HARRISBURG, PA.

Tuesday Morning, September 40, 1861. L. L. Allen, of Ohio, delivered his last lecture on temperance, in this city, in the lecture room of the Baptist church on Sunday. There was a large audience present, who manifested much interest in the eloquent remarks of the

To MILITARY MEN. - An advertisement in another column to military men we refer our readers who are inclined to enter the service of their country. We are assured the opportunity offered is an excellent one, and none but efficient men need address The company is to be a crack one, and in every way worthy the attention of those who wish to enter a first class regiment.

THE VERBEKE RIFLES.—This fine company, which has a large number of men sworn in, will go into Camp Curtin this (Tuesday) afternoon at 2 o'clock. If any of our young men intend to offer their services to their country, they cannot enter into any company that possesses a better set of men, or in which they would find more pleasant associates. Great care has been taken that none but good men should be taken

THE 17TH OF SECTEMBER. - Fetitions are circulating for signatures in Philadelphia, praying the councils of that city to pass a joint resolution recommending to all the citizens of Philadelphia to commemorate the 17th day of September next, the anniversary of signing the similar action by the authorities of this city.

DUTRAGEOUS ASSAULT BY ROWDIES .- At a late hour last Saturday night a soldier from Camp Cartin, named William O'Donnel while quietly walking along Fourth street above Walnut was attacked by three or four rowdies who beat him in such a merciless manner that he is not expected to recover. When found, O'Donnel was lying in the gutter apparently lifeless, with his skull fractured and other parts of his body badly bruised. He was carried to the residence of Mr. John Thomas in Fourth street, where a physician was summone! who dressed his wounds, and yesterday morning he was removed to the hospital at Camp Curtin, where he now lies in a critical condition. His assailants are known to the police, and it is to be hoped that they will be captured and dealt with according to their deserts.

Police Matters -A white man, whose name we could not learn, was put in the city lock-up about two o'clock Sunday morning by Chief Police Constable Radabaugh. The officer arrested him in the office of the Jones' House, whither he had fled, having seen the officer approaching up the street with a lantern. At Mayor give him thirty days across the way. After considerable trouble and an attempt to escape on their part, they were put into the county prison and kept there until one o'clock a. m. As they had made several attempts to escape, we thought it prudent to have them handcuffed together until they would arrive at Comp Curtin. On their arrival these them handcuffed together until they would arrive at Camp Curtin. On their arrival there they were immediately taken to Capt. HIGH-HANDED PROCEEDINGS AT THE DEPOT-A New York Lieut. Colonel on his Travels.—Quite morning, which for a time threatened to culminate in a very serious disturbance. It appears that a train of cars arrived here from New York city, containing three or four companies of cavalry under the command of a Lieut. Colonel named Kilpatrick, intended to fill up a egiment of cavalry, now in Washington city. There was some delay at the depot, owing to there being no locomotive ready to draw the train, when the Lieut. Colonel, a pompous looking dapper little individual, with "importance" written all over him, detailed a squad of men to proceed to the Round-House of the Pennsylvania Railroad Co. and procure a locomotive vi et armis. Mr. Young, Superintendent of the Eastern Division of the Pennsylvania Railroad hearing of these proceedings, at once went to the Round-House, where he found the squad in possession of a locomotive, which they had fired up and were in the act of putting in mo tion for the depot. He politely requested them to leave the establishment, which they refused to do, at the same time using highly insult-

ing language; whereupon Mr. Young, who is a stout-limbed, muscular man, struck out from his right shoulder with a force that sent one of the soldiers on a balloon expedition some five feet from the locomotive. The other soldiers at once pitched into Mr. Young, who gave every promise of being able to finish them off in detail, when they finally concluded that "discretion was the better part of valor," and left for reinforcements. They soon returned to the round house, their number augmented to ten or fifteen, but in the mean time the employees of the machine shop had rallied in full force, and evinced a determination to defend the company's property to the Constitution of the United States, as far as possible, by patriotic observances similar to those this formidable array of men, and without Eby & Kunkle's warehouse, at the canal, foot which annually mark the return of the 4th of making the least demonstration turned and re- of Walnut street. "By military authority, sir!" responded the diminutive "Importance," giving his mustache a twirl that had an awe inspiring effect.

Mr. Young intimated that when that authority eminated from the proper quarter he would cheerfully obey it, but he would not permit such outrageous proceedings in a place where the civil law was still superior to the law

The Httle officer here commenced to fume and fret in a manner laughable to look upon. According to his account he had put a steam-hoat captain in irons, and wouldn't stop a momen t to put the Superintendent, the Directors, President, and all the attachees of the road in the same condition. He was a terrible little customer, this little Lieutenant Colonel.

During the above coloquy, some of the soldiers seized the small locomotive Ontario-used for shifting cars-belonging to the Lebanon Valley Railroad Company, and attached it to the hearing before the Maror he was identified the train with the visit of running it to Baltias the man who some time ago went to Dr. more. > LECTURE ON HAYTI. - Joseph E. Williams, & native of Middletown, this county, will deliver a lecture this evening in the Methodist Church Tanner's alley, on the commercial, political and advantages of emigration to Hayti. Mr. Williams is an intelligent looking colored man, and is apparently well booked up in the affairs of the Haytian Republic. He has resided in that country since last June, and has been appointed by the authorities there an emigration agent for the State of Indiana. We have no doubt his lecture will be highly entertaining and instructive. Seats free to all.

EXPLOSIVE MATERIAL IN BURNING FLUID .- A correspondent sends a Philadelphia paper the following in reference to the manufacture of burning fluid: "As accidents from burning fluid explosions are increasing in numbers daily, let me call your attention to fact a that every one using the article should know. Certain parties are using in the manufacture of the fluid, benzine made from coal tar, as a substitute for turpentine, the latter having risen in price, owing to the blockade of southern States. The fluid made with benzine is fearfully explosive, and the slightest defect in a lamp may cause death to even the most careful in filling and handling

Found Dead .- Last Saturday afternoon Alderman Kline was called upon to hold an inquest on the remains of a man, found dead in years of age, but nothing could be found about him to ascertain his name or place of residence. Horses and Cattle for the Army .- An immense number of horses and cattle passed through the city last week, en route for the seat of war. On Monday night eighty car loads arrived at Pittsburg over the Pittsburg and Cleveland road, on Tuesday night seventy-six car loads, on Wednesday thirty-five, and on Thursday night fifty-four. These are, of course, exclusive of what came in over the Pittsburg, Fort Wayne and Chicago road. They suffer no detention at Pittsburg, and are shipped to the Capital with the least possible delay. We understand that there are over five thousand horses or the use of the army in the neighborhood of Washington now, besides an enormous number of mules and cattle. The latter are obtained
