REBELS EN ROUTE. - A party of fourteen rebels, captured in Kentucky, passed through here this morning in charge of a file of soldiers. commanded by Lieut. John P. Ely, formerly of Lebanon, this State, but now attached to the 19th U.S. Infantry. We presume the party were en route to Fort Lafayette.

SHOCKING RAILROAD ACCIDENT.—The fast line west, yesterday afternoon, ran over and instantly killed a little girl aged three years, daughter of Mrs. Hopkins, while playing on the track at Kinzer's station. The child, horribly mutilated, was picked up by its mother. The engineer saw the child too late to check the speed or the locomotive, but blew the whistle as an alarm. The train was detained for a short time.

SERIOUS ACCIDENT.-A workman on the Pennsylvania Railroad, named Josiah Walters, was seriously injured on the railroad vesterday at Middletown by falling from the repair truck, the wheels of which ran over him, crushing one of his legs below the knee. He was brought to his residence in Fourth street, above Walnut, this city, where he received medical attention from Dr. Roberts, and he is now doing as well as can be expected under the circumstances.

FELL FROM THE BALCONY. - An interesting son of Mr. Wm. M'Mullin, residing in North street, a few doors west of Third, met with an accident yesterday morning, which may result in his death. The child was playing at the top of a pair of steps leading from the yard a member of the Eldership, but at the same to a balcony in the rear of the house, when his foot slipped and he was precipitated head foremost down upon the brick pavement, a distance of about ten feet, fracturing his skull, and receiving other contusions of a very serious na-

PROPOSALS FOR BEEF.—By reference to our advertising columns, it will be seen that the government is again inviting proposals for furnish. ing beef on the hoof. Proposals will be received until the 21st of October. The government will take from four to six thousand head. The maximum weight must not exceed thirteen hundred pounds, and the minimum one thousand. The cattle are to be delivered at Chambersburg, Harrisburg or York, Pennsylvania. The government reserves to itself the right to pay in Treasury notes or other funds it has for disbursement, and to reject any bid and for any cause. No bid will be entertained unless the bidder is present to respond.

NEWSBOY'S STRATEGY. -The following is but a sample of the numerous expedients that are have contributed much more towards the resorted to by the newsboys of Cincinnatti, when they find the demand for their papers unequal to their supply: one day last week, the afternoon Times was devoid of interest, owing to the failure of tetegraph to convey to that | previous to his death, that every local church metropolis any news of a startling character. is an independent republic, making laws for The boys found sales exceedingly slow, and itself, and is at liberty to manage its own affairs prices anything but encouraging.

Half a dozen of the little urchins—each with about five papers in his hand-selected one of marks, they insist upon the right of the matheir number, to whom they gave their aggregate stock in trade "with a proviso," which was that he should stand at the corner of Fifth and Vine streets and vociferously cry his wares, and that the remaining five should shortly make an onslaught upon him, destroy his papers, and thus create in his behalf the sympathy of a large crowd that must inevitably gather to witness the conflict.

The "poor little fellow" was to mourn his loss deeply, to declare that his mother would ing the majority, but also will enjoy his minisheat him, and the supposition was that a subscription would immediately be raised to compensate him for his papers. Twenty-six copies of the Times were rolled in the gutter and des- much trouble. During the years in which this troved. The appointed battle fought, sympathy enlisted and the money raised. AN ENGINEER'S RESPONSIBILITY .- Reader, have you ever thought, while dashing over bridges. through valleys, around hills and precipices and under mountains, at the rate of three minutes, or less, to a mile, that your personal safety, even your life, is in the hands of the engineer, and the responsibility which rests upon him. You know not what is ahead—you could not anything in the way of the minority, we conknow if you wished to, for it is more dangerous to attempt such a feat than to keep your position, and even if you were to observe danger you are powerless to avoid it. The engineer is the only man on the train who looks ahead. He keeps his eye fixed upon the track every moment the train is in motion. Upon his vigilance and skilfulness depend the safety of all on board the train. How awful to think that the lives of so many are in the hands of one man, and that no action on their part can render them more secure. There are certain dangers, too, which an engineer cannot guard against, bea train whirling down a precipice or into a gallant band of soldiers would carry the gloririver. How important that an engineer should be a good man in every respect, since such a liberty and human freedom, triumphantly through the South; that we might live to see a resolution of the south of the sout occupation, and deserves to be classed higher homes crowned with victorious laurels, and b situation of him who may have been the innocent cause of it. Give the railway engineer his place, and let him feel the responsibility of his calling.

