in which are reposed their peace and prosperity. in which are rejosed their peace and prosperity. The force of public opinion is working this change, where the dictates of conscience are too weak for its accomplishment—and to this force the traitors and parasites who now use the columns of the *Patrot and Union* to damage the cause of law and order, will some day yield and repent that they had heretofore so impiously trifled with its leniency. There is a boundary to treason, even when it clothes itself with the prerogatives and liberty of the press-and a limit to public patience, which those who triffe with will some day discover as they close their eyes on a traitor's gibbet. We have no fear that the right will perish. Its enfranchisements are as certain as its retributions.

But to the article from the Pittsburg Post, which we specially commend to our traitor neighbors :---

We are weary of the grumbling of volunteers. The catalogue of their wees seems to be endless. fast. The fillet-de-bouef and crequettes are missing at dinner. There is no lobster salad.clothing is not fine broadcloth. It does not al-ways fit. The stuff does not suit, and every Ditto lieutenants. Most of the privates are

ambitious, and of course grumblers. Why is it that the American volunteer, so why is it that the American volunteer, so by the United States. His stay in California was prolonged beyond that of most of his fellow-officers, and his time unceasingly employed in operating among the Indians, aubicted to long and fedious march-es, constant alarms and frequent skirmishes; living a large portion of the time in tents, and subject to the fatigues and privations incident on magnifying all errors. It is a com-mon dodge to make the men discontented with their commanding officers, in order to make position for others, and the intrigues to displace officers have become so general and dangerous as to call imparatively for some prompt action of the government. We could point out glaring cases among the Pennsylvaina troops where the most disgraceful acts of insubordination and treachery have been com-mitted by men who are now seeking to be colonels, &c., in order to get rid of their superior officers. We do not exaggerate when we say that the whole of the three months volunteers from Pennsylvania, and many from Massachusetts sailing Gen. Cameron, and rending the hand that has heretofore fed and fostered many of these wretches, it is cheering to quote the from parties eeking contracts, or who were purgood opinions of those at a distance who do not posely bent on doing this in order to slander suffer their prejudices to interfere with their of these states.
