SABBATH SCHOOL CELEBRATION.—The annual celebration of the Sunday School connected with Shoop's church took place on last Saturday, and was quite a pleasant affair.

At an early hour the teachers and scholars of the school assembled in a grove near the residence of Mr. Alphred Milleison, in company with their parents, and a large number of visi- SPIRITED ADVANCE OF THE tors. The exercises commenced with prayer after which addresses were delivered by Rev. M. A. Smith of Hummelstown, and Rev. G. J. Martz of this city. The singing was performed by a choir of young ladies and gentlemen, accompanied by fine toned melodeons, which sounded very sweetly in the open air. An attractive feature of the exercise was the presence of two military companies, whose martial music, and skill(ul evolutions, afforded considerable amusement to the little ones. After the exercises of the morning a collation of wholesome and substantial refreshments was served up by the ladies; which was partaken of, by some four or five persons. The afternoon was devoted to music and other social amusements, which were, however, interrupted at an early hour by a shower

WASHINGTON, Sept. 22, 1861. Yesterday was a gala day in the vicinity of Tannallytown. Gen. McCiellan, accompanied by a host of military chieftains and civilians, proceeded to the encampment of the Pennsylvania reserve for the purpose of witnessing the drill and field exercise of the various regiments. The Pennsylvania boys sustained themselves admirably, and won golden opinions from the General. Their active movements, soldierly bearing, and the quickness with which they performed every evolution, elicited unbounded admiration from the distinguished visitors present, and Gen. McCall was complimented very highly for his untiring efforts in disciplining the men under his command. There is a foul blot to be erased from Pennsylvania's escutcheon— the cowardly conduct of the Fourth regiment when the battle at Bull Run was raging at its highest pitch, and about which Gen. McDowell devoted a paragraph of his official report—and I feel confident that the volunteers now in the field from that proud State will wipe out the stigma that has been cast on her fair fame. A signal corps has been formed principally from the reserve corps, and promises to render incalcula-ble service, It is controlled by a notable officer, who has performed like service on auterior oc-casions. William Woodall, formerly a sergeant in the Kepner Fencibles, from your city, epresents in part that company in the corps The pay of the members is twenty-one dollars per month. Gen. McClellan no doubt feels justly proud of the soldiers in the field from

his native State, and he will certainly place them, when the desirable time comes, in a position where they can win glory and renown. Commodore Dahlgren, commander of the Washington Navy Yald, has requested the Navy Department to issue no more passes to persons lesiring admittance, except those who have business to transact. The thousands of visitors daily to the yard, have annoyed the Commodore very much, and have harrassed the employees with interrogatives to such an extent, that they much, and have harrassed the employees could not do justice to the work assigned them. The request was readily complied with, and hereafter none can gain ingress except on special business. There is a larger force employed now in the yard than there has ever been heretofore, and it is said that eight cannon are turned out daily, besides sundry other death-dealing instruments. Add to this the various gun-boats that are constantly plying between that place and the embouchuse of the Potomac, makes it the most lively and stirring place of the Metropolis.

The provost guard of this city is doing good service, and it is really amusing to see the wry faces of officers when passes are demanded of them. The guard discharge their duties faithfully, without fear, favor, or affection. Officers are no longer seen unnecessarily away from their posts, and loafing about the saloons and principal hotels. Soldiers, too, no longer barricade the streets, or are seen in an intoxicating state. Whisky-sellers obey the mandate very reluctantly, but they know full well that their novements are watched very closely, and that regard the law comme il faul, through fear of discovery, and the punishment that will certainly ensue. The citizens of this city feel very grateful to provost marshal Porter, for his unremit-

was when in the zenith of its glory, and before Hannibal was defeated by Scipio. A hill near the old Bladensburg dwelling ground is being fortified, and as many as sixty or seventy guns will be mounted on the embrasures shortly.
This hill commands the country for miles around, and is one of the most formidable sites that could have been selected for a fortification.

There is a great deal of revolutionary fame at-

of France, "With several thousand men, Marched up the hill, and then down again."
Every available point to the city is also thoroughly fortified, and we feel as safe here, notwithstanding the rebel flag is seen in the distance, as Louis Napoleon does in his regal chair. I hear it said that the people of the north have fears that the Capitol will be atat fair prices, and the desire to please all, to tacked by the rebels. It is a deluded idea. On the contrary they are expecting a coup de main from our army daily, as verified by a statement from our army daily, as verified by a statement from a deserter who came inside of our lines a four or five hundred rebels on the Virginia side in the vicinity of where the the people living in the vicinity of where the the main army has been, in the interior of Virginia, will starve to death during the coming winter. DARNESTOWN, Sept 25. Lanshan, the murderer of Major Lewis, of oon as his sentence is confirmed by the authori-

ties at Washington. The accomplished soldier and executive offier, Captain Robert Williams, Assistant Adjutant General, attached to Gen. Banks' division, has accepted the command of a regiment of Massachusetts cavalry, six companies of which have already been raised and equipped. It is | Flattering Prospects of the National Loan expected that he will leave here in about ten days.