THE FOURTH STREET BETHEL CASE.—As this case, which has been in court nearly three years, has reached an important point in its progress, we presume many of our readers will | Consequently no services will be held in the be glad to know the position in which the va- Fourth street Bethel until in the evening. rious parties to it now find themselves. In addition to the wish of the public to know what has been done in the matter, we have another reason for alluding to it—namely, a request from that obscure journal, the Church Advocate that we shall do so. We will comply with the request of our religious cotemporary, though we fear that in doing so we may diminish its already too small stock of amiability.

This suit, which was commenced by the late Rev. John Winebrenner and a few others, was instituted for the purpose of compelling the fill up the "Guard" to the requisite number. Bethel Church in this city, to receive as their pastor the Rev. Adam X. Shoemaker, who had been rejected by an overwhelming majority of the members of the church. Mr. Shoemaker presented himself as the appointee of the East Penna. Eldership, and attempted on a certain Sabbath to enter the pulpit, although it was already occupied by Rev. James Colder, whom the majority of the church had elected their pastor nearly a year before. As the attempt of Mr. S. was resisted by the officers of the church, he and Mr. Winebrenner, Isaac Stees, Jacob Updegraff, (the last three of whom have since died,) and others, commenced proceedings in the Court of Equity for the purpose of reducing Mr. Colder and the church to submission.

After various hearings, arguments, &c., Judge Pearson has at length issued a decree, by which, f we rightly understand it, he orders that an election for trustees shall be held, at which new officers shall be chosen in place of those now serving the two sections of the church. At this election all the members in good standing in the two divisions are to be allowed to vote. This arrangement will give to Mr. Colder's friends the officers thus to be chosen, as we understand his adherents number seventy or eighty more than Mr. Shoemaker's.

The Judge also directs Mr. C. to cease his ministrations in the Bethel as settled pastor unless he will connect himself with the East Penna. Eldership, whose ministers alone, his Honor holds, have a right to serve in that capacity. He further furbids the majority to settle any other person as pastor unless he may be time allows them to keep the house open for worship, Sunday school, &c., and permits them to engage any minister they may choose to serve them as a supply. This part of the decision, doubtless, is very distasteful to those who oppose Mr. Colder, as it gives to his friends, who are the majority, everything they desired except the one right of making him their settled

The decree further refuses to compel the church to receive at any time the ministers who may be sent by the East Penna. Eldership unless such ministers are the choice of the majority. The Judge here expressly denies the right claimed by the late Mr. Winebrenner, under plea of which the attempt was made to force Mr. Shoemaker upon the church. And so the chief point for which the suit was commenced has not been secured.

The friends of Mr. Colder, though rejoicing that so much has been conceded to them, are dissatisfied that the decision forbids his serving as their settled pastor; especially in view of the facts that they are the majority, and erection of the Bethel than those who have seceeded. They also claim that the teaching of Mr. Winebrenner, the founder of the denomination, was, until a very short time without any foreign dictation whatever. Holding to what they claim to be the ancient landjority to settle any pastor whose teachings agree with the only standard which the denomination has hitherto acknowledged—the Bible. They, therefore, have appealed from the decision given by Judge Pearson, and purpose bringing their case before the Supreme Court, which will be in session in this city next June. The appeal suspends the decree of the lower court. and thus not only will Mr. Colder's adherents continue to use the Bethel in virtue of their betrations in it for at least many months to come.

Whatever the result of the appeal may be, we do not see that the majority need anticipate somewhat bitter strife has been going on they ily increased in numbers, and, together with their pastor, have been cordially fraternized with by all the churches in the city, with, of course, the exception of Mr. Shoemaker's .-From these evidences of vitality and worth, and knowing that they have strength enough to bear all the burdens placed upon them, we feel safe in predicting for them a career of prosperity and usefulness. While we would not lay fess our sympathies are with those who oppose hurtful innovations; and who claim the privilege, which every Protestant church should enof saying who their pastor shall be.

