THE DIFFERENCE.

Thursday Morning, October 3, 1861.

In Lancaster county, the Democracy with union ticket, because its success promises to disorganize the Republican party. In York county the Democracy are clamoring and howling an d protesting against an independent union ticket that region when in power.

This is the heighth and depth and breadth of locofoco love for the Union. In both counties trol legislation or monopolize executive patronthe extremes for and against union tickets are age. But if the People's Union ticket is tricomposed of the oldest hacks of that party, and umphantly elected—if the majority for the in both the common purpose of achieving success for the patronage it will bestow is carried influence of that result on the rebellion. It will out, while the Union or the struggle for its teach the rebels that the loyal men in the north maintenance, concerns them less than it does are true to their nationality, true to the Conthe flesh eating canabals.

-Such is modern democracy when fairly scrutinized!

mittee of his own congregation, which we should be appropriated to acchieve such a purten copy a true report of what Dr. DeWitt next Tuesday, it will afford more gratification had uttered on Fast Day, he should have the in Richmond than in Harrisburg. Remember benefit of its publication, and of course the full this, freemen, and vote accordingly! credit of his own language from his own mouth and his own pen. Further than this, candor will not permit us to go, and in justice to ourcusation, in which case his injuries cannot be allude to the fact that a large number of fact their trust and reliances. When this is estabvery severe, at least not sufficiently so to require similies of the new Treasury an annonymous defence on an accusation brought against him in the streets of Harrisburg by nine-tenths of his hearers immediately after his congregation was dismissed on Fast Day.

IN MONTGOMERY COUNTY, which is one of the ancient hot-beds of locofocoism, the county convention of that party exacted a solemn pledge from its candidates before they were reg. ularly nominated, that, in case they were placed on their ticket, they would not accept the nomination of any other party, on the plea that a Union or independent ticket would disorganize and defeat the detectable Democracy of that region. This is another specimen of the game in which these old political tricksters in every county in the state are engaged. The real Union sentiment of the commonwealth is opposed to them, and it matters not whether they appear in this locofoco garb, or put on the robes of patriotism, as the ass put on the lion's skin, they are still the same corrupt and designing horde, intent only on power for its benefits and

fact, without a word of comment, doubtless with the understanding among their friends and allies in the south, that their silence is to be regratulation on his escape.

THE CUMBERLAND (Md.,) Civilian and Telegraph of the 26th inst., says that Col. James Gilliland. acting paymaster for the state of Pennsylvania,

T. T. WORTH, editor of the Lebanon Courier, has been appointed a Paymaster in the U. S Army. This is a high and deserved compliment to a meritorious and intelligent man, and with a large majority of our cotemporaries of the VANIA.

BE NOT DECEIVED. The real Union men of this county, who have stood by the government and the loyal states, rom the hour this rebellion developed itself in the armed resistance of the people of South Carolina to the legitimate power of the government, must not be deceived by those who are now so loudly protesting their devotion to the Union. In this hour of trial and danger. we must measure men as well by their antecedents as by their present practices, and there fore we have no right to trust those who have passed their lives in alliances with the leaders of this rebellion, or accept their professions of loyalty after they have been forced into allegiance by the influence of their own corruptions and the corruptions of those who are busily engaged in the distruction of the Union. The men who, in this contest, like Dr. Heck claim that they were Union men immediately after the firing on Fort Sumter, are the most unreliable candidates in the field, while others who assert their adhesion to an authority they have sought to traduce and disgrace, are not the men to invest with responsibility or elevate to power. There is but one Union party, and that is composed of the men who rally around the federal government. Those who oppose that government or its administration in its present hands, have only a different excuse for engaging in the identical work in which the rebels are now employed. The rebellion culminated in an opposition to the election of Abraham Lincoln. Treason had long before been rife for action, and needed only some flimsy excuse to give it force and violence. It found that excuse in the free voice and preferences of the freemen of the north, and now those very same preferences are being sought to be controlled to endorse or if needs be excuse their organs are beseechingly imploring the treason. Every man who reads, can underpeople to support what they call an independent stand this fact, while it is this fact which has aroused such an opposition to the People's Union ticket of Dauphin county. If the Patriot and Union clique, the old apologists for rebellion and defenders of traitors, can accomplish the debecause its success in that county will have the feat of that ticket, it will be claimed as tendency of exposing and preventing a repeti- an old fashioned Democratic victory in favor of disappointed, and its privilege to secede and convulse this Union, whenever it seeks to conticket is large, there can be no mistaking the stitution and laws, and firmly determined to sustain the one and vindicate the other at every hazard. There must be no mistaking these facts at this hour. There must be no waiting "A HEARER," who writes to us in relation to until the knives of traitors are at our throats, our strictures on the sermon preached by Rev. before we assert our adhesion to the Union, as W. The new Treasury notes have already attractselves, we cannot allow any outside interference ed the attention of the villains engaged in the in a matter involving our own veracity and the counterfeiting business, while another class of to command and valor to lead. These facts we allegiance of Dr. DeWitt. If the Doctor is too persons have adopted a different plan by which desire to impress on the minds of the volunteer elevated to stoop to this fair proposition for his they unconsciously make themselves parties to soldiers, while we commend them to the confiown defence, he is also too high for our ac- frauds on unsuspecting or ignorant people. We denoe of the Governor, and the Governor to note having bee issued in New York and Philadelphia of a high order of workmanship, with the intention, evidently, of employing them, as advertisements of the business of the person causing them to be prepared. Many of these are executed so well, and resemble the genuine notes so closely that an expert swindler or other villain, could, without serious difficulty, palm them off a genuine upon the artless and vnwary.

