City Bonds.-The Mayor yesterday affixed his signature to another large lot of city bonds.

REFURNED. - His Excellency Gov. Curtin and staff returned to this city yesterday from Washington.

DISTINGUISHED ARRIVAL -- Lord Tempest Vane an English notleman of high standing, arrived lordship is stopping at Herr's Hotel.

THE REPUBLICANS OF the Sixth Ward are requested to meet at the May House, on the Ridge road, this evening at 71 o'clock for the purpose of selecting delegates to the County Convention.

The regimtat is encamped at York, and intend. ed principally as a guard for the railroads which fish ball but it went through him. His demay be taken possession of by the government. We learn from the York Republican that Saturday last was a gala day in the camp, the uni-

forms having arrived in the morning. The clothing for the regiment is of far different volunteers, an affords an indication of an intention on the part of the Government to reform the abuses which have existed to too great an

extent in this respect. The uniform of the Thomas A. Scott regiment consists of pantaloons and dress coat of dark an English noticeman of the west. His blue with a blouse jacket and fatigue cap of the same color, and an over coat of light blue army cloth, and they will also be provided with a competent supply of under clothing, shoes, can-

teens, &c. A busy and amusing scene was presented at the camp on Saturday afternoon when the dis-

tribution of clothing took place. As Uncle Sam only allows his soldiers to be of three different sizes and proportions, it follows as a required size and proportion, stand a slim chance new outfit, whose coat nearly reached his heels,

CORK HAVELOCKS .-- A patent was issued on the 7th inst., to Mr. J. K. Gittens, of Greenpoint, for a novel application of cork to the in terior of hats and havelocks. The idea of this appliance is to protect the wearer from the intense rays of the sun, which it is claimed it will do more effectually than can be done by any other means. Mr. Gittens has succeeded in inventing machinery to cut cork in the very thinnest pieces. This lining which he uses for have. locks, &c., is of the thickness of paste board, perfectly elastic and a non-conductor of heat matter of course, that those who are not of the and water. ## upon an extensive scale. SAVING FOR OLD AGE --- No one denies that it

is wise to make a provision for old age, but we are not all agreed as to the kind of provision it is best to lay in. Certainly, we shall want a little moncy, for a destitute old man is indeed a sorrowful sight, and suggests to every one that his life has been fooli-hly, if not wickedly spent. You save money, by all means. But an old man needs just that particular kind of strength which young men are most apt to waste .--Many a foolish young fellow will throw away on a holiday a certain amount of nervous energy, which he will never feel the want of until he is seventy; and then how much he will want it! It is curious, but true, that a bottle of champagne at twenty may intensify the rheumatism at three score. It is a fact that overtasking the eyes at fourteen may necessitate the aid of spectacles at forty, instead of eighty. We advise our young readers to be saving of health for their old age; for the maxim holds good with regard to health as to meney-waste not, want not. It is the greatest mistake to suppose that any violation of the laws of health can escape its penalty.

Nature forgives no sin, no error. She lets off the offender for fifty years, sometimes, but she catches him at last, and inflicts the punishment just when, just where, just how he feels it most. Save up for old age, but save more than money; save health, save honor, save knowledge, save the recollection of good deeds and innocent pleasures, save pure thoughts, save friends, save love. Save rich stores of that kind of wealth which time cannot diminish. nor death take away.

VERY SOON .- The above remark by General cool under the exposure, but eager to get into a nearer position, where the courage and pow-way to defend the honor and glory of their Goods are largely on the advance. Urich &

POLICE-Before the Mayor .- There was quite a lively time at the Mayor's office last evening, occasioned by the appearance of a dozen or more of Germans, Irish and negroes of the sixth ward, brought up on a charge of maintaining nuisances in the shape of filthy hog pens. The following are the names of the parties : Henry Dahney ; Thomas Tracy ; Michael Counelly; Patrick Vaughn; Amos Cowan; Wm. Charles ; Lewis Kopheim; Fred. Manns; Michael Bengler ; Jno. Dengler ; Martin Esch ; Jos. B. Bustill. The hearing lasted nearly an hour, and presented some decidedly rich scenes. The Mayor finally concluded the cases by fining each of the parties one dollar-forgoing the costs in consequence of the dull times.

Samuel Hamilton and George Washingtonboth negroes-were found by the police "lying around loose" at the depot, and accommodawere from Carlisle, and had come here to play servants to some military officers. Discha.ged.

Jas. Rulet- a stout burly looking customer from the up-river country, was arraigned for vagrancy. James said he came here to enlist,

In addition to the above cases there were six soldiers in the lock up, charged with drunkenness and disorderly conduct--all of whom, with Rulet and Evans, were placed in the custody of a squad from the Arsenal guard and marched to Camp Curtin.

John Deller-the keeper of a lager beer saloon near the Catholic cemetery-was charged with passing counterfeit half dollars. The information was laid by a soldier, on whom, it is alleged, one of the half dollars was passed. The officer who made the arrest found two other half dollars of like character in Deller's possession, which the defendant states were passed

The na tion, through the Government, stretches out its protecting arm over the widow and the fatherless of its soldiers, tenderly adopting them as its own; and every man wounded or disabled in the service of his country, may rest assured that, in his hour of helplessness, his support is