CAPT. EYSTER'S COMPANY IN CHURCH.-In last evening's Telegraph, we published an extract from an Ohio paper, speaking in very flattering terms of the military company commanded by Capt. Jacob M. Eyster, of this city. We have since seen a letter from the gallant Captain himself, from which we are permitted to make the lowing extract:

"The Methodist preacher, of Delaware, incause he cannot foresee them—such as the breaking of a flange, a nut, a screw, an axle, a broken rail, an insecure bridge, and other defects in workmanship, any of which would send to do flood, he hoped that Captain Eyster with his church. responsibility rests upon him. It is no common peace proclaimed, and return to our happy than it really is. While everything goes well, the position is not accounted much save by the position is not accounted much, save by lated me on my glorious success in recruiting those who desire its pecuniary reward; but let such a brave and intelligent looking set of such as the such as t a serious accident occur, and no one envies the young men, the very flower of Delaware county,

ARREST OF ONE OF THE PERPETRATORS OF THE OUTRAGE ON MR. SIMONS.—A man named Wm. M'Lean, a volunteer attached to the Johnstown DR. DUPONCO'S GOLDEN PILLS Zouave Cadets, now in Camp Curtin, was arrested this morning by Officer Campbell, charged with having been one of the party who waylaid and beat Mr. Luther Simons on the road near Allison's Hill, on Fast Day—the particulars of which were noticed in the TELEGRAPH at the time. M'Lean, in default of bail, was committed to prison to answer.

ATTEMPT TO MURDER COL. JOSEPH F. KNIPE. A telegraphic dispatch from Darnestown, Md., says that "about 6 o'clock Thursday evening, just after parade, private Samuel D. Martin, of the Forty-sixth Pennsylvania regiment, shot Col. Samuel D. Knipe, and his son, Charles D. Knipe, with a revolver. Col. Knipe was shot through the shoulder and right arm, and his son through the right hand. Martin is a half-brother to Lanaham, the murderer of Major Lewis, of the same regiment, and has exhibited bad blood to Col. Knipe for some time. Martin was immediately placed under arrest." The "Samuel D. Knipe" mentioned in the dispatch is undoubtedly intended to mean Joseph F. Knipe, of this city, who is the Colonel of the Forty-sixth regiment. The person mentioned as "his son," is the brother of Col. Knipe.

STICK TO IT.—No matter what your business s—if it be honorable—stick to it and you will make a good living, if not become rich. Any pursuit well followed for a dozen of years will make a man independent-providing always that he is prudent himself, and has a wife who takes care of what is carried into the house. How many engage in business and drive it for ward for a year or two, and then abandon it for some other scheme to be driven as fiercely first, and to be given up as soon! No wonder so few become independent. A man must stick to it for years before he will begin to realize much. A mechanic who is now worth \$30,000 just remarked to us-"I have been on this spot for more than five-and-twenty years, and never had a desire to change my business." Stick to it was the secret of his success; for, to our certain knowledge, when he commenced business, he had to run in debt for the tools he worked with. In the early part of his life, at different times, he was associated with partners who became uneasy and left him. Not one of them added a dollar to the funds they accumulated in business with this gentleman, Their shift less characters made them run from one thing to another, and hence their bad success. So says an exchange.

We repeat—whatever your business or profession be-stick to it-in season and outamid hard times and prosperous times—and it at the approaching general election in their you do not succeed there is no truth in us. We camps? do not say that a man may not be unfortunate the long run, than those who are fickle-minded, and who are driven about by every wind that home with the steady and industrious man, than with the stranger who first commenced digging gold in California.

ATTORNEY GENERAL'S OFFICE, HARRISBURG, Sept. 27, 1861. My opinion is requested by the Governor on the following questions, viz:

I. What volunteers will be entitled to vote II. Whether the volunteers so entitled to

ote, can vote for County officers? after years of toil, for people often are, but we do say men who will stick closely to one thing unteers will be entitled to vote in their camps, will succeed better and make more money in except such as are in actual military service in conformity with law, viz: Such as are in service under the authority of the Governor on the requisition of the President of the United blows. We would rather stand our chance at States. All the field officers of such regiments will be commissioned by the Governor, and the holding of such commissions by the field officers will be a fair test of the right of the regi ment to vote.

II. The Act of Assembly provides that the volunteers may exercise the right of suffrage; volunteers may exercise the right of suffrage; we can give abundant proof of all we claim in favor of course they have as much right to vote for of our Improved Rocalog having applied them to several thousand Roofs in New York City and vicinity. County officers as for any other. W. M. MEREDITH,

Attorney General. "Since writing the above an additional ques tion has been propounded to me, viz: Where men from several counties are in the same company, what course should be pursued? I am of opinion that in such cases there should be separate ballot-boxes, tally lists &c., for each county, and the votes should be returned, to each county, of the voters entitled to vote in

such county."