A practice so dangerous ought to be discontinued at once. Of course we attribute no improper motive to those who have designed these fac-similie Treasury notes, or used them for advertising; but they may be the occasion of mischief, and ought not to be placed where unprincipled persons can employ them for purposes of mischief

THE MILITARY FORCES OF PENNSYL-

The people of Pennsylvanis have responded to the summons of the federal authorities, for aid in maintaining their power, in a manner which is deserving of the highest distinction while the state government has been untiring in its exertions to organize and consolidate those forces, so as to render their appearance on the field and their services in action as prompt and as effectual as possible. The efforts of both the state and national administrations depend for success entirely on the responses of the people and therefore we must again urge the valor, the patriotism and the enthusiasm to these responses in a manner that will best subserve the public interests, without regard to the ambition or the claims of any man or set of men to positions of command. The material abounds immediately to organize a large force in Pennsylvania, but from circumstances over which the state had no control, that material has fallen into the hands of a number of men incompetent to command, and where unquestionably competent, too corrupt to be invested with military authority. These cases are now the impediments to the prompt organization of an effective military force, and while dealing with them the Governor must expect to provoke much bitter feeling, more resentment, and perhaps dangerous confusion. All this, however, can be avoid. ed if the volunteer soldier is true to himself, true to his country and really anxious to serve that country, in the most imminent hour of

peril in its history. We need men! THE COUNTRY WANTS THE SER. VICES OF ALL ITS CITIZENS. WITHOUT REGARD TO THE POSITION ANY SINGLE INDIVIDUAL MAY DESIBI TO OCCUPY, OR THE HONOR AND PROFIT MEN HOPE TO DERIVE FROM THIS STRUGGLE. Impressed with these facts, and doubtless appreciating more fully the crisis in which we are involved, on ac count of their facilities for deriving knowledge the state authorities are constrained to appear to the people, and urge them at once to such organizations as will enable them to be sent forward without delay to the scene of action. The mere preference for a captain, the anxiety tion of the frauds peculiar to the Democracy in slavery, its right to rebel when it is politically of a colonel for his commission, or the steady persistency of a brigadier to retain his power and emoluments, must not be permitted to impede the military organization of the state, nor dare Gov. Curtin much longer refuse to collect the men who are scattered over the state, or who are crowding camps in this vicinity, organize them into regiments or brigades, and see that they are promptly put on the march. If a few individuals fail to be made Colonels, the loss is their own, and not the country's, because thou. sands of men will be contributed to the service by such loss and such promptness-and if even the fragments of brigades that are foraging in the country, are consolidated to make a respecta ble regiment, let it be done at once for the sake of economy in the commissariat and promptnes

in the organization of our forces. We trust that the men who are to compos our armies will at once see the necessity of their speedy organization, and interpose no flimsey objection in the shape of a personal preference for an officer. The cause in which they are to would select, would pronounce such writ- pose. If the People's Union ticket is defeated light is a good one, and it matters not who leads them into battle, so that they are led by ax perienced and trusty men. Such men will be ecured to them, if they confide in the state anthorities. No regiment will be allowed to leave the state unless competently officered, and no captain or lieutenant will be commissioned by the Governor, unless such officers have ability

The following correspondence between Brig. Gen. Negley and staff, and Gov. A. G. Curtin, is one of the refreshing incidents that occasionally occur amidst the multifarious duties and responsibilities of the Governor, to assure him of the possession of the personal confidence and respect of those by whom he is surrounded. The presentation of the "cane," in this instance, was a spontaneous act on the part of the doners, and reflects as much credit on themselves as it seeks to bestow on the Executive of Pennsylvania. We invite the attention of the reader to this pleasing incident in the military and civil intercourse at the state capital.

FUNERAL OF GEN. GIBSON.

ANOTHER STORY FROM A CONTRABAND WASHINGTON, Oct. 2. The funeral of General Gibson took place at

noon, and was the occasion of a grand military display. The President with the heads of departments, Gen. M'Clellan and numerous field and staff officers participated in the procession. A contraband came into our lines yesterday morning, near Falls Church, and was taken to the head-quarters of Gen. McDowell, at Upton's Hill. He stated that he was the servant of the surgeon of the 15th Georgia regiment, which was encamped, together with two other regi-ments, tour miles from Falls Church, on the road leading to Fairfax Court House. He also said that there are no rebel troops there except ing those just mentioned, neither were there any fortifications this side of Fairfax Court

He gave as a reason for the recent precipitate retreat of the rebel army, as mentioned by offi-cers in his hearing, that they were fearful of a flank movement by the federal army from the direction of Lewinsville; that he had heard his master, the surgeon, say on Thursday last that the fortifications on the river below Washington were very extensive, and that Gen. Beaure gard had given orders to close the navigation of the Potomac to our vessels.
