metows for duty. The steamer Pocahontas is at the Navy Yard to exchange her present armament for a heavier

Numerous complaints and charges have been ITALY .--- It is rumored that Gen. Faute suc ceeds Cyladina at Naples. The Opinione deems masters for malfeasence in office. The matter it likely that a law on the internal administrawill forthwith be investigated and the parties, tion will shortly be published abolishing the if found guilty, punished.

Gen. Meigs denies the statement that any the recently discovered peculations.

quantity of forage at about ten per cent. less than is paid by private individuals in Wash-

PRIVATE information has recently been received from the rebel army which renders it probable that their strongest position is about a mile and a quarter in the rear of Manassas Junction, where the entire available reserves of the South are being collected. This information comes from a person who has recently, in the interest of the Government, visited all the principal points from Richmond to Leesburg. He fully confirms previous reports of the dissatisfaction and demoralization which exist in the recent national victory at Hatteras, and by the ill-success of Floyd, Wise and Lee in West-

MORE TAMPERING WITH RAILROAD BRIDGES .---A gentleman of Zancsville, who was on the first train which passed over it on Monday morning, reports to the Zancsville *Courier* that a railroad bridge, seven miles west of Xenia, and in the direction of Dayton, was damaged so as to make it unsafe for trains to pass over it. It was found on examination that braces and other timbers had been removed, and if a train had ventured on the bridge it would have given way. The bridge was repaired in short order. It had been arranged to send a large body of troops over it that night, but from some cause or other they were sent by a different route, and therefore no harm was done.

A LARGE RIFLED STEEL GUN, manufactured at Pittsburg, was tried there recently. rounds were fired with very satisfactory effect. but a fourth round with a double charge, burst the breech plug bands, disabling the gun. The ball, however, was driven completely through an eighteen inch tree, traversed some distance beyond, and was buried four feet in a bank. in cylindrical grooves on the surface. This band after firing, was shown to have been perfectly

AN IMMENSE BREAKWATER has just been completed at Portland, on the southern coast of England. The whole work was done by convict labor. It is described as a mole of loose stones, three hundred feet in breadth at the base, £900,00, twice the estimated expense. At the Captain Dove, late of the Pocahontas, has end of the mole a first-class fortress will be bailt.

THE Southern papers continue their complaints against the shinplaster currency, and the Richmond Dispatch says if prompt measures are not immediately taken to suppress the circulation of such illegal issues, the whole South preferred against certain regimental Quarter- | will be flooded with them, as every individual who chooses will force his worthless due-bills on the community. Matters are evidently getting worse in "Secessia."