The latest advices from the upper Potomac state that Capt. Carnes, formerly of the rebel army, was at Dam No. 4 with a company of loyal Virginians performing picket duty. At Williamsport and Hagerstown our forces have been considerably strengthened on the Virginia side of the river from Harper's Ferry.

At dam No. 5 there were about 400 rebels of Henderson's, Rhinehardt's and Turner Ashby's corps. It is said that Capt. Henderson was recently killed in Jefferson county by one of his privates, named Miller. There are about 500 foot soldiers in and around Martinsburg, but they were generally employed in taking up the track of the Baltimore and Ohio Railroad from if they are detected in disregarding the law they it rack of the Baltimore and Ohio Railroad from will be dealt with severely. Hence all parties Opequan bridge to Duffield's station, a distance of twelve miles above Harper's Ferry. The rebels have succeeded in carrying off

three of the new locomotives, and were engaged ting zeal and energy in maintaining such good taking to pieces four others. The locomotives order, and well they may be, for the city has a well as the iron rails have been dropped at never been governed better since its foundation Stevenson's station, the nearest point on the than at the present period.

Stevenson's station, the nearest point on the This city is walled in as perfectly as Paris was Harper's Ferry and Manchester Railroad. Nothprior to the battle of Waterloo, or as Carthage ing had been done towards laying the track from Manchester to Strasburg on the Manassas road, the reason given is that they have no cross-ties. At Charlestown there were but two companies

of militia, who are being used as laborers. At Winchester there are from 3,000 to 4,000 militia, half clothed, half shod and half starved. They also are being used as laborers. Their condition is deplorable in the extreme, and they perform the duties required of them with the greatest reluctance.

Gen'l Johnson was at Lees Fauquier Sulphur Springs, where he has been staying several days for the benefit of his health. Of this fact there can be no doubt.

few days ago. Let all such fears be dispelled. In the regiment that has been raising in this district for some time is now full, and a finer looking body of men could not be scared up anywhere. Mr. Richard Wallach, Berrett's successor, presented, in behalf of the ladies of the city, in a neat and appropriate speech, a beautiful standard to the regiment, on yesterday, which was received in a pertinent manner to the federal troops systemed and wounded, by Col. Tait. A large crowd was present to the Federal troops sustained no injury.

The conflict there of the 15th inst., resulted in a rebel loss of eighteen killed-one shell alone from our battery killed eight secessionists. Not a day or night passes but bodies of the rebels make their appearance at some point on the secession side of the river, opposite Colonel Geary's line of guard, keeping his force in a constant state of bodily exercise. He only uses his artillery when he knows it will be effective.

THE REBEL LOSS 1200.

CHICAGO, Sept. 25. Special dispatches from Quincy reports by not be true, as he was at Rolla, two hundred and fifty miles from Lexington, on Saturday.

From the reports of some of Mulligan's command who reached this (ity last night, we learn the following additional particulars: The men left Lexington on Saturday afternoon. Nearly two hours were occupied in ferrying them over the river. At three o'clock

they started for Hamilton, forty miles distant, under the guidance of several armed secessionists. The advance portion reached Hamilton at sundown. At ten o'clock most of the party took the train for Quincy. Along the route to Hamilton they were in general kindly treated. All the

severely wounded remained at Lexington. Only one commissioned officer, Lieut. Hallibrone, escaped. All accounts agree that the rebel loss of killed and dangerously wounded is

One hundred mounted and some four hundred horses of Col. Marshall's regiment were killed, it being impossible to shelter them from the enemy's cannon.

After the surrender, many of the men killed their horses to prevent them from falling into the Pennsylvania 46th, was tried yesterday and the enemy's hands. > FROM WASHINGTON. Gen. Fremont not to be Removed

WARHINGTON, Sept. 25. Several prominent citizens of Kentucky have arrived here within a day or two, and are now urging the Government to haste in crowding their State with hosts of loyal troops, so as to keep Kentucky where she belongs-fast in the Union.

The popularity of the patriotic loan is something wonderful. Reports from new agencies come in from all the loyal States with large, fresh subscriptions and indications of great increase in the amounts already large. The Government also has from the Banks in the cities assurances that the fifty millions of the next instalment of the loan will be promptly paid up. The President has fully decided not to interfere with the course of General Fremont in Missouri, at present.

Interesting from Western Virginia. The following is an extract from a private etter received from Western Virginia yesterday:

"PEYTONA, BOONE COUNTY, VA., Sept. 17, 1861 —The times are truly starting here. Death and destruction are laying everything low. I am in the midst of the battle field. The two contending armies are meeting occasionally, and do up their work to perfection. Our county town has been laid low by the Peytona Home Guards and two companies of the United States army. During the engagement we killed 111, and 7 of our men wounded. Since that time the rebels feel determined to fire Peytons. The Union men have guards out night and day. I have had my furniture out in the woods nearly one week; all in the house now. The rebels are hot, fiery demons, regardless of what they do, and so far as I know and have heard, they suffer amazingly, and have done so in every battle since the Manassas fight. On the Kanawha the supposition is the rebels are in a very bad scrape. They are fightrebels are in a very bad scrape. They are fighting at Gauly Bridge, and at last report lost 450 to 55 Union men.
